J. Glenn Beall, Jr. Reports from Washington

Congressman, 6th District, Maryland

In recent years, the proliferation of the use of credit cards has been a mixed blessing to millions of Americans. On the one hand, the use of the cards has made it possible for thousands of households to purchase needed goods and services with an ease never kuown before. It has simplified many financial transactioons and has enabled the average wage earner to keep an up-to-date, accurate record of the money he spends. Properly used, the credit card has been a boon and most of us are glad to have them.

On the other side of the coin, however, there have been problems with the use of credit cards. Frequently they are lost or stolen and many times used by those for whom they were not intended. As a result, thousands of card holders have had money added to their bills before the losses were discovered. Recently another problem has come to the attention of Congress with respect to these cards. Many stores banks and other businesses have mailed hundreds of cards to persons who have not applied for them. Many of these cards have gone to families that are not prepared to handle them and have found their use to create more problems than they solve. Often the result is financial debt which breaks the budget and brings unfair burdens to the new card holders.

The fact that the problem has been so widespread has encouraged the proper committees of the Congress to examine the situation with an eye toward legislation that would help alleviate the difficulties. This coming week the Congress will act on a proposed bill in this area. The thrust of the legislation is to prevent the mailing of credit cards unless they fall into one of a number of categories.

If, for instance, the card is specifically requested by the addressee then it can be sent through the mail. If it is a replacement for a card previously issued or mailed as a substitute for a card lost or stolen, it can be sent through the mails. It can also be sent if it is in an envelope that is clearly marked as an unsolicited credit card and which can be refused by the addressee. Failure to comply with the provisions of the bill leaves the violator (the person mailing the card) subject to a $1000 fine per offense.

While this is obviously not the complete answer to the credit card problem it is a start and I'm confident that the bill will pass as written. It may help to curb just one of the abuses of the credit card system and lead to additional beneficial legislation in this area.

Receives Combat Infantry Badge

Army Private First Class Ralph E. Rodeheaver, whose parents, Mr. and Mrs. Russell A. Rodeheavor, and wife, Doris, live on Star Route 2, Oakland, recently received the Combat Infantryman Badge during ceremonies near Bear Cat, Vietnam.

The badge is a unique and cherished award. The award was originated during World War II to recognize the role of the Infantryman. The CIB can be awarded only to a member of an infantry unit of brigade, regimental or smaller size unit who satisfactorily performed in active ground combat against a hostile force for a period of time.

In honor of its singular meaning, the badge is worn above all other awards and decorations, over the left breast. It is a blue rectangle with a silver rifle mounted on it, superimposed over a curved wreath. Subsequent awards are represented by stars at the top center of the wreath.

Private Rodeheaver received the award while assigned as a gunner with Company B, 2nd. Battalion, 47th Infantry, 9th Infantry Division. He entered the Army in September, 1969 and completed basic training at Ft. Knox, Ky.

A SUMMARY

As you all know, the Primary is drawing near. And, therefore, I want to talk to you directly.

I have tried throughout the campaign to speak out on the issues that I believe affect all of us.

I have done this because I feel that you should know where I stand. You should know that I have spoken out:
on supporting President Nixon
on Social Security
on Gun Control
on Women's Rights
on Law and Order
on Conflict of Interest
on Representative Government

I have said these things because I want you to know where I stand. These are the issues that will affect you and me. For I believe that we must now put people above politics.

If you agree with me than I ask you to support me on September the 15th.

Suppliers of Pulp Wood Plan Meet

The third Annual Pulpwood Suppliers' Field Day will be held Tuesday, September 22, near Oakland, according to an announcement just released by Westvaco officials.

Sponsored by Westvaco Corporation, the Field Day will provide an opportunity for logging equipment manufacturers to demonstrate to pulpwood and log producers the latest developments in specialized equipment used in their business. Some 400 persons attended the Field Day last year and a like number is expected this year.

The event will take place from 9:30 a.m. to 4:30 p.m. on the Tomar Farms, owned and operated by T. J. Johnson, three miles west of Oakland, on Herrington Manor Road.

One feature of the equipment demonstration will be rubber-tired pre-haulers which operate on the same principle as skidders but with the addition of a self-contained hydraulic loader and racks for transporting specific pulpwood and log lengths from a stump to haul trucks.

Free lunch and refreshments will be served.

Summer Weather

It is still in the summer season and seasonable weather has been holding out on the Mt. Top. We have had sunny, pleasant weather with warm temperatures most of the time. Autumn does not begin officially until next Wednesday, September 23.

Last Thursday rain started to fall in mid-morning and continued until a thunder storm about mid-afternoon. After this the skies began to clear and the temperature went to 73 degrees. Friday was sunny and pleasant with a temperature range of 50 to 68 degrees. Saturday was much the same except a little more breezy. It was again much the same on Sunday except a greater temperature range. It went from a low of 46 to 76 degrees.

Monday was mostly cloudy but with some sunshine. The day started with a low of 55 degrees. The temperature went up to near 80 degrees and it remained warm until late in the evening. It was a mild 62 degrees Tuesday morning and mostly cloudy. The clouds cleared and it became sunny, warm and humid with a high of 81 degrees. Fog and a low of 55 degrees ushered in Wednesday morning. The fog cleared and the day became sunny and pleasant with the high again of 81 degrees. Thursday started the same as Wednesday with the sun shining as the fog lifted.

Grand Jurors Are Charged By Judge Hamill

Suggestion Made On Solving Road Situation; Note Given On Drugs

Associate Judge Stuart F. Hamill, Jr., delivered the charge to the September term grand jurors when they convened Monday morning in the Court House in Oakland.

For the third time Judge Hamill stressed the fact that Allegany county had witnessed the importation and use of illegal drugs among teenagers and adults. He pointed out that this county also had witnessed this problem to a small degree and that it was possible that this county would experience serious drug problems in the future, but he cautioned that if this became a reality "you may rest assured it will be detected in the early stages and dealt with severely."

The judge took several minutes to discuss the "deplorable situation existing in the county as a result of the strike some months ago by the County Roads department workers."

The judge earlier ruled the strike to be illegal and therefore the workers legally discharged after they were ordered back to work and refused to go. A hearing on a contempt charge by the Commissioners is set for September 17, but the judge said, in his opinion, "any other proceedings now pending in court are not likely to settle this deplorable situation."

The judge suggested similar steps to those advocated in an editorial in The Republican of August 27. He suggested the return of some 50 workers and another 50 or more to make a full complement of road workers, that the commissioners employ all the old workers and sufficient number of new men, to put them to work at the pay scale suggested, with the workers immediately repairing the county roads before bad weather. He also suggested that in a

Beall and Tydings To Battle It Out In November Vote

Rep. J. Glenn Beall, Frostburg, received a strong endorsement from this area by easily outdistancing Wainwright Dawson, Jr., and Harry Simms.

His opponent in the November general election, incumbent Joseph D. Tydings, defeated Geo. P. Mahoney in a tight race throughout Maryland. Tydings, who swept to victory in Washington suburbs, won his Senate seat in 1964 from Beall's father. Tydings led Mahoney 186,838 to 143,161, weathered attacks from several quarters.

Beall got one of the largest votes of the county balloting. He received 2,499 votes compared to 94 for Dawson and 175 for Simms. Mahoney trimmed Tydings in this county 1,030 to 437. Allegany County also gave Beall 7,497 votes. Tydings in Allegany County beat Mahoney 2,611 to 2,604.

Jurors Return 7 Indictments; Meet Two Days

Fifteen Witnesses Testify; Petit Jury To Meet September 28

The September term grand jurors completed their work on Wednesday after having been in session for two days. They did not meet on primary election day.

They returned seven indictments after examining fifteen witnesses. They failed to indict in one instance.

Joseph J. Johenning served as foreman while Dennis Sanders and Elda Whetsell served as clerks. Guy E. Broadwater served as door keeper.

Numerous recommendations were made for repairs to the court house, jail and the county roads garage. The jurors noted the tires on vehicles both inside and outside the building were deflated and recommended that all buildings belonging to the county roads department be kept locked and workers who were on strike to be kept off of the property. They also recommended changing all locks on county road property. It was suggested that the County Commissioners hire a guard to protect this property. They also recommended that each man hired at the county garage have a physical examination.

The grand jury agreed with the judge's recommendation concerning the roads situation.

An inspection showed the hospital in fine condition and recommended the possibility that the hospital employ a night watchman.

Byron and Hughes Win Nominations

State Sen. Goodloe E. Byron won the Democratic nomination for the sixth district congressional seat while George R. Hughes, Jr., took the GOP nomination and will be competing with Byron in November.

Byron walloped Mayor Thomas F. Conlon by gathering 29,521 votes to 5,959 for Conlon in the district. Charles McPeek tallied only 1,237 votes. He was defeated two years ago by Congressman Beall.

Hughes, a Maryland Tax Court judge, Cumberland, easily won the GOP nomination by 15,692 votes to 5,603 for Elton R. Wampler and 4,409 for Everett R. Johnson.

Firemen Save Mt. Lake Park Building

A blaze of undetermined origin was extinguished by Oakland firemen yesterday morning about 11 o'clock at the old Calhoun store building in Mt. Lake Park. The flames were confined to the upper back porch although there was some smoke damage in the interior.

The apartment was occupied by Burl Welch family of four children. The building is owned by Frances Calhoun Lewis.

Repairs Needed for Casselman Bridge

A discussion of repairs needed for the historic Casselman River bridge at Grantsville, was discussed by Harry Edwards, Paul Calderwood and Dan Hershberger with the County Commissioners at a meeting September 8.

The Historical society wants to preserve the bridge as it is a registered national historical landmark. A thorough examination is to be made to determine the extent of repairs.

In other board activity the commissioners named Lawrence Groves to serve as a member of the Sanitary commission to fill the unexpired term of George Perrine, who resigned.

The members of the Sanitary commission, and J. Haig Jackson, executive director of the county's Development corporation, discussed with the board the need for hastening the start of construction of sewage facilities to serve the Bausch and Lomb plant. John McNair, consulting engineer has recommend that untreated sewage from the plant be carried to the proposed lagoon for treatment rather than providing a treatment facility at the plant. McNair, Simmons and Cline, consulting engineers have been instructed to prepare plans. Plans also were discussed in regard to the water supply to the new plant.

Mandel and Blair Governor Nomin'es

Gov. Marvin Mandel was an easy winner over four little-known competitors for the Democratic nomination for governor in Tuesday's balloting, a job he was given by the General Assembly in 1968 after Spiro T. Agnew became vice president.

On the Republican side C. Stanley Blair, who quit as Agnew's top Washington aide to campaign for office, was an easy winner. He rolled up 44,710 votes from 631 precincts, more than four times the combined total of his two opponents, Peter James and John C. Webb, Jr.

Mandel had 161,459 votes compared to 20,938 for his combined opposition from George H. Wright, William E. Roberts, Dan W. Salamone and Milton R. Rothstein.

In Garrett county Blair had 1,667 votes, James, 556, and Webb 249. Mandel received 1,399 votes, Wright 112, Roberts 99, Salamone 66, and Rothstein 47.

In the battle for Comptroller Harold Cross was winner over Howard F. Wiedey on the Democratic contest. In this county Cross received 851 votes to 377 for Wiedey.

The complete unofficial returns appear in today's issue.

Postmasters Will Meet At Oakland

Edward V. Dorsey, executive director of the National Association of Postmasters, will speak at a seminar-dinner of area postmasters on Saturday, September 19, at Proctor-Kildow Post, American Legion home, in Oakland.

Postmaster Guy William Hinebaugh, Oakland, will be host. Presiding at the seminar will be Postmaster J. Ward Livengood, Friendsville, area vice-president of the NAP.

Attending will be postmasters from Allegany, Garrett, Washington and Frederick counties as well as nearby West Virginia communities.

Grand Jury Shifts

Five changes were noted among members of the Grand jury which met Monday morning for the September term.

Excused from duty were Mrs. Hazel White, Blanche Rafter, of Kitzmiller; Everett B. DeBerry, Harry O. Billmyer, and William S. Blocher. Associate Judge Stuart F. Hamill drew in place of these individuals the following: Robert E. Watson, Grantsville; Betty Jean Roth Liller, Oakland; Guy Emerson Broadwater, Accident; Carol Ann Wakefield, Friendsville; and Herman P. Rodeheaver, Friendsville.

They reported on Monday with the other 18 members of the grand jury. Joseph F. Johenning, McHenry, is serving as foreman of the grand jury.

W. A. Wilson Wins Vote for Senate

Allegany county's incumbent State Senator, Noel Speir Cook, lost out Tuesday in the primary election to W. A. Wilson. Wilson also defeated Garrett County's aspirant for the office, William W. Grant. Grant received a large majority vote in this county but was no match for Wilson in Allegany county.

Wilson received 3,330 votes in Allegany and 183 in this county for a total of 3,513. Mr. Grant tallied 2,148 in this county compared to 381 for Cook and 183 for Wilson, but he received 621 in Allegany county for a 2,769 total. Mr. Cook was third with 1,801 in Allegany for a 2,182 total.

There was no contest for the House of Delegates. In the general election there will be Decorsey E. Bolden, Republican; B. O. Aiken, Democrat, and Walter H. Leake, Deer Park minister, for the American party.

Voters Select Nominees In Tuesday Ballot

Sines And Paugh, Incumbent Commissioners, Defeated

Garrett county voters turned out some 65 percent strong in Tuesday's primary election and turned out incumbents John R. Sines and Allen S. Paugh in their bid for re-election to the office of County Commissioner. They gave strong support to the popular candidates for governor, U. S. Senate and Congress and gave William W. Grant a huge majority over his two Allegany county opponents, but was unsuccessful in his bid for his first political office.

William Fitzwater, Samuel J. Thomas and J. Edward Tasker were the GOP nominees for county commissioner while the Democrats named Bernard M. Guy, Earl E. Opel and Wayne B. Hamilton.

The voters chose James E. Frantz, incumbent, as Republican nominee for sheriff and John F. Browning, Democratic nominee for the same office.

George M. Browning, Arthur G. Coddington, Arthur S. Tichnell, William R. Bever, Clarence Penman and Harold O. Riggleman won the Democratic State Central committee, with Darrell M. Wotring, Jr., being the only loser. For the Republicans Homer L. Bennett, William G. Welch, N. Ross Selby, Cleda L. Baker, Paul M. George and Stephen B. Harvey were named to the committee. They were unopposed.

The drive by union personnel for election of their candidates was not effective. Paugh, Virts and Turner, their candidates for County Commissioner were defeated, as were Raynovich and Jack Sowers, the latter a candidate for sheriff. Ed Tasker, who disavowed he had asked for support from the union, won over John R. Sines commissioner incumbent, who was definitely anti-union. Opel, who was named for commissioner district 2 on the Democratic ticket, was authorized by the union but there was some question as to whether or not he had asked for this endorsement.

Fitzwater, who defeated Paugh by 161 votes in unofficial returns, made a good run four years ago and succeeded this year in ousting Paugh who had served two terms or more. Paugh had indicated his sympathy with union activities.

An interesting race is fore-

Contempt Hearing Again Postponed

The hearing requiring striking county former road workers and union officials to show cause why they should not be cited for contempt of court, which was scheduled for Friday, September 4, then postponed until September 17, has again been postponed indefinitely, at the request of W. Dwight Stover, attorney for the county commissioners.

The first postponement was granted when William Engelman attorney for the American Federation of State, County and Municipal employes, sought additional time to prepare his answer.

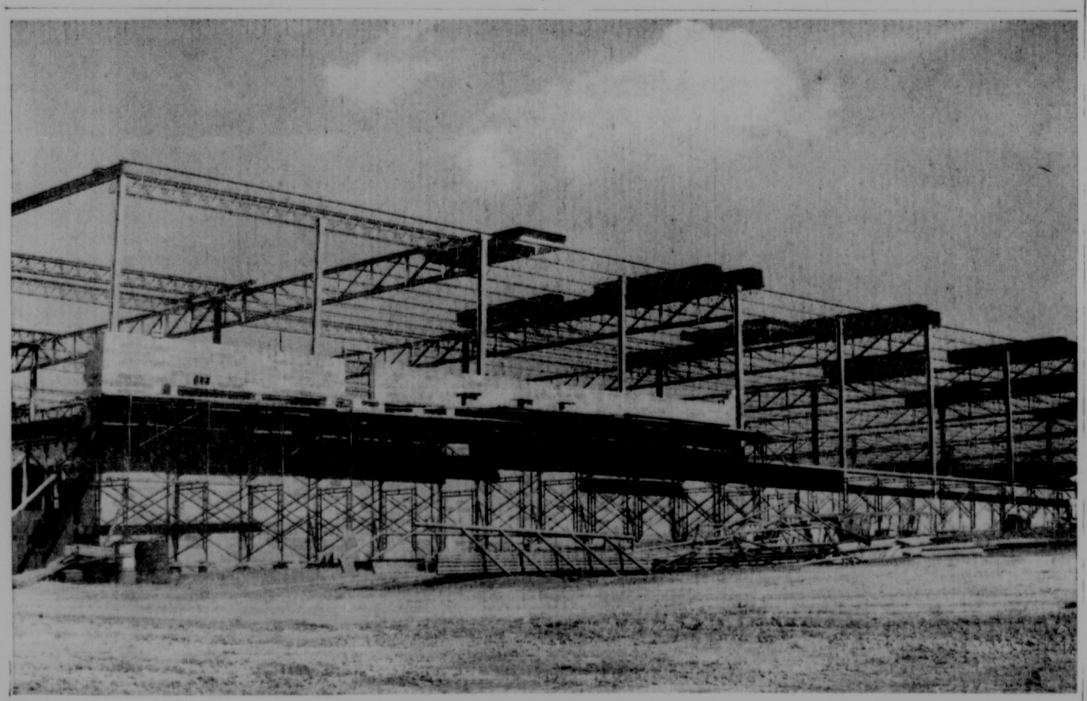
County Has Grant For CAC, $235,000

A $235,000 grant to the county Community Action committee, Inc., Oakland, to provide 65 workers with meaningful employment under Operation Mainstream, was announced by U.S. Senator Charles McC. Mathias, Jr.

The Maryland Republican said that Operation Mainstream is operated by the U.S. Department of Labor.

Senator Mathias said that Regional Manpower administrator William R. Curtis had informed him that the amount would enable the CAC to provide 65 workers with jobs. Senator Mathias noted that the program is aimed at unemployed adults of all ages but primarily those over 45 are provided work that improves their community.

The program is for 26 weeks. Workers will receive $1.60 per hour.



JUST A CORNER—This is just the southwest corner of the new Bausch and Lomb plant. It is a study in geometric design of trusses, scaffolding and blocks. The administration building already is closed in. Size of the structure is so immense that only about a third of it is covered in this picture. The plant is located just north of State Route 135, in the Shady Acres section, east of Mt. Lake Park. The structure is creating a lot of interest and many persons are inspecting the site every day.

period of no more than 60 days to conduct an election under federal mediation supervision to determine whether or not they desire to become members of a union.

The judge pointed out they had a legal and constitutional right to join a union if a proper election so determines, and that the county commissioners had a legal duty to maintain the county roads.

He also suggested that if the aforegoing was unacceptable to the commissioners that the matter be settled by duly and properly selected arbitrators and that the commissioners agree to be bound by such arbitration. He said the grand jury may either consider or ignore the suggestions, and indicated that some of the members might have a better idea as to how to resolve the matter.

The balance of the charge was similar to that delivered in previous charges. He pointed out in general terms the duties of the jurors and called attention to their responsibilities.

Exceptions . . .

A most uncomplimentary story appeared in the Evening Sun, Baltimore on Wednesday, September 9, and the fact that the editors saw fit to use the article written by Thomas B. Edsall was most unfortunate. It was not a true picture of Garrett county, to say the least.

There are exceptions to every rule and it seems that Edsall found all the exceptions he could unearth in his surface inspection of this area. He could find such exceptions on Pennsylvania avenue, West Mulberry street, west Franklin street, and Fulton avenue in Baltimore city. The unpleasant publicity, of course, has stemmed from the hassle between union sympathizers and the County Commissioners, which is a controversy that creeps into many localities. It was blown out of proportion by the reporters of daily newspapers.

We would rather look at the brighter side, for instance, why the Bausch and Lomb company decided to settle their new manufacturing plant in this county: The community college program and the kind of people who reside here. These are the two main reasons causing the industry to decide to settle here, they said. We ought to sentence these far-out reporters to spending three winter months in the lookout tower on Snaggy mountain.

—o—

Contemptible . . .

About the kindest things we can say about a statement by Allen S. Paugh, in his campaign literature this past week are "comtemptible and malicious," and stating "half-truths."

In a sheet distributed throughout the county he said he was "taking this means of reaching you with my statement, as The Republican newspaper refused to print it."

Mr. Paugh appeared at The Republican office Wednesday morning around 10 o'clock. The deadline for advertising is Tuesday evening at 5 o'clock. He was told, "Sorry, you are too late." The radio was suggested as a means of distribution. The Tuesday evening deadline is carried on The Republican masthead each week, for all to see. Mr. Paugh knew this, so his half-truth in his circular is nothing less than malicious, designed, we suppose, to gain votes and to put The Republican on the spot-why, we don't know, for there was nothing in his statement that was controversial.

It so happened that 5 minutes after Mr. Paugh was in the office, another candidate appeared and he was told the same thing. In fact 6 advertisers that morning were told "too late, sorry." There has to be a cut-off time somewhere to insure that The Republican appears on time each week. No favoritism is shown. Several letters to the editor have come to the office on Wednesday mornings which often-times do not get published.

Regardless of the outcome of the Tuesday primary, we felt compelled to say what we have said, and we repeat--it was contemptible and malicious, and distorted purposely.

ducts division and in contracts engineering and fiber optics. Mr. Fischetti received a BS degree in mechanical engineering from Pratt Institute, Brooklyn, N. Y., and an MS degree in the same subject from Massachusetts Institute of Technology. He is a U.S. Navy veteran. He and his family expect to move to Oakland early in 1971.

Mr. Rebele has been an executive with material handling firms in Maryland, Ohio and Pennsylvania. He attended the University of Pittsburgh and received a BS degree in Forestry from Pennsylvania State university. He served in the U.S. army corps of engineers.

Northern Huskies Trim Parsons 28-16

Lee Sutherland romped 50 yards with an interception in the fourth quarter to insure Northern High's second straight football victory, a 28 to 16 conquest of Parsons last Friday night at Parsons.

The Panthers had pulled to within four points of the Huskies at 20 to 16 and were driving toward a possible go-ahead TD when Sutherland saved the day.

Northern jumped ahead with a pair of touchdowns in the first quarter both coming on two yard bucks by Rich Wakefield. Parsons, however, came back with a second quarter TC on a six yard run by Rod Poling.

After a Steve Myers pass was good for 25 yards and a touchdown to Steve Reese, Parsons came back again with its third quarter score to put the outcome in doubt.

The Huskies amassed 307 yards in total offense, 247 coming on the ground. Myers was four for eight through the air, good for sixty yards.

The Huskies led 12 to 8 at the half, with both teams getting an additional eight points in the third quarter.

The Huskies will travel to Berlin on Friday.

Student Voices

On Watching the School Go Up in Smoke

by Dwight Harvey

At a recent Southern High School Student Council Meeting one student suggested that the council attempt to have the county regulations forbidding smoking in schools rescinded.

No action was taken on the suggestion and I don't think that any should be. I am not against smoking because of any moral reasons. There are other reasons, however, why smoking should be forbidden.

The first argument that I have against school smoking is the filth it would create. Picture the school with cigarette butts, wrappers, and matches strewn through the hall and clogging the water fountains. Where there is a waste problem, there is also a waste disposal problem. Why should taxpayers have to pay for ashtrays and trash cans for smokers?

My second, although primary, reason for disagreeing with school smoking is the discomfort it creates for non-smokers. I, and I'm sure a substantial number of others, do not like being in smoke-filled rooms, halls, or cafeterias where we must breathe choking, gagging, cancer-causing smoke.

If someone wants to smoke I feel that it is his decision. People cannot dictate morals to others. However, no one has the right to impinge on the rights of others. This is particularly true of the right to breathe clean air in a public building. No one should be allowed to smoke in Southern High School.

MARIJUANA IS A CRIME

"Smoking Pot" is a serious crime that may affect your entire life. Prison and, or, large fines can be imposed. Convictions can prevent you from entering a profession or ruin a business career. Government jobs are almost impossible to obtain.

Statements reporting that Marijuana is medically safe are not supported by present facts. It is true that it is not addictive. There are no physically painful withdrawal symptoms. You can stop if you have the willpower.

But exposure to the illicit drug pushers, who sell Marijuana, influences users to try the narcotic drugs. A 1967 study of city narcotic addicts showed that more than 80% had first used Marijuana. And, narcotic addicts, who are "hooked" call it a "living hell."

Michaels-Swauger Nuptials Are Held

Miss Carolyn Ann Swauger, daughter of Mr. and Mrs. Charles Swauger, Grantsville, became the bride of Harry Allan Michaels, son of Mr. and Mrs. Henry Michaels, Frostburg, Saturday evening, September 12, at 7:30, in a candlelight service before an altar decorated with white gladiolus and carnations, at the Cherry Grove Church of the Brethren. Mrs. Alice Marie Wilhelm, organist, provided traditional wedding music and accompanied Donald Newman, vocalist.

Given in marriage by her father, the bride wore a gown with an A-line skirt of white crepe and long sleeves and cuffs, covered with lace and a long train to match. Her headpiece was of French illusion, affixed to hand rolled roses of matching material. She carried a colonial bouquet of white flowers.

Maid of honor was Miss Ambra McFarland who was dressed in a floor-length gown of hot pink with matching headpiece and hand corsage. Bridesmaids were Betty Jo Swauger and Sue Swauger, sisters of the bride, and Vicki Miller, niece of the bride. Sheryl Guthrie, cousin of the bride, was flower girl. All were dressed in olive floor-length gowns with matching headpieces and carried hand corsages of tinted carnations. Roger Miller, nephew of the bride, was ring bearer. Mr. Michaels chose William Klotz as his best man.

A reception was held at the American Legion home for approximately 250 guests. A five-tiered cake was baked by the bride's mother. Linda and Helen Guthrie, aunts of the bride, served punch. The cake was cut and served by Mrs. Ruth Miller and Mrs. Ora Miller. Mrs. James Guthrie and Mrs. Marie Hixon were in charge of the refreshment tables. Delmas Swauger and Sherry Miller registered guests. Mr. and Mrs. Michaels, after a short trip to Hagerstown, will reside in the Durst apartments in Grantsville.

Valley-Southern Tie At 20 To 20

Bill Hunt scored on a pass play covering 64 yards from quarterback Larry Miller with 1:53 remaining in the game as Valley High of Lonaconing salvaged a 20-20 tie with Southern High Rams last Friday night at Southern.

The Rams had taken a 20-14 lead earlier in the final stanza when Pete Cosby scored on a ten-yard end sweep.

Southern drew first blood in the second period when Rick Shaffer tallied on a six-yard run. Valley went ahead in the same quarter when Miller fired an eleven-yard scoring toss to Jim James. Miller's pass to Hunt added the two point conversion.

Southern took a 14-8 lead near half on Ruff Ridder's 38-yard gallop to paydirt. Valley knotted the count on Miller's one-yard plunge in the third quarter.

Ridder was Southern's leading ball carrier with 106 yards on 15 carries. Shaffer added 71 yards, also on 15 tries.

Southern had 13 first downs to 11 for Valley. The Rams tried four passes and completed none while Valley tried six and completed four. Each team had a pass intercepted.

Southern fumbled the ball eight times and lost the ball on four occasions, while Valley fumbled four times and lost it on three occasions.

Coach Bill Frost said his team was fortunate to get out with a tie considering all the fumbles.

Southern will travel to Frostburg on Friday evening for a renewal of a series with Beall High school.

Accidents Since September First Numbered 21

Since the beginning of the month of September twenty-one accidents have occurred in the county. Eight of these were over the Labor Day weekend. Sixteen persons were injured in six of the accidents. Two accidents just north of Oakland involved a cow. One accident on U.S. route 40 was the result of another which had just occurred. Information is from records in the office of the Maryland State Police, Oakland.

Three cars were involved Sunday, September 6, at 1 p.m., on state route 42 in Friendsville Violet V. Myers, Farmington, Pa., and Linda S. Morrison, of Uniontown, were operating motorcycles and did not observe a car operated by Gary K. Dixon, Friendsville, and struck it. Linda Morrison was injured and taken to the Garrett County Memorial hospital in the Friendsville Fire Company ambulance. There were no other injuries and only minor vehicle damage. No charges were made by Tfc. Charles E. Loeber.

On September 1, at 10:20 p.m., Thomas J. Lute, Akron, O., going south on U.S. route 219 in McHenry came upon a car operated by Milton G. Mullenax, Whitmer, W. Va., who had stopped to get directions. Lute was unable to stop in time to avoid the Mullenax car and swerved and hit a 55 gal. drum, and then collided with the Mullenax car. Thomas Lute, the driver, and three passengers, Allen Lute, Helen Johnson, and Wanda Lute, all of Akron, were taken to Garrett County Memorial hospital in the Van Meter ambulance. Car damage was light and no charges were made by Tfc. R. S. Lewis, who attributed the accident to poorly marked road construction in the area.

Ray A. Bittinger, Accident, was driving east on U.S. route 40 near Beall School road, at a normal rate of speed Saturday, September 5. He came upon a car driven by John M. Eckenrode, Baltimore, pulling out onto Rt. 40 which skidded out of control across the road, hit the Bittinger car and both came to rest with the Eckenrode car pinned between the Bittinger car and the telephone pole. John Eckenrode and his passenger, Mary Eckenrode, were taken to Sacred Heart Hospital, Cumberland, in the Durst Ambulance of Frostburg. Car damage was moderate. Charges are pending according to Tfc. Charles E. Loeber.

Tuesday, September 1, Sharon L. Romans, Media, Pa., was going west on U.S. Rt. 40 west of Amish Rd., ran off the road and lost control of her car. She re-crossed the road and struck an embankment. She and her two passengers Monique and Jay Himelfrab, Wildwood, N. J., were taken to Miners Hospital, Frostburg in the Newman ambulance. Her car sustained $800 damage and she was charged by Tfc. C. D. Skidmore with reckless driving.

Walter H. Billings, Salem, Va., was going south on U.S. 219 just north of Oakland September 8. He observed a car driven by John E. Rolls, Cumberland, in front of him and applied his brakes. This caused his tractor-trailer to jack-knife. Rolls observed the truck skidding and veered to the shoulder, overturned and struck the tractor. Roll's car was a total loss. He was injured but refused treatment. Tfc. Robert D. Lashley made no charges.

Last Friday night Clarence W. Collins, Deer Park, was going east on Rt. 135 near Deer Park at a high speed. His car ran off the road, hit a culvert, flipped over, knocked down two mail boxes and came to rest on its wheels in a ditch. His car was a total loss and he and his two passengers, James McCroskey and Steve Ervin, all of Deer Park were taken to the Garrett County Memorial hospital in the Van Meter ambulance. Tfc. R. S. Lewis charged Collins with operating at a speed too great for conditions.

A cow was involved in two minor accidents on U.S. 219 just north of Oakland. It got in the way of Bernard E. Dixon, Oakland at 6:30 a.m. September 9 and John Nesselerodt encountered the same situation. No charges were placed against either driver.

Due to congested conditions at the White Water races on September 5, two minor accidents occurred on Savage River Rd. James K. Bittinger Oakland, side swiped a car belonging to Claude Norman. No charges were made. Reuben Sears, Keyser, crossed the center line and struck the car of Reva Smith, Thornsville, O. Sears was charged by Tfc. Lewis with failing to keep to the right of the center of the road.

Karen Reeves, Pittsburgh, going north on St. Rt. 826A near Oakland, crossed the center line and struck a car driven by Agnes Cosner, Bayard, W. Va. There was light car damage and no injuries. FFA Launches New Vocational Program

Making rural communities better places in which to live and work is the object of a new program recently announced by the Future Farmers of America. The theme is "Building Our American Communities."

The FFA units at both Northern and Southern High schools under Harold Loughrie, at Northern, and Richard Bishoff, at Southern, are involved in this program on a local community level.

They are now in process of clearing administration approval and permission on ideas presented by members.

The program is a joint effort of the FFA, the U.S. Office of Education and the Farmers Home Administration. The FHA has prepared a "Guide to Understanding and Developing Communities" for use by the vo-ag instructors in high school vocational agriculture classrooms. The guide outlines discussion that can be related to any community and includes topics like identifying the wants and needs of the local community, analyzing the resources available for improving the community.

A second phase of the program will involve FFA members in community action projects. Chapters will be encouraged to take on constructive projects that will improve their communities.

Some signs of strain are showing between Nixon and Agnew.

PHARMACY HAS ITS LIGHTER SIDE

"Do you have Prince Albert in a can? You do? Well, please let him out." Youngsters just cannot resist calling us with this age-old joke. But frankly, we have never really minded this or the occasional other inoffensive joke. For it keeps our sense of humor alert in a profession that is mostly concerned with the seriousness of helping to treat sickness.

It also gives us a lift when a customer tells us a humorous incident about their child or family. For it makes our relationship more personal and we consider ourselves to be a personal service pharmacy. We feel that a good laugh can sometimes be the best available medicine and we try to always have it in stock.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons.

BY LAWRENCE W. ALTHOUSE

"NO GOOD"

Lesson for September 20, 1970

Background Scripture: Genesis 28 through 28; 32; 46:1-3.
Devotional Reading: John 1:43-51.

"That boy's just no good!"

That seems to be a favorite line for some adults, doesn't it? It has probably been said millions of times since history began. It has been said of some of the world's most infamous tyrants and villians and others whose names are found in history's "dishonor roll".

Rev. Althouse

People also probably said this of young Jacob. They had plenty of reason for saying it too. Jacob was the kind of boy who craftily turned every situation to his advantage, regardless of what he might have to do or to whom he might have to do it. For example, using his brother's near-starvation, he "conned" him in to surrendering the birthright that belonged to Esau as the first-born.

The supplanter

What kind of brother would do that? The kind of brother Jacob was! He was well-named, for Jacob meant "he supplants," —he takes the place of another. That was Jacob all right.

Nor was this the last time he supplanted his brother Esau. In Genesis 27 we see him once again, stopping at nothing to get what he wants. The "blessing" he wants from his father was more than just some "nice words" from a dying man. The ancients believed that a man's dying words were capable of exercising real power over the events he would foretell. These words were thought so powerful in themselves that they would hold true even if mistakenly bestowed on the wrong son. No wonder we are told: "Now Esau hated Jacob . . ."

Fearing for his life and encouraged by his mother, Jacob began a 350-mile journey back to Haran, the land from which God had called his grandfather Abraham. The trip would be long and treacherous and he was carrying an extra load: a burdened conscience. The neighbors probably said: "Good riddance; that boy's just no good."

A stone for a pillow

We can imagine how weary and foot-sore Jacob must have been as he sank to the ground that night. Quite a turn of events had just taken place. A few days earlier he had been "on top of the world," having gained his brother's birthright and his father's last blessing. Now he was a fugitive: alone, broke, hungry, tired and possibly deeply troubled. Last night he had slept in the comfort of his father's house, tonight he had only a stone for a pillow.

Yet, perhaps that is what he needed—a stone pillow for his head. Without that there might have been no dream, and without the dream Jacob might never have become Israel, the father of the Twelve Tribes. That tells us something about life, doesn't it? Sometimes we need a "stone pillow," an experience of hardship, suffering or pain in order to be able to see the truth.

In his dream, Jacob encountered God—not just any god (for the Canaanites believed there were many), but the God of his grandfather Abraham and his father Isaac. Strange as it may seem, he was now to be Jacob's God and Jacob was to father God's chosen people.

The strange choice

Why did God pick Jacob? Didn't he know that the supplanter was "just no good"? We can understand his choice of Abraham, a man of faith, and Isaac, who was an obedient man. But why Jacob?

We can never completely answer such a question. Yet we know that when God chooses a man it is not because the man is worthy as he is, but because he has the potentiality to become someone useful to God. God has often made strange choices in people. Jesus did the same thing when he chose twelve to be his disciples. Yet, by the grace of God these choices have often changed the world.

CHRYSLER
Announcing the 1971 Duster.
The big difference in small cars.

We first introduced the Duster as the best transportation bargain in America. It still is. And we built Duster to be America's "small-enough-but-big-enough" car. And it still is.

Small car lovers of America, your day has come.

You have more tires to kick, more doors to slam, more hoods to look under, more colors to choose from and more test drives to take than ever before.

Which leaves us to convince you that Duster gives you the most car for the money. That it's small enough, but big enough. And that, all in all, it's the ideal small car.

Room. More of it to accomodate more passengers. More of it to accomodate more luggage.

Most small cars are four-passenger cars. And when you sit in some of them, they feel like they were built for three-and-a-half passengers.

Duster's a five-passenger car. It seats five, comfortably.

Besides carrying more up front, Duster carries more in the trunk. You can stuff 15.9 cubic feet of stuff into it. (One of the new small cars has about a third as much trunk space.)

Small enough for maneuverability. Big enough for stability.

Duster's small enough to slip into about ¾ of a parking space. Yet it's big enough to give you stability on the open highway.

It has our unique torsion-bar suspension (for better handling). And unibody construction—its strength completely surrounds you.

So Duster can handle stop-and-go city traffic as well as freeway traffic because it's the right size, the right weight and it *handles*.

Our small-enough-but-big-enough car has a small-enough-but-big-enough engine.

Duster's standard engine is our rugged 198 cubic inch, 125 horsepower Six.

It gives you great gas mileage *and* a little more power than other small cars' smaller engines.

And that's a perfect combination.

Options. You have over 50 to choose from when you order a Duster.

Think of it this way. It's a convenience to have a lot of conveniences to choose from.

If you're considering buying a new small car, and you have certain options in mind to go along with it, you may find Duster the only small car that offers them.

There are things like a Stereo Cassette Tape Player, V-8 engine, vinyl roof and power brakes that you just can't get on some small cars.

The Duster success story: to be continued.

No doubt about it. Duster is the car for the times.

Over 175,000 Duster buyers thought so last year. And we expect more of the same kind of success with the 1971 Duster.

Before you buy a small car, look at our small car.

Duster. Built and engineered with extra care.

Southern Speaks

Attendance Policy Instituted

Southern's attendance policy has been changed this year following a study made by a faculty committee last year. It was accepted unanimously by the faculty and reviewed by the administrative staff of the Board of Education.

It makes the following provisions:

1. Unless satisfactory make-up work is turned in within a reasonable period following an absence, a student's grade will be dropped one percent for each day he is absent.

2. If a student misses class because of punishment by the administration, he receives a zero in each class. (In effect last year.)

3. After ten days of absence, a student will be required to appear before a board of five teachers on his grade level. They will make recommendations for improvement of his status.

4. After twenty days of absence he would again come before the board. The board would make recommendations to the administration for his promotion or retention in that grade. Recommendations would be on the basis of the circumstances relating to absenses and make-up of the individual case.

It is hoped this policy will encourage students who have more than the normal number of absences to improve their attendance record and to make up work that is missed.

The majority of the students do make up work missed and do have good attendance records. This is evidenced by the 95% plus average attendance record for last year.

Firemen Answer Alarms

Slight damage to an automobile owned by Mrs. Barbara Webster, occurred as a result of a fire in front of her home on Center street in Oakland on Monday afternoon. Damage was estimated at $20 by Oakland firemen who answered the call. The flames were out on arrival of the firemen.

Oakland firemen also were called last Friday afternoon about 2 o'clock to Hutton where a shed full of hay was destroyed by fire. The owner of the shed was Snowden Lewis with occupant of the farm being Lester Lewis. The building was nearly down upon arrival of the firemen. There was no insurance.

Oakland firemen were also called to the B. and O. station on September 4 as the result of a trash fire. The flames were out on arrival.

Assault Trial Is Moved To County

A change of venue has been granted in the case of a 20-year old Eckhart man who has been charged with assault with intent to murder a 15-year old Cumberland girl last April.

The young man, John Leroy Kroll, is presently an inmate of the Allegany county jail in default of $10,000 bond.

Judge Harold E. Naughton, Allegany County Circuit Court, last Thursday signed the change and the case will be heard in the Garrett County Circuit court. The request for the removal was made by John C. Sullivan, attorney for Kroll. No date has been set for the trial.

Kroll recently was returned to Cumberland after undergoing evaluation tests at the Clifton T. Perkins State hospital at Jessup, to determine if he could stand trial.

The alleged assault occurred April 30 in Constitution Park. The girl involved in the case was found in a semi-conscious condition in a wooded section of the park by a group of Boy Scouts who were on a cookout. Kroll was arrested that same day by State Police and has been in custody ever since.

Resolution of the Mayor and Town Council of Mountain Lake Park, Authorizing and Providing for the Establishment of a Municipal Planning and Zoning Commission; and For Related Purposes.

WHEREAS, the Mayor and Town Council of Mountain Lake Park, Maryland, in accordance with Sections 409 to 427 of Article 12 of the Code of Public Local Laws of Maryland (Code of Public Local Laws of Garrett County, 1957 Ed.), is the governing body of the Town of Mountain Lake Park, a municipal corporation located in Garrett County, Maryland, and with such additional powers as are granted by Article 23A of the Annotated Code of Maryland (1957 Ed., 1967 Replacement Volume) and such other acts as may have been and may hereafter be enacted by the General Assembly of Maryland; and

WHEREAS, under regulations of Section 204 of the Demonstration Cities and Metropolitan Development Act of 1966 and Section 201 and Title IV of the Intergovernmental Cooperation Act of 1968, comprehensive planning for a municipality is required in order to qualify for grants-in-aid and certain other forms of Federal and State assistance for development of public facilities; all of which is more fully set forth in Circular A-95 of the Bureau of the Budget of the Executive Office of the President, to which reference is made for further details; and

WHEREAS, the said Mayor and Town Council is authorized under the provisions of Section 10 through 37 of Article 668 of the Annotated Code of Maryland (1957 Ed., 1968 Replacement Volume) to establish a Municipal Planning and Zoning Commission; and

WHEREAS, at the special meeting of the Mayor and Town Council of Mountain Lake Park, Maryland, held on September 11, 1970, at Mountain Lake Park, Maryland, there being present and voting the said Mayor and five members of the said Town Council, the following determination was made by unanimous vote.

THAT in order to defray a portion of the cost of public facilities by grants-in-aid and other forms of Federal and State Financial assistance, such steps be taken by the Mayor and Town Council of Mountain Lake Park, Maryland, as may be required in order for the Town of Mountain Lake Park to qualify for such financial assistance.

THEREFORE, be it resolved by the Mayor and Town Council of Mountain Lake Park, Maryland, at the special meeting on September 11, 1970, in Mountain Lake Park, Maryland, by unanimous vote of the said Mayor and five members of the said Town Council, as follows:

Section 1. Authority and Membership: That under and by virtue of the authority contained in Sections 10 to 37 inclusive of Article 66B (1968 Replacement Volume), there is hereby created in the Town of Mountain Lake Park, a Municipal Zoning and Planning Commission, the members of which shall be appointed by the Mayor and confirmed by the Town Council, and shall consist of a member of the Town Council and four members who are residents of the Town, or vicinity.

Section 2. Term of Office: The initial members of the Municipal Planning and Zoning Commission shall be appointed, respectively, for terms of 1, 2, 3, and 4 years. Thereafter, all such appointments, except to fill vacancies, shall be for a term of five years or until a successor is appointed and qualified. The term of the ex officio member shall correspond to his official tenure. Members may, after public hearing, be removed by the Town Council for inefficiency, neglect of duty or malfeasance in office. Vacancies occurring otherwise than through the expiration of term shall be filled for the unexpired term by the Mayor and confirmed by the Town Council. Members of the said Commission shall serve without pay.

Section 3. Organization and Rules: The Commission shall elect its chairman from amongst the appointed members and create and fill such other of its offices as it may determine. The term of the chairman shall be one year, with eligibility for re-election. The Commission shall hold at least one regular meeting each month. It shall adopt rules for transaction of business and shall keep a record of its resolutions, transactions, findings, and determinations, which record shall be a public record.

Section 4. Meetings: The Municipal Planning and Zoning Commission shall designate the time and place of its regular meetings. Three members shall constitute a quorum.

Section 5. Staff and Finances: The Commission may appoint such employees as it may deem necessary for its work. The Commission may also contract with town planners, engineers, architects, and other consultants for such services as it may require. The expenditures of the Commission, exclusive of gifts, shall be within the amounts appropriated for the purpose by council, which shall provide the funds, equipment, and accommodations necessary for the Commission's work.

Section 6. General Powers and Duties: It shall be the function and duty of the Commission to make and adopt a master plan for the physical development of the Town of Mountain Lake Park, including any areas outside of its boundaries which, in the Commissions judgment, bear relation to the planning of such Town of Mountain Lake Park. Such plan, with the accompanying maps, plats, charts, and descriptive matter shall show the Commission's recommendations for the development of said territory, including among other things, the general location, character, and extent of streets, viaducts, subways, bridges, waterways, waterfronts, boulevards, parkways, playgrounds, squares, public buildings, parks, aviation fields, and other public ways, grounds and open spaces, the general location and extent of public utilities and terminals, whether publicly or privately owned or operated, for water, light sanitation, transportation, communication, power, and other purposes, also the removal, relocation, widening, narrowing, vacating, abandonment, change of use or extension of any of the foregoing ways, grounds, open spaces, buildings, property, utilities, or terminals; as well as a zoning plan for the control of the height, area, bulk, location, and use of buildings and premises. As the work of making the whole master plan progresses, the Commission may from time to time adopt and publish a part or parts thereof, any such part to cover one or more major sections or divisions of the Town of Mountain Lake Park or one or more of the aforesaid or other functional matters to be included in the plan. The Commission may from time to time amend, extend, or add to the plan.

Section 7. Purposes in View: In the preparation of such plan the Commission shall make careful and comprehensive surveys and studies of present conditions and future growth of the Town of Mountain Lake Park and with due regard to its relation to neighboring territory. The plan shall be made with the general purpose of guiding and accomplishing a coordinated, adjusted, and harmonious development of the Town of Mountain Lake Park and its environs which will, in accordance with present and future needs, best promote health, safety, morals, order, convenience, prosperity, and general welfare, as well as efficiency and economy in the process of development; including, among other things, adequate provisions for traffic, the promotion of safety from fire and other dangers, adequate provisions for light and air, the promotion of the healthful and convenient distribution of population, the promotion of good civic design, and arrangement, wise and efficient expenditure of public funds, and the adequate provisions of public utilities and other public requirements.

Section 8. Procedure for Adoption of Master Plan: The Commission may adopt the plan as a whole by a single resolution or may by successive resolutions adopt successive parts of the plan, said parts corresponding with major geographical sections or divisions of the Town of Mountain Lake Park or with functional subdivisions of the subject matter of the plan, and may adopt any amendment or extension thereof or addition thereto. Before the adoption of the plan or any such part, amendment, extension, or addition the Commission shall hold at least one public hearing thereon, notice of the time and place of which shall be given by one publication in a newspaper of general circulation in Garrett County. The adoption of the plan or any such part or amendment or extension or addition shall be by resolution of the Commission carried by the affirmative votes of not less than three members of the Commission. The resolution shall refer expressly to the maps and descriptive and other matter intended by the Commission to form the whole or part of the plan, and the action taken shall be recorded on the map and plan and descriptive matter by the identifying signature of the chairman and/or secretary of the Commission. An attested copy of the plan or part thereof shall be certified to the Town Council and to the Clerk of the Circuit Court for Garrett County, Maryland.

Banjo Contest Part Of Autumn Glory

Entries are now being accepted for the first annual Autumn Glory Festival Banjo Concert to be held Friday, October 9, at 8 p.m. in the Northern High School Gym, Accident.

Cash prizes totaling $300 will be awarded to the top three participants with the first place winner receiving $150, second place receiving $100, and third place receiving $50.

This is the first year for the banjo competition. According to Lynn Beckman, executive director of the Garrett County Promotion Council which sponsors the festival, an attempt has been made to expand the most successful portions of the festival program and he said country music oriented events have been the most successful. He pointed out that the Maryland State Fiddlers' Championships, which are now in their third year, have always drawn large crowds.

Many banjo players from Ohio, Maryland, Pennsylvania, Virginia and West Virginia have been invited to participate.

Those who have not received invitations but wish to obtain more information or entry forms should contact Mr. Beckman at the Festival Headquarters 222 East Alder, Oakland. There are no age or style limitations.

Following the banjo competition a Grand Ole Opry Show featuring Roy Drusky and Penny DeHaven will be presented. Friday night's country music entertainment will span four hours.

Yes, Ridge Homes has mortgage money and a home you can afford!

But if you keep waiting, it could cost you $1,000 more.

How come Ridge has mortgage money when nobody else does? Because we're the East's largest home manufacturer, a division of Evans Products Company. And we have our own financial resources to help people build new homes. So mortgages just aren't a problem for Ridge customers . . . even in this time of tight money.

Yet, some people are still waiting instead of building. Waiting till things get better. Well, don't hold your breath. The longer you wait, the more it's going to cost you. And that's not Ridge Homes talking.

That's the opinion of the Federal Government's top mortgage expert!

Recently, he released some facts and figures that will change your mind about waiting to build. Consider this: the cost of land and labor is climbing at the alarming rate of 1% every month! Now, 1% may not sound like much. But look at it in dollars and cents. Before you know it, it could add up to $1,000! That's $1,000 you can save by building this year. And remember, the sooner you build, the sooner inflation starts working to increase the *value* of your home . . . instead of increasing its price.

Now get a copy of our new magazine free. It shows you how you can build the home you want right away.

You'll find the whole story in our new magazine. It's 84 colorful pages of pure inspiration . . . the first magazine of its kind! It includes all 39 Ridge models . . . decorator ideas . . . Ridge Homes' "Wonderful World of Choice" for floor plans, bathrooms, kitchens . . . It's the complete, exciting story. There's even a feature article written by a man who's building his own Ridge home right now on just a $100 deposit!

Now is the Time . . .

The time to settle the inactivity among county commissioners and county road workers is now.

The election is over. Out and out union oriented candidates did not fare very well, which indicated county voters could care less about a union.

But they are concerned about the condition of the county roads. Stubbornness will not delay the approach of winter. There should be responsible cooperation from both sides to indicate their loyal citizenship.

The Commissioners should offer employment to all who are needed and who desire work. The workers' organization should forget about their union recognition demands until after the new commissioners are installed. They can then begin negotiations in a legal manner and get the issue settled.

School Librarian Dies At Accident

Melvin Eugene Kesner, 63, of Accident, librarian at Northern High school, died suddenly Monday night, September 21, at his home. He had been in failing health for several years.

Deceased was born at Harrisonburg, Va., on December 2, 1906, a son of the late Benjamin Cokelin and Bessie Mae Shope Kesner. He was a member of St. Paul's Lutheran Church, Accident, past master of Oakland Lodge 192 of Masons, Cumberland Consistory of Scottish Rite and the Ali Ghan Shrine. He also was a member of the Garrett County and Maryland State Teacher associations. He had been a "ham" radio operator for years and was a member of M.A. R.S., in that category.

He is survived by his widow, Alyce (Albright) Kesner, two daughters, Mrs. G. Edgar Dawson, LaVale, and Mrs. Edward McKenzie, Oakland, and four grandchildren.

The body was taken to the John O. Durst funeral home in Oakland where a Masonic memorial service was conducted last evening at 7:30. Funeral services are being conducted today at 2 p. m., from the funeral home, with Rev. William E. Carlson, pastor of St. Paul's Church, officiating. Interment will be in the Grantsville cemetery.

Blair Visits Here

C. Stanley Blair, Harford county Republican candidate for governor, visited the Oakland area on Monday afternoon, going to stores and business places. He was accompanied by Howard P. Wiedey, Baltimore county, GOP candidate for comptroller.

Blair is former administrative aide to Vice President Spiro T. Agnew.

61 Will Take Historical Tour

The sixteenth annual historical tour under auspices of the county Historical society, scheduled for Saturday, September 26, will move as scheduled, President Paul Calderwood having received 61 reservations.

The tour hinged on the reception the announcement would receive, as the tour will be conducted in Allegany county, using buses for which advance reservations had to be made. At least thirty-five or forty were needed.

Those attending the tour are to be at the Women's Civic club on Washington street, Cumberland, by 9:45 on Saturday morning where the tour of the history house, Episcopal church, Fort Cumberland tunnels, Geo. Washington headquarters, the Paw Paw tunnel and the renovated Toll House will be made. The tour was offered for $4 per person. The trip to Cumberland will be in private automobiles.

No Attempt Made To Settle Strike

No attempt was being made this week to begin negotiations about settling the county road workers strike which has been in effect since April 7.

There had been reports that the three county commissioners, none of whom will be in office after the November election, were about to start talks with the workers. Hubert A. Friend, president of the commissioners, said no changes had developed concerning the strike.

There has also been speculation that the State Roads commission would plow snow from county roads this winter during the emergency situation. John D. Bushby, district 6 engineeer, said however, there was no truth to the matter.

Bushby said his crew of sixty men could not possibly handle the county roads work load.

Needlework On Display

An exhibit of creative needlework has been placed in the Ruth Enlow library. Tapestry, needlepoint, crewel embroidery, hand weaving and several other kinds of needlework are displayed in the large outside window and inside the library. Wool, which has been hand-carded, hand-spun and dyed with native dyes (cherry and apple bark) is included in this exhibit.

These items will be on display only until the end of next week.

Plans Complete For 3rd Autumn Glory Festival

Will Be Held In Various Parts Of County On October 8-11

The reddishness of oak trees, the yellow of maples and the variety of colors of lowland fruit trees will be the background for the third annual Autumn Glory festival to be held October 8 through 11 in Oakland and other parts of the county.

The festivities will get under way Thursday evening with 2 football games. Southern will meet Terra Alta High and Northern High will meet Kingwood. An autumn fireworks display will be set off between the doubleheader games.

The crowning of the Autumn Glory Queen and her pageant will take place Friday afternoon at 2 o'clock on Southern High football field. The combined presentation of choral and band music from Southern and Northern High schools will be presented.

At Northern High school on Friday at 8 p.m., there will be a five-string banjo contest. Roy Drusky and Penny DeHaven will also present a "Grand Ole Opry" show. Also on Friday evening, from 8 to 12 there will be a teen rock show and dance.

Access Road Funds Granted

The Appalachian Regional Commission has approved a $70,000 grant for the construction of an industrial access road to serve the new Bausch and Lomb, Inc., plant near Oakland, Governor Marvin Mandel announced this week.

The A.R.C. grant covers 70% of the project's estimated cost for the construction of the 1200 foot road. The remaining share of the cost will be provided by Garrett County.

In addition to serving the new industrial facility, the road will also provide access to the Town of Oakland's new water treatment plant which will be constructed at the Broadford Dam impoundment and a sewerage treatment facility which will be installed at the site by the Garrett County Sanitary Commission.

The new Oakland water treatment plant project earlier received a $374,000 grant from the Appalachian Regional Commission.

The new Bausch and Lomb, Inc. plant for the manufacture of ophthalmic lenses was announced by the company in May. Construction of the facility's first phase is nearly half completed. To be built in three phases, the plant is expected to employ approximately 1,000 at the conclusion of the third stage. As Garrett County's largest industrial employer, the plant is expected to have a vitally important economic impact.

Robert G. Garner, of Cumberland, Maryland's representative on the 13-state Appalachian Regional Commission, recommended and submitted the project after its preparation in cooperation with the Garrett County Commissioners, the Garrett Co. Development Corporation, the Maryland State Roads Commission; and the Western Maryland Office of the Division of Economic Development, Maryland Department of Economic and Community Development.

Petit Jurors To Meet Monday

Judge Stuart F. Hamill Has Scheduled Appeals For Monday

The petit jurors will report for duty on Monday, September 28, at 9:30 o'clock for the September term of the circuit court. The jury will be concerned with seven indictments returned two weeks ago by the grand jurors against two individuals, and a number of appeal cases.

Five of the seven indictments were against James Booth, of Hyattsville, one of three persons involved in a series of lake cottage burglaries around the middle of March. Jail terms against two of the young men from this area, ages 19 and 20, were suspended after they entered pleas of guilty a few weeks ago. Booth is now serving a sentence in the Rockville jail following a conviction of shoplifting.

The burglaries occurred in the Turkey Neck and Lake Shore drive areas. All five indictments against Booth are for burglary.

The two other indictments are against an individual who has not been placed under bond. The indictments involve worthless checks.

Also on the criminal docket are charges against Wilford E. Stoll for assault and disturbing the peace following an altercation during a road workers' confrontation in the court house; cases against a Montgomery County individual, Everett Eugene Ellis, on charges of rape, assault with intent to rape, and assault and battery; cases against John Leroy Kroll, Allegany county, for assault with intent to murder and common assault.

J. Glenn Beall, Jr.
Reports from Washington
Congressman, 6th District, Maryland

Last Thursday the House, for the first time in many years, acted to do something about updating the rules and regulations which govern this legislative body. The Legislative Reorganization Act of 1970 was considered because present procedures are fast becoming outdated. The procedures, which have been used for many years, are no longer adequate to deal with the complex problems that our Nation faces today. As a result, it has become increasingly clear that an overhaul was desperately needed in order to keep the Congress an equal power among the three branches of government.

One of the most significant effects of the bill will be on the conduct of Committee business. The reform measure will provide for more open committee meetings so that the public can be fully informed of the discussions within the committee. It will also be easier to determine where the members of Congress stand on proposals before them since now many votes in Committee will be recorded and made public. Under the new measure, restrictions on the TV and radio coverage of hearings in the House will be removed thereby allowing the public access to the deliberations of the Committee.

The bill also gives the members of the minority Party more rights than before. Now they will be able to call witnesses to testify on legislation, if they feel that a particular point of view is not covered.

Beyond the committee reforms, the Congress has begun to use modern technology to increase its efficiency and effectiveness. The use of electronic voting was authorized and hopefully will soon replace the cumbersome system of roll call voting which requires an average of 40 minutes for every vote. An advanced data processing system which would have enabled Congress to stay on top of the complex budgetary and fiscal situation was defeated by a narrow margin.

If Congressmen are to do an effective job, they must have access to expert information, and this bill also authorizes congressional committees to procure such information. In addition, it will strengthen and upgrade the research services provided by the Library of Congress.

While this measure is important and will solve some of the troublesome problems that now hamper Congress, much remains to be done in this area. We must find some way to speed up consideration of vital measures or continue to find ourselves months behind on critical legislation.

Lazy Southerner

"The difference between a conviction and a prejudice is that you can explain a conviction without getting angry." - Anonymous

In a moment of unhesitating blindness I called him "a lazy, shiftless Southerner." No one in our dialogue was aroused by my callous remark. He really did appear so on the surface, for he was a very heavy, tobacco-chewing, slovenly appearing man, but one who smiled often and always greeted us. Time passed, and then came the day when I needed a repair which he alone of my neighbors would take time to make. Gladly he took materials and helped me, after completing a full day in his occupation. You can guess that in several other instances I was again his debtor, so during the next few years mine was the shame at meeting him, although my remark had never traveled to his ears. I had checked that. Now mine was the silent reparation, and I tried in many instances to convey an extra pleasantness to him in order to banish my guilt.

Next in my abasement was the meeting of a man from far below the Mason-Dixon Line, whose qualities further shattered my stereotyped ideas of Southern belles and gentlemen sitting beneath magnolia trees. He had overcome the stigma of a Southern origin to show our Marylanders, by an almost ruthless use of grueling labor and business instinct, how successful one person may be; to mention laziness to him bordered on the sinful.

You can imagine that my prejudice in this realm has now been displaced by respect. In so many instances we could do a similar erasure by investigating our ideas. William O. Douglas has writttn, "A prejudice can be as ominous and threatening as a man with a bayonet," and justly so, for how many spirits have been literally killed by the hasty judgment of one who has manufactured an idea based upon narrow interpretation! Just as no one is truly what wise people have defined as normal, so it follows that to have a preconceived idea of precisely what one man or woman should be or do is to be prejudiced, unless this attitude is based upon a series of observations from which comes a substantiated judgment of a human being. Joaquin Miller means exactly this when he writes, "In men whom men condemn as ill I find so much of goodness still, In men whom men pronounce divine I find so much of sin and blot, I do not dare to draw a line Between the two, where God has not."

It is highly dangerous to one's self to form such concrete ideas of what people really are, or to stamp a specific group as evil because of one individual act. When we feel that someone is incapable because of his creed or origin, it is time to take heed and openly examine that thought. Hitler and the Facists made the mistake of believing that humans were robots which revolve in specific ways when activated, but democracy has no room for this fallacy. People will at one time do some thinking for themselves and discover an underlying inconsistency. That each is capable of elevated thinking and feeling we sense from actual life and also from such eloquent words as those of Kennedy to Krushchev when the president asked for a ban on the hydrogen bomb, "For in the final analysis, our most basic common link is that we all inhabit this same small planet. We all breathe the same air. We all cherish our children's future. AND WE ARE ALL MORTAL."

Events Above The Mountain Top

Paul S. Frank, Jr.

September 24 - 30

The moon will be 252,200 miles away from the earth at 4:00 a. m. on Sunday morning. This will be the farthest the moon will be from the earth during September. The greatest distance between earth and one of its satellites is called the apogee of the satellite.

On Monday the planet Mercury will be at its greatest angular distance from the sun for its present orbit of that star. Shortly before sunrise Mercury will be visible low in the east from today until a week from tomorrow. Mercury will appear slightly below Mars from September 24 to September 30.

Venus and Jupiter are descending lower in the west and by sunset they are very close to our mountain horizon. Saturn now rises at midnight. It is near the small group of stars called the Pleiades in the constellation of Taurus. Mars rises about an hour before the sun. One planet is easily seen this week, the planet Saturn.

The moon will pass through its new moon phase on Wednesday at 10:50 a. m. During the week the moon continues to wane. Moonrise was at 1:00 a. m. this morning. At the end of the week moonrise will be at 7:00 a. m.

Today daylight began with the sunrise at 7:11 a. m. The night will begin with sunset at 7:13 p. m. Next Wednesday the daylight will last eleven hours fifty minutes since sunrise will be at 7:13 a. m. and sunset will be at 7:03 p. m. The daylight will be twelve minutes less next Wednesday than it is today.

Capitol Comment

By Charles McC Mathias
U.S. Senator

U.N. Agreement Needed On Seabed Boundaries

In addition to his committee assignments and floor duties, a United States Senator is assigned to help oversee a particular area of treaty commitments and foreign relations. In this connection, I am with Senator Claiborne Pell of Rhode Island, a Senate advisor on the question of treaties affecting the world's seabeds. Seabeds, the areas covered by the world's oceans, are not in the headlines every day. However, because of the unparalleled wealth in minerals, petroleum and organic resources contained in the seabeds they will become more and more important to man as he develops the means to tap this wealth.

Traditionally, no nation owns the oceans. The old rule of thumb was that a nation's jurisdiction extended as 'far beyond its shores as a cannon would shoot. Obviously, in the missile age this is an unsatisfactory rule and must be changed. The United Nations has tried to reach agreement on a new rule for jurisdiction over the oceans, but so far has failed to get a consensus among the nations.

The Nixon Administration has taken a leading role in the U.N. effort to determine where national jurisdictions end and international oceans begin. Earlier this year President Nixon recommended that the national limit be set at the 200-meter depth mark. Such a designation allows for a generous shelf of water around all the major maritime nations who, of course, want to protect their national interests. However, the President's suggested boundary would not infringe upon the high seas, areas of the oceans that have been traditionally considered to be international waters.

The United Nations considered the Nixon proposal but because of the opposition of some countries, particularly a number of Latin American nations that claim very broad and extensive jurisdiction on the high seas, no world-wide accord has been reached. However, it is my hope that the Nixon proposal will ultimately be adopted. Such agreement is essential because progress and the profit motive are driving man to sea. Man is not only fishing commercially with large factory ships but he is finding ways to mine and drill on the ocean floor. Until the question of national jurisdiction and regulation of the seabeds is determined, the world is going to be facing the threat of open hostility over these areas and the resources contained in them.

As a Senate advisor on the seabeds, I strongly support President Nixon's suggestion that a new international sea boundary at the 200 meter mark be established for the nations of the world. This would be a step forward in bringing the seabed within the rules of laws and preserving our resources for the good of all mankind.

LETTER TO THE EDITOR

Dear Sir:

Though I enjoyed my recent vacation in Garrett County, I object to some of the highway signs, signals and markings that are in use.

During my brief stay during the last week in August, I saw: rectangular and keystone-shaped yield right-of-way signs (they should be triangular in shape); yellow stop signs (they should be red); a steady yellow light shown after a red light (yellow generally should be shown only before the red); dots of paint used for center lines (the dots should be dashes or a solid line); and square warning signs that are black and white (they should be diamond-shaped and yellow-black in color).

Such signs, signals and markings are not recognized by Maryland or other states as standard traffic control devices. This egregious lack of uniformity impairs the safe and efficient use of highways by drivers from other states, other portions of Maryland, and by residents of Garrett County. In my personal opinion:

1. Officials responsible for erecting or continuing such nonuniform, obsolete traffic control devices may be guilty of a crime.

2. A driver should not be convicted of failing to comply with such nonuniform or obsolete traffic control devices (particularly the yellow stop sign and the keystone-rectangular yield signs).

Sincerely,
Edward F. Kearney
Executive Director
National Committee on Uniform Traffic Laws And Ordinances

Hoss Faces Death Chair For Slaying

Stanley B. Hoss, Jr., 28, Tarentum, Pa., convicted rapist and killer of a policeman, and who faces kidnapping charges in Allegany county, was formally sentenced to death in the electric chair by a Pittsburgh judge last week.

The sentence was imposed by Judge Samuel Strauss in the fatal shooting of policeman Joseph Zanella, 25, of Verona, Pa., a year ago.

Warrants issued in Cumberland charge Hoss with the kidnapping of Mrs. Linda Peugoet 21, and her daughter Lori Mae, 2, last September 22, at a La-Vale shopping center. Search for these people was underway for a time in Garrett county. The Peugoets have never been found.

A panel of judges denied to Hoss a motion for a new trial but his attorneys said they would file an appeal of the conviction with the State Supreme court.

Sermonette By Area Ministers

A New Direction

"I was up there, but I didn't see God," said the Russian flyer. "You talk about God, where is he?"

Most of the people who were at the press conference in Washington were somewhat shocked at the Russian spaceman's lack of good manners. He was a guest in our country, and was being paid honor and tribute as the first man to make a successful space flight. Somehow the subject of religion had been brought up and his reply was the traditional phrase of "where is God?"

The following day newspapers and magazines condemned the Russian for his brazen statement, yet he raised a question that many Americans find hard to answer. In an age when men are exploring the vast reaches of space, the traditional direction of "Up there" is not sufficient reply to people. The question of "where is God and what direction do I take to find him" grows more perplexing every day.

However, even though the circumstances are different, the question is not a new one. Down through the ages, people have been seeking a direction to God. They have always had the traditional directions of forward, sideward, and upward to encompass their daily living. Yet, they found these traditional directions inadequate when they became aware of eternity and things divine.

"What direction do I take?" they asked the Apostles, and we find that St. Paul gave them an answer to the question. It was an answer that fitted their age as well as ours. He told them that the proper direction was GODWARD, and thereby added a new dimension to their lives.

Thus, in a day and age when so many perplexing questions are asked, we find St. Paul's direction of Godward is a sufficient answer. It frees people from the traditional directions of forward, sideward, and upward. It allows Christians a better way to express their awareness of eternity and things divine.

Letter to The Editor . . .

September 22, 1970

The Republican

Dear Sir:

Sometime ago in an issue of the "Citizen," I was called an "Agitator" by Mrs. Rosenbaum, the editor. I assume it was in regard to our strike in Garrett County. Since she has consistently called me unpleasant names and tried to discredit me in every possible way, I have chosen to answer her in this paper, with a wider circulation.

In a recent editorial in her paper, she inferred that by some devious means I had obtained a position with the Roads Department. The Facts: I made a proper application for the job, and was chosen because I was capable of it. Nothing devious was done either by myself or the two Commissioners who voted for me. On April 4, 1967, I was employed as a secretary, with the lowest pay scale of any one in the entire Department, although I am the only one who has attended College. This is no discredit to my fellow employees, or to the Commissioners, for I wanted the job, and it was a mutual agreement, and both of us have kept our bargain. Later on my pay was raised, and on January 1, 1970, I became the bookkeeper, with a pay raise. All these pay scales are matters of record, and can be looked into. Right here, I want again to publicly defend the two Commissioners she is so constantly maligning. In my opinion, they have been honorable, upright and honest men, and are genuinely interested in Garrett County's future.

Now, we come to Tuesday, August 4th, 1970. This was the day some new employees were to be signed in for work on the roads. That week, beginning August 3rd was set aside for my vacation. On Monday evening I was called by the Pres. of the Board to come in and help with the extra paper work necessary for signing the new men up for work. Incidentally, I had to pay a baby sitter to stay with my three small grandsons who had come to visit me for a week.

When I arrived for work, the office door was locked and two of the office personnel were standing outside. This was in direct violation of a court order, forbidding this. I crossed over the street and rode into town with some of my neighbors, who had come to show their support of the new workers. They drove into town, and I went with them for I planned to return home with them later on. The Facts: My being in the Oakland parking lot on that day was accidential.

When a man whom I presumed was from Baltimore started yelling through a big horn I spoke up to him and said, "Don't you have enough trouble in Baltimore, without importing it to Garrett County?" A State Trooper walked over to me and advised me to say nothing more. I did as he asked me to do. If that is the reason she has called me an "agitator," it seems rather exaggerated, don't you think?

Since April 7th, I have served, in addition to my bookkeeping duties as janitor at the Roads Dept. Office. Our former janitor walks the picket line each day. I have taken down storm windows, washed windows, shades, dusted cabinets, swept and scrubbed the floors, mowed the grass and cleaned up the debris outside. Someone had to do it to make the place livable. I have been called everything from a "scab" to a "communist."

I have been a target for name calling, threats, etc. from the strikers and their wives. Four women standing in front of the office door one morning threw coffee on my arm and threatened to tear off all of my clothes. When I protested to Mr. Alva Lewis, a Union leader, who saw the whole thing, he shrugged his shoulders, saying it was none of his affairs. A man who was a candidate for County Commissioner also saw the entire thing, as did many of the strikers. I was forced to walk part way into town, until Mr. Denison of the Monongahela Power Company saw me and took me to the sheriff's office where I reported the incident. On other occasions, the men were laughing in town with other men how they tried to scare me when I walked into the office, by putting off firecrackers. In the evening of that same day, one of the employees came in when the other office workers had gone home and said the men were going to "get me" and that I had better take a leave of absence. I called the sheriff's office and reported this threat. Nothing was done about it. The Facts: A new low in human behavior has been set in this County.

Mrs. Rosenbaum, I am reminded of a time some years ago when I served on a Federal jury in Baltimore. The case before us was an accident where a man had been injured. The extent of his injuries, and possible compensation to be paid him was for us to decide. His lawyer made a great case, laying out a story of great injustice. I wondered how the other lawyer could be so calm and self-assured.

When the time came for him to present his case, he calmly and deliberately tore the entire case to shreds, bit by bit. Pictures and other conclusive evidence showed the plaintiff's lawyer up with telling half-truths, misrepresentations and outright falsehoods. The entire jury changed their minds and rendered their verdict accordingly.

I have never forgotten this. With this evidence, I hope to change some minds. The Facts: Untrue slants, outright misrepresentations. I rest my case with the readers of this paper.

321 Attend YFC Banquet Saturday

The annual Mt. Top YFC banquet last Saturday had 321 attendants, 143 more than last year and the largest ever to participate, it was announced by Tom Crogan, director.

The steak dinner was served by the Southern High cafeteria workers and foods class members. Music was provided by the Capital-Aires male quartet, Washington Bible school, the 28-voice teen choir, duet by Bob and Linda Custer, Deer Park.

Testimonies and talent from local teenagers was the program feature. Participating were Martha Knotts, Buddy Biser, Dave Turney and Denny Savage, relating what the Mt. Top YFC had meant to them.

Mr. Crogan presented a color slide report of last year's activities, revealing 60 first time decisions, 34 dedications, 7,562 total attendance. Largest single attendance was 1,300 for the Blue Ridge quartet sing at Northern High in May. Ninety-seven giving units reported with sixty making one-year promises to support the YFC, underwriting 53 percent of the $12,264 budget.

New board members were named. Outgoing members were John Sturm, Richard Weeks, Loch Lynn, Jesse Harsh, Ralph Lichty, Gortner. Replacing them are Paul DeWitt, Oakland; Earl Glass, Deep Creek Lake; Delbert Bittinger and Hubert Custer, Loch Lynn.

Student Voices

On Commercials
. . . Dwight Harvey

A thin young man in green-flowered bellbottoms asks the clerk for a pack of scented, lavender cigarettes and (after making his purchase) goes snickering on his way. Seconds later another young man strides up. Dressed in tight jeans and cowboy boots with his jacket slung over one shoulder, he demands, "Gimme a pack o' Camels!"

The message is obvious. If you don't buy Camels, then you're not a man. You are (possibly) sexually aberrant, though.

There is another company that takes the entire English language, our civilization's greatest tool, and subordinates it to their insignificant little cigarettes: "Whaddaya want? Good grammar 'er good taste?" the stereotyped meek little professor asks a group of burly hayseeds. The answer to this one is "good taste" (for some reason we must have one or the other, not both). Along with this false logic, the American public is informed that transient emotional desires are more important than intellectual pursuits.

Fortunately, after the beginning of the year we won't have to worry about these two commercials any longer. What of other products though? What stops deodorant or aspirin manufacturers from hawking their wares and, at the same time, their grotesque ideas over the public air waves?

To ask for government control and censorship would be foolish. It would be but another step toward totalitarianism. There is a defense, however. It is simply to stop buying products advertised in such commercials. Then the message from consumer to manufacturer would be obvious . . .

I would like to take this opportunity to express my sincere thanks and appreciation to all of those who wholeheartedly supported me in the Primary Election. I also would like to thank those who voted for my opponents. My defeat in the Primary was a blessingindeed. Romans 8:28 would lead me to believe that my defeat was a blessing in disguise.

FAITH IS THE VICTORY
OR
AWAKE AMERICANS

I have been listening to the 20th Century Reformation Hour by Rev. Carl McIntire, Collingswood, N. J. 08108, since the middle of June. He is asking that we write to President Nixon and ask him to make the new 8c postage stamp a "Victory" one.

Rev. McIntire is also offering shirts with the word "Victory" on them, also the red, white and blue flag and ribbon with "In God We Trust" on them. He is offering them to help defray expenses for traveling and radio time.

I ordered some of the shirts for my grandson. They are of good quality.

Rev. McIntire is urging everyone who wishes to have victory to charter buses, bring your Bibles, flags and shirts and join him in Washington, D. C., on October 3.

Let us love the Lord thy God with all our heart, mind and soul, and our neighbor as ourselves. Then we can have peace which only God can give.

Respectfully,
ELLA T. GREEN
Mt. Lake Park, Md.

P. S.: On August 29, I received a Thank You note from President Nixon for my letter to him.

Turns Lost Experience To Sunday School Lesson

Dr. Robert J. Flaherty, Liberty street, Oakland, who has a summer cottage in the Youghiogheny Mt. club area, was lost in the woods last Thursday night, but emerged safe and sound on Friday morning after what he considered a harrowing experience.

He spent the night with his dog, completely unaware of direction because he had forgotten his flashlight and was unable to read his compass, and the moonlight was deceptive.

As an instructor in the adult Bible class in St. Paul's United Methodist church on Sunday morning, he recounted his experience with spiritual overtone.

Among his comments: "stumbling through the woods in the moonlight I was trying to head into the direction of the sound of rushing water and the sound of the power station. Does not man stumble through the world seeking God in like fashion?"

He fell asleep from fatigue and was awakened by a bright light which turned out to be the moon, "framed in branches like a gigantic eye."

Concerning his dog who stayed with him: "If human beings had but a fraction of faith in God and his goodness that a dog has in his master, what a transformed world this would be." How much of the comforts and security of civilization we take for granted. "Sleep on the ground in the woods and find out. How little we are thankful to the Creator for the comfort he has given us in civilization."

"Although I got myself out and was headed on the road home, I was deeply touched by the help offered by the sheriff, the woodmen working there and the Oakland fire department."

Motor Violations High Last Week

Motor vehicle violations were high for the week ending September 16.

Twenty-one persons were summoned according to the records in the office of Trial Magistrate Robert M. Maroney, Oakland. Amounts shown include fine and costs.

Carl E. McRobie, Friendsville, was charged on two counts, exceeding 50 miles per hour, $13, and improper passing, $8. He forfeited collateral on both charges.

Logger Turns Gardener

A logger for many years, 83-year-old Jason R. Lambert, a former resident of the Aurora section, turned to gardener in his later years in Caldwell, W. Va., to achieve distinction in that avocation.

Mr. Lambert celebrated his 83rd birthday on August 20, the state being an infant when he was born at Wymer, Randolph county, in 1887.

Ten days before his 18th birthday, August 10, 1905, Mr. Lambert was married to Melveina J. White, 16, and they lived together for 57 years. Pictured with Mr. Lambert is his second wife, the former Miss Chloey J. Windon, whom he married in 1963.

To the first union were born 16 children, 12 of whom are still living. Mr. Lambert's descendants number 50 grandchildren, 85 great grandchildren and six great great grandchildren.

Mr. Lambert and his first wife lived at Wymer for 40 years, then he purchased a farm at Aurora, near Oakland where he lived for ten years. He sold the place in 1955 and has been gardening ever since.

As a logger Mr. Lambert worked in the lumber woods on many jobs in the vicinity of Cass, Elk river, Rainelle, Blue Jay, Long Bottom, Glade Creek and Randolph county. He helped cut a lot of virgin timber with the crosscut saw. Life in the woods was not without incident. Mr. Lambert recalling walking home from camp with wildcats running between his legs.

Despite his 83 years Mr. Lambert continues gardening on his acre of land at Caldwell. Cletis Lambert, a son, resides in Aurora with his family.

Mr. Lambert also has another son, Paul, residing in Swanton. Mr. and Mrs. Paul Lambert and son visited with relatives in Aurora last Sunday.

It was found that Cletis had raised vegetables as outstanding as his father. At the gathering in Aurora they had photos taken of some of their gardening results but the picture was not too clear. Shown were some onions and tomatoes grown in Preston county. One of the tomatoes measured 17 inches around and the largest of two onions had a circumference of 14 inches.

Accidents Show Decrease In Week

Motor vehicle accidents show considerable decrease this past week from the week before. Only nine were noted, according to records in the office of Maryland State police, Oakland. Only slight injuries were noted but there was rather heavy vehicle damage sustained.

Sandra Lee Schwartz, Pittsburgh, last Saturday was going south on the Oakland-Sang Run road, was in the process of making a left turn onto Mayhew Inn road. A car driven by Daley F. Lewis, Jr., Oakland, going west on Mayhew Inn road, failed to obey a stop sign and struck the Schwartz car. There were no injuries and only slight car damage. Tfc. Dale K. Williams filed two counts against Lewis, not having an operator's license and failing to stop at a stop sign.

Another accident in the same locality occurred last Friday a. m. about 11. Lester F. Durst, of Swanton, was going north on U. S. 219 near Mayhew Inn road. Edward E. Broscius, Hollywood, Fla., pulling from a gas station parking lot, was struck by the Durst car. Broscius' view was blocked by several parked cars. Lester Durst and his passenger, Madeline Durst, were injured and taken to Garrett County Memorial hospital in the Van Meter ambulance. Car damage was moderate. No charges were preferred by Tfc. Dale Williams.

John F. Cook, Rawlings, driving his truck west on State Rt. 135, apparently in the process of passing another truck, pulled into the east lane in the path of a car driven by Robert H. Dickinson, Oakland. There were no injuries and vehicle damage was light. The accident occurred on September 14. Tfc. Robert Lashley charged Cook with improper passing.

Last Wednesday about noon Harlen L. Vetter, Oakland, going east on Sand Flat road near U. S. Rt. 219, at an apparent excessive rate of speed, lost control of his truck, ran off the road and hit a large tree. Truck was a total loss and he was taken to Garrett County Memorial hospital by Robert Fike. Tfc. R. S. Lewis charged Vetter with operating at a speed too great for conditions.

Mason G. Gibbs, Friendsville, going downgrade on State route 42 near Bear Creek road, learning to drive, was instructed by his passenger Merle Sines, to apply his brakes to slow down but instead pressed the gas pedal. He ran off the road, struck a parked car of Edward Davis, of Trevose, Pa., also hit a house porch. There was only moderate car damage, no injuries, and no charges made by Tfc Charles E. Loeber. The accident occurred September 12, about 1 p. m.

Owen L. Sevison, Baltimore, was stopped in the westbound lane on U. S. 40 due to several cars making a left turn onto the New Germany road. Terry E. Williams, Cumberland, who was following, failed to reduce speed and struck the Sevison car. The only injuries were to Bryn Greenborne and Lorraine Nagle, both of Baltimore in the Sevison car. They were taken to Miners hospital, Frostburg, in the Newman ambulance. Damage to each car was put at $2,000. Tfc. Daniel E. Tharp charged Williams with failing to reduce speed.

Edmonia D. Haythe, Washington, D. C., was driving west on U. S. 40 west of Green Lantern road when his car slid off the road, struck an embankment and overturned. There were no injuries but damage to his car was $1,800. No charge was made by Tfc. Daniel E. Tharp. This accident occurred September 4.

Thomas F. Gordon, Gormania, W. Va., was going west on U. S. 50 near Table Rock last Friday night at an apparent high rate of speed. He ran off the road, hit two successive embankments and overturned. He was taken to the Garrett County Memorial hospital in the Van Meter ambulance. His car was called a total loss. He was charged by Tfc. Stephen M. Russell with operating at a speed too great for conditions.

There was only slight damage and no injuries in an accident on U. S. 219 near Gortner last Saturday. James W. Hedrick, of Red Creek, W. Va., had stopped at the intersection of the Wes White road to allow oncoming trafic to pass. Leonard M. Dilsworth, Oakland, who was following, failed to reduce speed and hit the Hedrick car. Tfc. Stephen M. Russell charged Dilsworth with operating at a speed too great for conditions.

Aid To Workers Reviewed By Board

A review of the former roads employes' use of some of the programs of the Garrett County Department of Social Services was included in the agenda of the meeting of the board on last Thursday, September 17.

Meeting with the board were Mrs. E. I. Baumgartner, recently elected chairman; Joseph DiSimone, vice-chairman; John Ross Sines, commissioner representative; Mrs. Jonas Beachy, Paul Calderwood, Rogers Fike, Mrs. Orval Glotfelty, Dan Hershberger, and Wilbur H. Myers.

The director reported that 49 former county roads employes had applied for aid to families with dependent children, and 28 had been approved, five denied and 16 were pending. Sixty-four of the families had purchased food stamps in September compared to 123 in May.

The board had questions about granting public assistance under existing rules and regulations to certain county residents, according to Robert W. Stemple, executive director. A letter from Mrs. Rita C. Davidson, secretary of the Department of Employment and Social Services explained the basis on which assistance might be granted.

Other items on the agenda included a review of financial and statistical reports; a discussion concerning determining eligibility through a simplified method.

Beall Surprises Rams By 14-0

Two short scoring bursts and a stout defense left Beall High Mountaineers to a 14 to 0 football victory over Southern High Rams of Oakland on Saturday night at Beall stadium. The game had been postponed from Friday night on account of rain.

Beall started its first scoring march in the second period from its 42 and Ron Riley took it over for the score from the five. Pat Seaver kicked the extra point.

After a scoreless third period Bill Payne fell on a Southern fumble at the 15-yard line. Riley again took it over and Weaver had his second conversion.

Later in the fourth period the Mounties made another penetration to the Southern three yard line but the Ram defense held. Beall had a 60-yard run for a touchdown called back for holding with only 30 seconds remaining.

The deepest penetration made by Southern was to the Beall 22-yard line after a 45-yard punt return by Pat Cosby. The Rams were playing without the services of their quarterback, Bob Ridder. His position was filled by Domenick and Terry King.

Mike Gravely stood out defensively for Southern. The Rams were able to pick up four first downs and gained 62 net yards rushing, compared to 12 first downs for Beall and 143 yards rushing.

Beall attempted 3 passes and completed 1. Southern tried 8 passes and completed three for 20 yards.

The Rams will play Bishop Walsh this Friday evening on the home field.

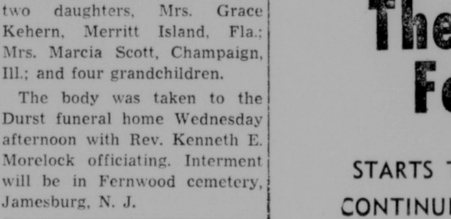
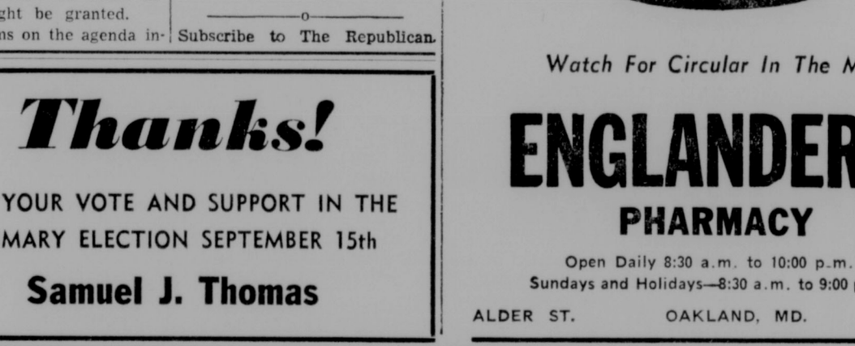
1971. You've changed. We've changed. Chevrolet
Worth seeing. Worth owning. Worth waiting for.



Vega. Not just another little car, but one little car that does everything well. You get more room, more weight and more power than most little cars give you, yet the gas mileage is right in the same neighborhood with the best of them. Vegas come dressed up, too, not stripped to the bone so you have to add a lot to make them liveable. Drive one. You'll see.



Caprice. There's a double layer of steel in the roof, a steel guard beam in each door, power disc brakes up front, a new power ventilation system inside, a wheelbase two and one-half inches longer. You get the looks and comfort of a six- or seven-thousand-dollar car, but at Chevrolet prices. And that's the kind of change during these tight-money times that all of us can appreciate.

A vanishing tailgate. A big change in our big wagon. The window goes up into the roof, the Glide-Away tailgate vanishes beneath the floor. Out of sight. Out of your way for easy loading even in a closed garage or when you have a trailer hooked on.

See what we mean by putting you first? September 29 at your Chevrolet dealer's. GM MARK OF EXCELLENCE

Energy and exuberance are trademarks of youth. You can see it clearly when a group of cheerleaders go into action

Quick reaction is a mark of youth. If the team wins, these girls will be on top of the world. If it loses, they will go home with shoulders slumped. They haven't really learned "to take it". Withstanding both success and failure is a mark of maturity, and finding the strength to go on becomes an act of faith.

Have you grown up? Do you have that kind of faith? If not, the first steps toward finding it might be a walk to the church door.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons.

BY LAWRENCE W. ALTHOUSE

THE POWER OF LOVE

Lesson for September 27, 1970

Background Scripture: Genesis 37 through 38; 44; John 15:12-14.
Devotional Reading: John 10:7-18.

Jacob encountered God and his life was transformed. Jacob the Supplanter became Israel the patriarch of God's people.

That doesn't mean he never made any mistakes thereafter. He was human and, like all human beings, he made wrong judgements and decisions.

Rev. Althouse

Trouble in the family

For one thing, there was trouble in Israel's family. No wonder! He had four wives (actually two of them were concubines) and twelve children—a houseful in any man's book. You will remember that his father-in-law had tricked him into working for and marrying Leah. Jacob accepted this without rancor and proceeded to work seven more years for Rachel whom he had loved from the beginning. Even though Leah bore him his first son, she never felt really wanted in this household and Joseph, Rachel's child, clearly became his favorite.

It was obvious to everyone. Joseph got the best of everything, including that beautiful multicolored coat. We can imagine how the other brothers felt when the "spoiled brat" walked among them with his "badge" of preferred status. It does not even seem that Joseph shared the labor which his brothers had to perform.

Of course, Joseph made matters even worse. The seventeen-year-old youth, seemingly more handsome and intelligent than the rest, was apparently aware of his advantages and flaunted them before his already-jealous brothers. We find also that he was a "tattle-tale," who took "ill reports" to his father concerning his brothers. How they must have despised this "spoiled brat"! How they must have bristled when he told them of his dreams in which he saw himself as superior to them!

The violent act

There came at last the day of reckoning for Joseph. In one violent hour his whole life was changed and his beautiful world came crashing down about him. Tensions, hatred, violence—and one brief hour can change the lives of any of us. Even minutes mixed with the wrong emotion can turn our world upsidedown.

Many years later Joseph and his brothers stand face to face once again. They do not recognize him for Joseph has become the close associate of the Pharaoh of Egypt. Because of the great famine and Joseph's skill as an administrator, virtually the whole kingdom is in his control. If ever a man desired a position in which to exact vengeance, Joseph was in it.

Yet, in the years that had separated them physically, there had been some radical changes in their family and themselves. Joseph had outgrown his haughtiness and his brothers had come to realize the immensity of their crime against him. Best of all, love seemed to have entered Israel's troubled home.

Judah had come to realize the terrible unhappiness they had caused their father in getting rid of Joseph. Realizing how he had grieved Israel, Judah forgot his jealousy and began to love his father with a love that did not demand anything in return. Though once he had resented the special love his father had shown Joseph, he now accepted without bitterness the special love Israel bestowed upon Benjamin.

Greater love hath no man...

Judah cannot bear to think of the sorrow Israel will suffer if the brothers must return without Benjamin, leaving him as surety with Joseph: "... when he sees the lad is not with us, then ... he will die" (Genesis 44:31). Judah, forgetting himself, is caught up in concern for his father: "... let the lad go back with his brothers ..." In Benjamin's place, he will stay. Such is the power of love.

℞ WE HAVE OUR OWN TOP FIFTY

Although we have literally thousands of different drug products available and prescribed for, there are only approximately fifty that account for over one-third of all prescriptions. Another one hundred and fifty account for another third.

In our prescription department we keep these fast-moving medicines in more than ample supply and in a place where they can be quickly reached. This saves a great deal of time in filling your prescriptions. When a new drug is introduced it goes first to our "new drug" section until it has been determined that it should be or should not be in the fast moving section.

YOUR DOCTOR CAN PHONE US when you need a medicine. A great many people entrust us with their prescriptions. May we compound yours?

WHEREAS, the said Mayor and Town Council is authorized under the provisions of Section 10 through 37 of Article 66B of the Annotated Code of Maryland (1957 Ed., 1968 Replacement Volume) to establish a Municipal Planning and Zoning Commission; and

WHEREAS, at the special meeting of the Mayor and Town Council of Mountain Lake Park, Maryland, held on September 11, 1970, at Mountain Lake Park, Maryland, there being present and voting the said Mayor and five members of the said Town Council, the following determination was made by unanimous vote.

THEREFORE, be it resolved by the Mayor and Town Council of Mountain Lake Park, Maryland, at the special meeting on September 11, 1970, in Mountain Lake Park, Maryland, by unanimous vote of the said Mayor and five members of the said Town Council, as follows:

Section 6. General Powers and Duties: It shall be the function and duty of the Commission to make and adopt a master plan for the physical development of the Town of Mountain Lake Park, including any areas outside of its boundaries which, in the Commissions judgment, bear relation to the planning of such Town of Mountain Lake Park. Such plan, with the accompanying maps, plats, charts, and descriptive matter shall show the Commission's recommendations for the development of said territory, including among other things, the general location, character, and extent of streets, viaducts, subways, bridges, waterways, waterfronts, boulevards, parkways, playgrounds, squares, public buildings, parks, aviation fields, and other public ways, grounds and open spaces, the general location and extent of public utilities and terminals, whether publicly or privately owned or operated, for water, light sanitation, transportation, communication, power, and other purposes, also the removal, relocation, widening, narrowing, vacating, abandonment, change of use or extension of any of the foregoing ways, grounds, open spaces, buildings, property, utilities, or terminals; as well as a zoning plan for the control of the height, area, bulk, location, and use of buildings and premises. The Commission may from time to time amend, extend, or add to the plan.

Section 7. The plan shall be made with the general purpose of guiding and accomplishing a coordinated, adjusted, and harmonious development of the Town of Mountain Lake Park and its environs which will, in accordance with present and future needs, best promote health, safety, morals, order, convenience, prosperity, and general welfare, as well as efficiency and economy in the process of development; including, among other things, adequate provisions for traffic, the promotion of safety from fire and other dangers, adequate provisions for light and air, the promotion of the healthful and convenient distribution of population, the promotion of good civic design, and arrangement, wise and efficient expenditure of public funds, and the adequate provisions of public utilities and other public requirements.

Before the adoption of the plan or any such part, amendment, extension, or addition the Commission shall hold at least one public hearing thereon, notice of the time and place of which shall be given by one publication in a newspaper of general circulation in Garrett County. The adoption of the plan or any such part or amendment or extension or addition shall be by resolution of the Commission carried by the affirmative votes of not less than three members of the Commission. The Commission shall from time to time recommend to the appropriate public officials programs for public structures and improvements and for the financing thereof. It shall be part of its duties to consult and advise with public officials and agencies, public utility companies, civic, educational, professional and other organizations, and with citizens with relation to the protecting or carrying out of the plan. KNOW YOUR ENEMY!

BEWARE OF HEROIN ADDICTION.
IT CAN RUIN YOUR LIFE!

Heroin is the most used of all the addictive narcotics. When first taken it relieves pain, reduces tension, eases fears and relieves tension and worry. But, at the same time, it depresses the brain, reduces hunger, thirst and the sex drive.

Heroin users require repeated and larger doses to get their effects. Soon they are addicted or "hooked." Then they must take increasingly regular and larger doses or suffer agonizing pains. They may sweat, shake, get chills, diarrhea, nausea, leg cramps and abdominal pains.

A Heroin habit costs about $100 a day to obtain the drug. Most often prostitution or other crimes are the only way to get this money. The addiction is so powerful that a heroin user will do anything to get relief. Otherwise he suffers continuous unbearable torture.

The next issue of these Public Service messages will discuss "mainlining," the most dangerous method of taking illicit drugs.

On Drug Abuse . . . .

It may come as quite a shock to many citizens, but the abuse of drugs is in our midst, as parents of some sixteen traversers must now admit. It came as a big surprise to many of them.

In a story this week there is the account of sixteen youngsters being tried in juvenile court for the use or possession of marijuana.

Authorities have been quietly working on gathering information over the past eighteen months and we believe they have done their job well. Fred Thayer, state's attorney, the state police, the sheriff's office, and the department of juvenile services have all been spending many hours in an attempt to get to the bottom of these drug activities, and especially to find out who the "pushers" were. Two adults were also involved and two other youths were tried last week and sentenced.

The judge had warned about the possibility of wide-spread drug use and experimentation among the youth of the area at every charge to grand jurors for the past few years but it was felt the danger here was at a minimum. Apparently it is widespread and among the most surprised, it seems, were the parents.

According to Mr. Thayer the parents were most appreciative and helpful in disposing of the cases. It must be admitted that every family is vulnerable and it would seem that one of the best deterrents is widespread education on the harmful effects of the drug habit. All parents must have an awareness of the problem, with a feeling -- it could happen at any time, to me and my family.

The disposition of the cases will not necessarily end the problem. Doubtless there are quite a few others who were not included in this week's ingathering. Those responsible for the gathering of information, the arrests,

Pageant And Coronation Will Feature Festival Program

Standing before a back-drop of Autumn foliage, Linda Shuttleworth will receive her crown as Queen of the Autumn Glory Festival from the 1969 Queen Pam Klotz on October 9. The event will be staged on Southern's football field at Oakland at 2 p.m.

A pageant, to be presented at the coronation in honor of Queen Linda and her court, is a fantasy of historic moments in Garrett County's past to be given in ballads, pantomime, and song.

The combined Northern and Southern High school bands will lead the grand procession and serve as the coronation band. The prelude will feature "The Battle Hymn of the Republic," played first by the bands and then sung by the combined choruses of the two county high schools.

A brass and percussion fanfare will herald the entrance of the Queen and her court. Entering first will be the bearer of leaves, Polly Sue Grago, and crown bearer, Mickey Ault.

The six princesses and their escorts from the local high schools will precede the maid of honor and Queen Linda and their escorts. Coming in last will be 1969 Queen Pam Klotz.

The pageant, moving pictures of historic moments of the county's past was written by Mrs. Nancy Turney and Dr. Walter Price.

The opening scene pictures John Friend buying the original plot of land for the county from the Indians. The emotions of the moment are voiced by Tom Hay-

Three male members of the chorus will sing an original ballad by Dr. Price, "Our Apple Butter Paddle".

Laying the rail for the B&O by the Gandy Dancers reveals an important phase of the county's history as the chorus sings "I've been working on the Railroad."

Adult members of the community enact the important role of a town council selecting a name for the county.

Playing parts of councilmen will be Scott Shirer, Donald Sincell, Robert Garrett, Roy Turney, Harry Collier, Max Jarboe, Fred Thayer, Cheston Browning Col. Haig Jackson and Ralph Beachley.

Most colorful and exciting scene of the pageant will be The Mountain Top Promenaders, members of the National Square Dancers Association, dancing at the celebration of the naming of the county.

In honor of the theme of the festival, Stanley Callis will read a poem, "Ode to A Tree,, by Dr. Price.

The whole panorama is gathered together in ballad to be sung by Tom Hayhurst with the chorus, "Garrett County Autumn Glory Day."

In the event of rain on Friday there will be two changes. The coronation ceremony will be moved to the Southern High gymnasium that same afternoon. The pageant will be presented Sunday, October 11, at 2 p. m., on the football field.

Armed federal plain-clothesmen are now among passengers on U.S. commercial airliners in an effort to stop hijacking of planes.

Youths Tried On Marijuana Charges Wed.

Seven Other Persons Were Tried In Criminal Court Here

Sixteen youths were tried in juvenile court yesterday, September 30, by Associate Judge Stuart F. Hamill, Jr., sitting as juvenile judge for use or possession of marijuana.

The hearings were the result of over eighteen months of investigation into the problem by state police, the sheriff's office, Wayne Wilt, juvenile services supervisor, State's Attorney Fred A. Thayer. The break came in the cases ten days ago at Southern High school. Several were arrested the following day and succeeding arrests were made with things coming to a head yesterday.

The hearings in the court room took some three hours or more and present for the cases were the parents of the youths involved. Publication of the names of those involved is prohibited by the juvenile law.

Eleven youth received probation without verdict and were placed under supervision of the Garrett County Department of Juvenile services. One youth was sentenced to the Maryland Training School for Boys.

Receives Bronze Star Medal

WO Reganold A. Bowser received the Bronze Star Medal for meritorious service in connection with combat operations against the enemy in the Republic of Vietnam while serving in various capacities with M Co., 3rd. Bn., 26th. Marines from Nov. 22, 1968 to Nov. 11, 1969.

Throughout this period the award citation states, "WO Bowser performed his demanding duties in an exemplary and highly professional manner. Commander of the weapons platoon, he quickly molded his men into an effective fighting force and provided consistently outstanding support to his command.

"Participating in six major combat operations, including operations Meade River and Taylor Common, he repeatedly disregarded his own safety to direct the fire of his machine gun teams and supervise the resupply of ammunition. On one occasion, when the Battalion Command Post came under an enemy mortar attack which wounded several Marines, he unhesitatingly left his relatively secure position to aid the casualties, and remained exposed to the danger of hostile fire as he assisted in moving the wounded men to the landing zone for evacuation."

WO Bowser is presently stationed at MCRD San Diego, California. He is a son of Mr. and Mrs. Freeman E. Bowser of Accident.

The new Bausch and Lomb opthalmic lens plant, now under construction east of Mt. Lake Park, is about 80 percent complete, it was announced this week by J. Haig Jackson, executive director of the county Economic Development company.

Training sessions for prospective employes are scheduled to get underway in February, Charles Briner, director of the State Employment Service at Oakland, said yesterday.

Amish Build Barn For Area Horses In Parking Lot

By Carol Canan

Area horses are very grateful indeed for the shelter recently provided for them on the Oakland town parking lot. How do we know? We got it straight from the horse's mouth, of course!

Charley Z., of near Red House, was the only occupant at the time this reporter visited the shelter. He informed us that the corrugated tin-and-lumber shed was just the place for horses to snooze, gossip or just wait on chilly, rainy, windy or snowy town visits.

Charley, a bay, is a hard-working driving horse and field helper.

Four local Amishmen constructed the shed this year after receiving permission from the City Council last winter. There is room to tie three horses without unhitching. (Charley is unhitched because, he confided, it makes him restless to be both tied and hitched).

According to both Charley and his owner, anyone is welcome to tie his horses in one of the three stalls in the shed.

Suggestions Of Winter Are Noted

Something new for the season, snow flakes, were reported seen flying with the rain showers Monday evening, a sign that winter is not too far away.

Warm, sunny weather remained on the Mt. Top through Saturday, then cooler temperatures set in, which suggested the approaching season.

Last Thursday afternoon was sunny with a high of 81 degrees. Friday started clear but turned partly cloudy in the afternoon.

The range of temperature was from 58 to 82 degrees. There was fog with a low of 60 degrees Saturday morning, then clearing with a high of 80. Late Saturday a thunder storm with heavy rain and wind ushered in the temperature drop. Rain began in the early hours of Sunday and continued until noon. The day remained cloudy with a clearing trend at sunset. The temperature remained in the 50's all day.

Monday was mostly cloudy all day with a chill morning low of 34 degrees. It got no higher than 50 all day. During the evening rain showers there were reports of snow flakes flying. Tuesday was much the same but with some sunshine later in the day. The low Wednesday was 44 degrees with mostly cloudy skies. It became partly cloudy with a high of 58. This morning there was heavy fog and a low of 36 degrees.

Man Injured By Corn Cutter Tues.

A man was injured Tuesday morning near Gnegy Church while fixing a corn cutter. Listen, Americans!

By DR. GEORGE S. BENSON
President—National Education Program
Searcy, Arkansas

A new strategy is being made by the Black Panther Party, which calls itself the "vanguard" of a revolution—world-wide in scope—to overthrow the United States of America. In Washington on June 19 the Panthers' national leaders (those who are operating above ground) met at a rally at the Lincoln Memorial and enunciated still another treasonable threat to the security of our nation. "We are from 25 to 30 million strong, and armed," the Panthers said in a "Message to America." The full fury of such a force, they said, would be unleashed against America unless a new U. S. Constitution written by the Panthers, is adopted.

Of course the Panthers cannot command 25,000,000 Negro Americans. Best estimates is that they have a revolutionary following of about 2,000,000. But day by day, week by week, they are expanding their reach with demagogery, vicious hate propaganda, and activities designed to attract a massive following among the Negro community. At Washington in June they announced plans for a "Revolutionary People's Constitutional Convention" later this year at which a new Panther-written U. S. Constitution will be drafted. America will be told thereafter to adopt the new Constitution or be destroyed.

"If the American people as a whole do not rise up, reverse the present course of this nation, which, if unchecked, holds out only Fascist repression and genocide for the Black people, then we, Black People," says the Message, "will be forced to respond with a form of War of Salvation that in the chaos of carrying it out and the attempt to suppress it, will gut this county and utterly destroy it. Before we accept Genocide, we will inflict Total Destruction upon Babylon (the Panthers' name for the U. S.)

"It had best be understood now, that the power we rely upon ultimately, as our only guarantee against Genocide at the hands of the Fascist Majority, is our strategic ability to lay this country in ruins, from the bottom to the top." The 2,000-word "Message" was read by David Hilliard, Panther Chief of Staff, who is awaiting trial for threatening the life of President Nixon, and was published in the Black Panther newspaper, which is read by millions of Negro citizens.

A year ago the Panthers met in national conference at Oakland, California, and announced a program for "Control of Local Police" through legal petitions. A few Negro communities have worked with the petitions but the Panthers and their manipulators (Communist officialdom in New York, Moscow, Peking, Hanoi, Pyonyang in North Korea; Havana) saw that it was too slow and laborious a process and wasn't getting sufficient publicity. The purpose behind the "petition" plan was to attract millions of Negroes into the Panthers' mobilizing force. In only a few places did it achieve hoped-for results.

The call for a "Revolutionary People's Constitutional Convention" is but another gimmick designed to attract the attention of the Negro masses and win in time their support for the Panther-Communist plan for violent overthrow. The Panthers and the Communist tacticians know that the "Constitution" could not gain majority support in America. But they also know that the idea has popular appeal in teeming "inner city" neighborhoods where the Panthers' hate propaganda against "pigs" and "American imperialists—avaricious, sadistic, blood-thirsty thieves"—has been heavy and constant for more than two years.

SENSING THE NEWS

By Anthony Harrigan

EXECUTIVE VICE PRESIDENT

Southern States Industrial Council

The Thin Blue Line...

When the four Kent State students died earlier this year, there were untold thousands of mourners. But who mourns for the slain policemen in America's big cities? No lament is heard from the liberal news media in the Northeast. No armbands are worn as a symbol of loss. Yet there are mounting casualties in police ranks around the country as Black Panthers and other extremists wage terrorist war against the men in blue.

The seriousness of the attacks on policemen, guardians of law and order in American towns and cities, has been accurately stated by Mayor Ann Uccello of Hartford, Conn. In a recent public statement she declared that "we are dangerously close to guerrilla warfare in our cities." She proposed that Congress maks it a federal crime to attack or kill a policeman.

Mayor Uccello, who is the Republican nominee for Congress in the First Connecticut District, warned that the terrorist attacks on policemen across the country will lead to anarchy.

"We saw it," she said, "in the form of sniper fire upon police, right here in Hartford this summer, in Chicago where four policemen have been slain from ambush since mid-June, in Omaha where one policeman was killed and seven wounded in a bomb explosion, in Minneapolis where a policeman was killed in his squad car and, most recently, in Philadelphia where a police officer was brutally shot five times sitting at his desk and where three other policemen were wounded during the same weekend."

Whether it is necessary to shift from state to Federal prosecution in cases involving attacks on police can be debated by legal experts. But good citizens aren't likely to question the need for new, stiff measures to uphold the authority of the community as symbolized by the badge and uniform of policemen.

Homegrown terrorists in our cities know what they are doing when they attack the police. It is violence but not violence without an objective. The aim of urban terrorists is to hit at both the symbol and reality of public order and authority -- the agencies of law enforcement. Verbal assaults on policemen as "pigs" were the prelude to the assaults with pistols, snipers' rifles and fire-bombs. Employing every means, pyschological as well as physical, the terrorists hope to destroy the citizenry's confidence in an orderly society and its guardians. The terrorists want to create fear in the minds of the public. A terrified population, the bloody-minded extremists believe, will be one that they can control and dominate. If the public observes the police retreating before the forces of disorder, it may adopt a no-win attitude toward Panthers and other extremists.

Parallel to the ambushes and sniper attacks on policemen are radical campaigns to disarm the police and lessen their effectiveness in every way.

For example, political pressure is mounted in some communities to deny police the weapons they need to protect themselves and the general public. Recently, policemen in Atlanta, Ga., asked for chemical Mace, shotguns and other protective devices necessary for their job in an era of anti-police violence. Their request was turned down by city authorities. It is utterly unreasonable, however, to ask policemen to protect life and property when urban terrorists are more heavily armed than law enforcement personnel. In some situations, militants simply demand elimination of entire law enforcement agencies. An instance of this was the demand voiced by militants in Texas for abolition of the famous Texas Rangers, a historic symbol of firm law enforcement in the Lone Star State.

With these anti-police measures being taken, it is tremendously important that law-abiding citizens understand what is going on and give their support to policemen. The thin blue line in the cities means the difference between public safety and jungle-like conditions.

No Give...

Negotiations should mean give and take. According to an advertisement appearing this week by the special representative of the American Federation of State, County and Municipal Employes, it is all take and no give, as far as that segment is concerned.

Last week we suggested the time to settle the difficulty was NOW. We suggested the commissioners offer employment to all who are needed and that the workers' organization should forget about their union recognition demands until after the new commissioners are installed and then begin negotiations in a legal manner and get the issue settled.

But the temporary settlement offered by the AFSCME included union recognition and dues checkoff. The main contention of the commissioners was that holders of an elected office could not legally recognize the union. Whether that is a fact or not is of no consequence here. The union could forget about recognition for two more months without "losing face."

If they don't consider this, one of the first acts of the legislators may be a bill to return the operation of the county roads to the State Roads Commission.

On Drug Abuse . . .

(Continued From Page One)

and the disposition of the cases are to be congratulated. But they can't relax just yet. It will be a continuing effort on the part of the parents and law enforcement officials.

Character Reform . . .

People are assailed on every side by calls for reform -- postal reform, drug reform, social reform, tax reform, and others. A newspaper columnist has suggested what we need more than all else is a bit of "character reform."

We mass produce everything in this country except "character." He says, "It used to be that when you wanted something you worked to earn it. Now you stage a riot and get it given to you at someone else's expense. If your father or grandfather lost his job he took whatever work he could get. Now hordes of relief 'clients' refuse a job unless it is to their liking. The nation was built by immigrants who struggled for opportunity and would have scorned the false idea of 'something for nothing.' Now it seems to be an almost universal ambition. Have you ever wondered what happened to the America of yesterday?"

This columnist offered some positive suggestions. He said what each person is capable of doing and has the ability to do, is substantial, and that the philosophy of the left, from Communism to the welfare state, can be successfully fought with other ideas, not emotions.

It is important to know why one holds certain convictions as well as to know what one believes in. Know what you believe, know why. Accept responsibility. Stand on your own two feet and be counted. That's the way a free and open society works. It's called Americanism.

them and the places where they live.

Garrett County boys and girls were enrolled in over 80 educational learn-by-doing farm, home, personal development, and community projects last year, she reported.

However, projects aren't the whole story in 4-H. In 4-H, Garrett County boys and girls have fun, go to camp, take special trips, attend dinners, banquets and rallies; participate in area and State fairs, earn awards -- including scholarships, work with younger 4-H members, enroll in leadership and citizenship programs, and discover new and interesting ways to enjoy life while living it.

Five other persons were tried in criminal court by Associate Judge Hamill, one being an appeal case.

The sentence was suspended on condition that he be of good behavior and refrain from any further infraction of the law and placed under the supervision of the Maryland Department of Parole and Probation. He was ordered to pay $451.10 for the medical care of the girl and to pay $10 per week toward the support and maintainence of the infant child until said child reaches the age of 21 years. If the child dies before reaching 21 years he is to pay the funeral expenses.

Donald R. Glotfelty, Accident, had been charged with operating at a speed too great and was found guilty by Trial Magistrate Robert M. Maroney, and ordered to pay $19. On June 18 he prayed an appeal. At a trial on September 28 the appeal was dismissed by order af the appellant's attorney.

Two other men who were charged with arson, setting fire to the A. D. Naylor and company store on August 18, were sentenced at a trial on September 25. Sherman Shockey and Larry R. Dumire pleaded guilty and each was sentenced by the court to the jurisdiction of the Department of Correction for a period of 4 years and ordered delivered to the custodyof commissioner to the custody of commissioner center of the Maryland Penitentiary.

John Wayne Wilhelm, Grantsville, was charged with assault and battery upon a 17-year old female on September 23. At a trial on September 28 he pleaded guilty and was sentenced by the court to the jurisdiction of the Department of Correction for three years. weeks.

Classes will be limited to about 30 persons and will be held in the new plant. The company plans to hire and train groups of workers as production increases, with a target goal of 1,000 employes in five years, when the plant is expected to reach full output.

Mr. Briner explained that the company would provide its own instructors, however the Board of Education plans to contract with the firm for some of the instruction.

Bids are currently being advertised for work on a 1,000 foot access road to the plant and are to be opened October 15 by the State Roads commission. Mr. Jackson said most of the work remaining on the plant is of a mechanical nature and he expected the building to be closed in shortly. Deadline for construction completion is in December but it appears the firm doing the work, Algernon-Blair, Inc., will be finished before that time. The plant is being built at a cost of some $3 million and will cover 175,000 square feet.

LETTER TO THE EDITOR

Deer Park, Md.
Sept. 28, 1970

Dear Sir:

The suggestion was made in a recent letter to the editor that charges not be pressed against persons who violate "non-uniform, obsolete" traffic control devices. It was also the writer's opinion that it may be a criminal act to erect such signs!

Has The Republican ever heard of a case where the color or shape of a traffic control or information sign was blamed for an accident? I submit that here in Garrett county and, indeed throughout the United States, folks are influenced more by what a sign says than by its color or shape.

Your correspondent may be an authority where he comes from, but he must have been a long way from home when he visited us! Anyone who has traveled on Maryland highways to any extent will have observed that the State Roads Commission applies white dots to the center of resurfaced roads not to delineate traffic lanes, but for the guidance of their line-painting crews.

Perhaps we should thank him for his interest, even though we do not agree that his points were well-taken. I am happy that he enjoyed his visit and am glad he didn't bust a wheel!

Sincerely,
Irving M. Day, Jr.

WASHINGTON AND Small Business

BY C. WILSON HARDER

Where's Rwanda?

Substantial slashes have finally been made in the U.S. foreign give-away programs. Obviously, after throwing away over 150 billions of dollars on these half baked schemes, it would have been better if Congress had completely knocked out every cent, but comfort can be taken that a substantial start has been made.

* * *

Congressman H. R. Gross of Iowa, however, seems concerned that word may get around to the State Department that there are some nations that have not received one cent of these gifts, and may want to give them some immediately so that a charge of discrimination cannot be levelled.

* * *

The Congressman says there are currently in existence 134 independent nations and that he has finally discovered the number of nations to which foreign aid has not been given.

* * *

He lists the following: Andorra, Barbados, Bhutan, Bulgaria, Lichenstein, Maldive Island, Mauritius, Monaco, Muscat, Oman, Nauru, Romania, San Marino, Southern Yemen, Switzerland and Vatican City.

* * *

He further comments that the reason these nations have not ridden on the gravy train is hard to fathom. He feels that perhaps they did not ask to be included, or perhaps the give-away artists in the State Department have been so busy handing out money to the rest of the world that they have not discovered their oversight.

* * *

But he cautions, "In any event let us keep this list a close secret lest the State Department spendthrifts learn of these new opportunities for spewing away the wealth of this nation."

* * *

Congressman Richard Roudebush of Indiana is another legislator who apparently believes that Federal spending could be cut with a little effort.

* * *

He comments that late in the summer, despite inflation, a $25 billion deficit, and other sad factors, the administration approved $49,000 to study African pre-history in the Upper Benue Basin, $20,600 to study analysis of date on change in Rwanda society, and $27,400 to study southern phillipin archeology. Obviously, the people's tax money is spent wisely, as everybody, but just everybody, is intensely interested in Rwanda society. On second thought, where is Rwanda, anyway?

Valley Hi Shocks Northern 34 to 0

Valley High School's Black Knights scored in every period last Friday night to crush the Northern High Huskies in a Tri-Valley conference game at Lonaconing by the score of 34-0.

Terry Llewellyn accounted for two of the Knight's five touchdowns. Other scores were credited to Greg McIntyre, Larry Miller and Bill Hunt. The latter intercepted a pass and ran 97 yards for a td.

Valley had a total of 19 first downs compared to 6 for Northern and completed six of ten passes for 93 yards during the battle. The Knights had total offense of 321 yards against 103 for the Huskies. Northern completed four out of ten passes for 47 yards.

Coach Lear declared "We were outhorsed, totally out-horsed. We spent all week defending against that triple option play and when it came down to the money, we collapsed."

The Knights used the triple option play to make the major portion of their 312 offensive yards.

Larry Miller fumbled the opening kickoff after a 24-yard return but the Valley defense put the Huskies into a fourth and fourteen situation. Huskie John Hyson's punt following that series put Valley on its own 26. The Knights put on a 74-yard drive in 12 plays for the first score. After the Knight defense halted Northern for the second time on a fourth and one, Miller directed a 71-yard drive with Llewellyn diving for the td. Bill Hunt had a record-breaking interception in the fourth quarter when he leaped high inside the five-yard line to haul in a Lee Sutherland pass and returned it 97 yards for the td.

For the Huskies the loss was not the only casualty. Regular quarterback Steve Myers suffered a concussion when belted by sophomore defensive end Bill Foutz after releasing a pass in the second quarter. Regular halfback Bob Schmuch re-injured an ankle on a kickoff return. And starting end Brad Beachy suffered a severe cut over his right eye.

The Huskies will endeavor to get back into the win column on Friday evening when they play Meyersdale High on the home gridiron.

To Present Slide Talk

A slide talk on "The Andean Countries of Latin America" will be presented by David Ramsey at the Ruth Enlow Library on Monday evening, October 12 at 7:30 p.m. Mr. Ramsey's talk will emphasize Bolivia where he served for two years as a member of the Peace Corps.

Interim Office Of Community College Is On Green St.

The Trustees of Garrett County Community college have announced that the interim office of Dr. Luther G. Shaw, president of the college, is now open. It is located at the Green street entrance of the Board of Education building in Oakland. Office hours will be from 8:30 to 4:30, Monday through Friday. The telephone number is 334-9559.

The photo shows the entrance to the office with the newly named secretary, Mrs. Ella Lou Jones.

The college will begin operation in September, 1971, Dr. Shaw said, with its permanent site, now under construction, being at McHenry. Persons desiring admission and course information may write or call the office. The information will be sent as soon as available, he said.

Historical Tour Well Attended

The tour in Allegany County, sponsored by the Garrett County Historical Society, last Saturday was attended by 64 persons. The County group of 60 included people from nearby West Virginia and Pennsylvania.

The tour buses left the Woman's Civic Club of Cumberland at 9:45, proceeding to History House, the museum of the Allegany County Historical Society. Three floors and a basement are devoted to a display of artifacts of that area. The tour then visited the Emmanuel Episcopal church, including the Fort Cumberland Tunnels under it, and Washington Headquarters, a short distance away.

The buses then proceeded to the C and O Canal, Paw Paw Tunnel, stopping enroute at North Branch and Old Town, where lift locks of the Canal were viewed. A stop was also made at Spring Gap Park.

At North Branch Mr. W. Dean McClanahan, Superintendent of the C and O National Monument gave a talk on the Canal, pointing out that, in magnitude of work done in the building, it would rival the Great Pyramid in Egypt. Mr. McClanahan also answered questions.

Lunch, provided by the Woman's Civic Club, was eaten along the Canal near the Tunnel. Many walked part way through this 3,100-foot-long tunnel, seeing at close range this engineering marvel of 125 years ago.

The final visit was to the Old Toll House in LaVale. This restoration, participated in by the Maryland Historical Trust and others, show how the toll collector lived and worked on the National Road when it was the main artery of travel to the West, in the days of the stage coach, freight wagon and cattle drover.

To Show Exhibit Of TV That Runs On Natural Gas

A TV set that runs on natural gas may be seen during the Autumn Glory Festival through October 11, at the Oakland office of Columbia Gas of Maryland.

The television set is a standard model, but it runs on electrical energy produced from natural gas by a thermoelectric generator. The display demonstrates the use of natural gas as a source of total energy.

Two other exhibits tell about natural gas compressor stations and retail operations. Incorporated in these displays are some unusual natural gas "antiques."

Fifteen Are Killed On State Highways

"In four of the fifteen fatal accidents which killed sixteen persons in Maryland during the week ending September 27, one of the vehicles had crossed the center of the road and struck an oncoming vehicle," Lt. Col. W. H. Weber, Deputy Superintendent of the Maryland State Police reported in the weekly review of Maryland highway fatalities.

"To avoid being involved in a head-on collision," Lt. Col Weber advises all motorists, "to look well ahead continually while driving and keep a close watch for 'hidden' hazards. Size up the situation as far in advance as possible and regulate your speed accordingly."

INJURY ENDS DAVE MARTIN'S SEASON CAREER—Dave Martin suffered a broken right femur during one of the plays at last Friday night's encounter with Bishop Walsh. Already on a stretcher, he is being lifted to a cot for travel by ambulance to the hospital. Those assisting him were not identified.

BW Crushes Rams Last Friday 48-8

Coming off their worst beating in history, a 33-0 lacing by Keyser on the 18th, Bishop Walsh gridders put it all together last Friday night to dish out a 48 to 8 PVC defeat of Southern Rams in Oakland.

Fullback Jim Judy led the Spartan barrage with three touchdowns while other point makers were Joe Delaney, Charles Bittner, Greg Matthews and Denny Park. Delaney ran for a two-pointer and Denny Taylor had two of five extra point attempts.

The Rams averted the shutout in the second half of the game when a bad snap from center gave the host eleven the ball on the ten yard stripe with Pete Cosby making the touchdown.

The Spartans ground out their first touchdown with quarterback Park capping the drive from the one. Bishop Walsh made it 14 to 0 later in the quarter when Judy got the first of his three tds on a 55-yard run. An interception by Judy in the second period set up the third tally.

Matthews' 40-yard punt return helped the Spartans carry a 29-0 intermission edge.

Judy scored for the second time after a bad snap by Southern was recovered by Pat Merkel on the Ram's one-yard line. Judy, on the first play, powered into the end zone.

Jim Minke intercepted a pass to help begin a 65-yard drive which ended in Judy slicing off tackle for his third TD.

Charles Bittner scored the seventh touchdown for BW on a seven-yard run after the Spartans again recovered a bad snap on the Southern 30.

The Rams' record now stands at one victory against Kingwood, a tie with Valley of Lonaconing, and two losses to BW and Beall.

The Southern team will meet Parsons High on Friday evening on the home gridiron.

Serious crime was up 11 per cent the first half of 1970.

Parents of Mrs. Allen Naylor Are Dead In Collision

A Berkeley Springs couple was fatally injured, and a Cumberland truck driver slightly injured last Thursday morning in a head-on collision on U.S. route 40 near Flintstone.

They were Edwin Vincent Edmiston, 73, and Virginia H. Edmiston, 66, of Berkeley Springs, parents of Mrs. Allen Naylor, of Oakland. Mr. and Mrs. Edmiston were enroute to Oakland to visit their son-in-law and daughter when the accident occurred.

Mr. Edminston died shortly after being admitted to Sacred Heart hospital, while his wife was pronounced dead on arrival at the same hospital.

James Edward Miltenberger, Jr., 37, Cumberland, driver of the truck involved, was treated and released. State Police said the accident occurred at 10:30 a.m., one mile west of Flintstone.

Police said Mr. Miltenberger was attempting to pass a line of traffic in his 1967 pickup truck when it struck the car operated by Mr. Edmiston head-on. Members of the Flintstone Volunteer Fire company took the couple and the truck driver to the hospital.

Tfc. Richard E. Alderton investigated. Charges are pending.

Mr. Edminston had retired about a year ago as traffic manager of Pennsylvania Glass Sand corporation after more than 50 years of service.

In addition to Mrs. Naylor they are survived by four other daughters and 24 grandchildren.

Attending the funeral services from this area on Saturday morning at Berkeley Springs, in addition to the immediate family of Mr. and Mrs. Allen Naylor, were Mrs. Arthur Naylor, Sr., Mrs. Arthur Naylor, Jr., Michael Proudfoot, and Mr. and Mrs. S. T. Naylor.

"MAINLINING" — THE QUICKEST ROUTE TO THE END.

Drug abusers are noted for their curiosity. Right now, according to reliable statistics, hundreds of thousands of teenagers and even grammer school students are experimenting with dangerous illicit drugs.

The more sophisticated, influenced by unscrupulous "drug pushers," are being told to speed up the drug effects by "mainlining," which is the injection of forbidden drugs directly into the veins.

Because of lack of precautions for the proper sterilization of the medicine droppers, hypodermic needles and other crude methods used, "mainliners" are suffering hepatitis, septicemia, tetanus, and acute endocarditis. Any of these can be deadly.

The next issue of Drug Abuse News will discuss our conclusions about Drug Abuse and reasons why experimenters with illicit drugs are most unwise.

Sermonette By Area Ministers

We read in the Old Testament book of I Chronicles, chapter 28, about David the king of Israel turning over the responsibility of building the temple to Solomon his son. For God said to David, 'You may not build a house for my name, for you are a warrior and have shed blood' (I Chronicles 28:3) As I have been reading about this recently I have been impressed by the immensity of the task set before or delegated to Solomon. Surely this must have been an overwhelming responsibility cast upon him by his father, David. For as David said to the assembly, "Solomon my son, whom alone God has chosen, is young and inexperienced, and the work is great; for the palace will not be for man but for the Lord God" (I Chronicles 29:1). But David gives these words of encouragement to Solomon, his son: "Fear not, be not dismayed; for the Lord God, even my God, is with you. He will not fail you or forsake you . . . ." (IChronicles 28:20).

Now these are certainly comforting words for us today also. In fact this is the Good News the Gospel. "The Lord God, even my God, is with you," said David. What more comforting words than these can we hear when the burdens of responsibility are piled upon us? When we are burdened down by some worry, some care, some overwhelming problem in our lives for which there seems to be no solution, David's words of counsel come to us: "Fear not, be not dismayed; for the Lord God is with you."

Now as with Solomon, God gives each and every one of us a job to do. It may not be to build a temple, but He puts us here for a reason. I am convinced that until we really see this, and respond to God's demand upon our lives, by putting Him at the center, we will be constantly restless, searching, seeking, unsatisfied persons, because we have not found the true center of life about which all else must revolve. William Barclay has written, "The whole problem of human life is to get into a right relationship with God. So long as we are afraid of God, so long as God is a grim stranger, there can be no peace in life. We are forever frustrated, forever climbing up a hill in which the peak never comes in sight, forever under condemnation; but if we simply abandon this hopeless struggle and bring ourselves and our sin to God, then the grace of God opens its arms to us and we are at peace with a God who is no longer judge but father,, (William Barclay, The Letters to The Galatians and Ephesians, Philadelphia: The Westminster Press, 1958, p. 30.).

"Fear not, be not dismayed; for the Lord God is with you."

Let us resolve today to put God at the center of our lives and let Him help us bear our burdens and responsibilities.

Government at Work: Meeting Diverse Problems

The events of the past week provide a clear example of the changing role of government in the everyday lives of people. There was a time in the early history of this Republic when we were an agrarian people largely living on the fruits of farming and simple labor, when government did a few simple things and people did everything else themselves. Government built roads, managed the seaports and organized the system of criminal laws and the courts, but beyond that the people of America were on their own. But, we have seen recently a dramatic illustration of the change which events have thrust upon all the human race and in particular upon Americans.

On the one hand we saw from a distance the terrible and tragic war in the Mideast. We heard of terrible slaughter and civil conflict, a conflict which involved not only the kingdom of Jordan, but its Arab neighbors, the Palestinian refugees within its borders, and at least collaterally both the United States and the Soviet Union. In any kind of explosive situation with a cast of characters like this, the possibility of worldwide conflict, nuclear involvement and therefore the very survival of the race, is a part of the deadly game that government plays today. This is a game which involves the lives of every one of us.

But on the other hand, let's examine several actions of the United States Senate in moving [illegible] for the survival of mankind as averting a nuclear war in the Mideast in view of scientific warnings that we are rapidly polluting the air to a point that it will threaten the survival of the human race on the face of the globe. The Senate voted to set very strict standards for all human activities within the United States which have some sort of emission into the atmosphere, adding to the burden of pollution that already exists. Factories, automobiles, airplanes and practically everything you can think of which has some sort of exhaust would, under the Senate-passed bill, be subject to strict federal control in the hope of giving the atmosphere a chance to cleanse itself and to give mankind an opportunity to draw long breaths without the danger of suffocating from the pollutants in the air.

Also, the Senate Judiciary Committee, of which I am a member, was addressing the problem of crime, a problem which has to do with survival, if not the very survival of the human race certainly the survival of our kind of society. The quality of American life has been threatened by the fear of criminal violence which exists in every city of America, large and small. The Judiciary Committee voted to authorize the largest federal anti-crime program in the history of the country. We hope that it will restore the quality of life in American cities.

So this is the story of government in the past week. Working to avert a nuclear holocaust in the Mideast, [illegible] to avoid the threat [illegible] bombers of America safe for all of us.

Destroying Incentive...

If welfare recipients are to enjoy a higher standard of living than men and women who work at a job, the incentive for self-reliant life is likely to disappear from our society.

Concern on this score is being felt as a result of the administration's efforts to win congressional approval of the Family Assistance Act. Many legislative leaders in both parties believe that the welfare plan would be a destroyer of incentive. The Senate Finance Committee very properly is giving the legislative proposal extremely close scrutiny.

The Chicago Tribune, in an editorial on the plan, commented: "Investigation showed that a women earning $7,000 a year in New York City could have less money (after taxes) at the end of the year than a mother of three fatherless children with no income other than benefits under the administration's plan."

If this is the case, and the evidence indicates it is, then it seems clear that the proposal will cause some people to choose a permanent welfare existence rather than gainful employment and a self-reliant way of life.

The administration's plan penalizes the citizen who desires to be self-supporting. A columnist for the Baltimore Sun reports that -- under the plan -- a woman with four dependents and a job paying $5,000 would take a drop in income if she took a job paying $6,000 and gave up Family Assistance. Again, if that's the case, how does the administration proposal help get people off the welfare rolls.

It is really incredible that a plan should be offered as a "reform" of welfare laws when, in fact, it makes non-work more rewarding than work.

The Senate Finance Committee also is concerned about the colossal dimensions of the Family Assistance plan. The number of persons receiving public assistance would be tripled in 13 states if plan is enacted into law. In 16 states, more than 15 percent of the population would be covered by this welfare plan and would receive financial assistance. In the case of one state, Mississippi, 35 to 40 percent of the population would be on welfare. The cost to the nation's taxpayers would soar from the current $4.5 billion welfare bill to a fantastic $9.1 billion.

In effect, the Family Assistance plan would be legislation aimed at redistributing wealth. Self-supporting citizens would have to pay much higher taxes in order to maintain the huge non-working population on the welfare rolls.

Furthermore, existing state administration of welfare programs would be eliminattd. Dependent individuals would simply sign up for federal benefits. No thorough check would be made on applicants for aid under the Family Assistance plan. The absence of regular investigators by state welfare agencies would be an open invitation for falsification of facts and other abuses.

It is no wonder, therefore, that U.S. Rep. John Ashbrook (R-O.) said that many congressmen -- both Republicans and Democrats -- regard the Family Assistance plan as "questionable, to say the least."

Realistic citizens know that a considerable number of people in our society are not strongly motivated towards work and self-reliance. At best, these people have marginal motivation. If these types realize that work isn't necessary, that they can collect cash and food stamps adequate to meet their needs, they will not seek employment.

America cannot afford to have people of this type withdraw from the work force and make a lifetime commitment to indolence at taxpayer expense. Every able-bodied person must work to support himself, his family and the society of which he is a part. Federal and state legislation should be geared to motivating the shiftless and to otherwise inducing non-workers to change their ways and start contributing something to the country in which they live.

The Nixon administration's Family Assistance plan is an affront to working Americans. As such, the bill should be killed in the Senate. The legislative proposal represents a dangerous step towards sanctioning of a drone society within America's working society.

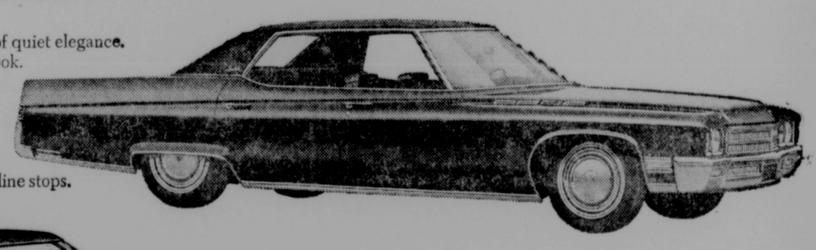
1971. Buick introduces a new set of values.

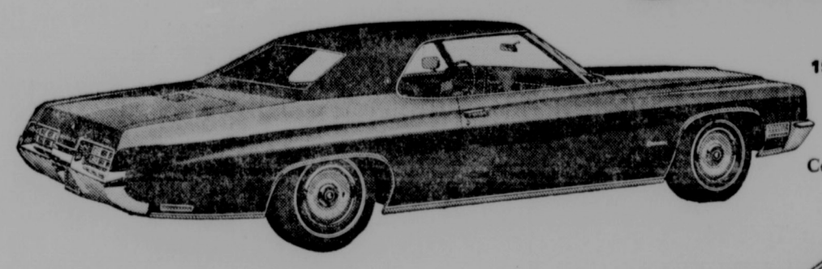
Value, not gimmicks or ornamentation, sells cars.
More people have been coming to Buick each year for just that reason. Buick concentrates on value.
And this year, Buick introduces a new set of values. Features that will help make your new Buick perform better, last longer and get you more of a return on your investment at trade-in time.
Only a Buick dealer can offer you our new set of values. So, test your values against our new ones. Then ask yourself this simple question. Wouldn't you really rather have a Buick?

Something to believe in.

1971 Buick Riviera. A totally new design concept. And that's not all. Riviera offers MaxTrac, an exclusive power control system you can order with its own on-board computer. It helps you get securely over slick surfaces by reducing rear-wheel slipping. The new body features side-guard beams for protection, a bigger trunk, and a driver cockpit with a control center designed around the driver for new ease and convenience.

1971 Buick Electra 225. A new interpretation of quiet elegance. We've improved our Electra everywhere you look. There's more room in every direction, interiors that can be appreciated as much for their durability as for their beauty and comfort, even a new balanced braking system. A unique valve proportions braking force front to rear to help give you quick, smooth straight-line stops.

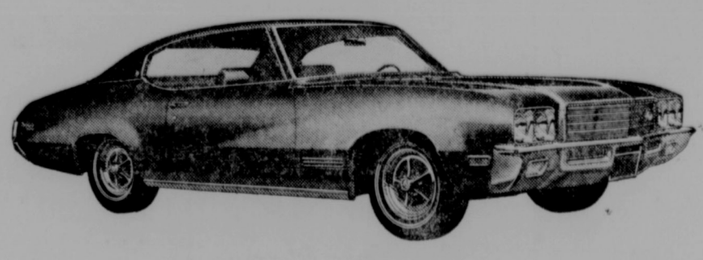




1971 Buick Centurion. This is our newest Buick, a city car with sleekness and grace as well as muscle. It features more nimble variable-ratio power steering, power front disc brakes, Full-Flo ventilation, and a vinyl roof on the Centurion Formal Coupe as standard equipment.

1971 Buick Skylark Custom. This is the car that has set the pace for value in its price class. Rocker panels that wash and dry themselves, big-Buick room and comfort inside, a cooling system that should never overheat, inner fenders that protect the outer fenders, and a modest price have put our Buick Skylark traditionally among the resale leaders in its class.

1971 Buick LeSabre. An incredible new offering of Buick value. The LeSabre, like the Riviera, Electra and Centurion, features AccuDrive, a new version of the directional stability system we pioneered. It will help give you smooth handling.



An Important Improvement. Every new Buick engine is now designed to run smoothly and efficiently, and with lower exhaust emissions, on no-lead and low-lead gasolines. And every Buick V-8 engine will have exclusive nickel-plated exhaust valves for smoother operation and longer valve life, and a new time-modulated choke to help give quicker warm-up and a more consistent fuel mixture.

Rams Are Plagued By Injuries

By Paul Viragh

Southern's football team has been plagued by injuries thus far this season. It all started when Robert Ridder was taken ill with an enlarged spleen from an infectious virus and fever. "Ruff" spent six days in the hospital. He feels no pain and hopes to play in the Parsons game.

Then came last Friday when Southern met Bishop Walsh. Terry King, who had been beset with injuries, was injured the second play of the game. Terry was taken to Garrett County Memorial Hospital where it was discovered that he had a slight concussion. He also hopes to play Friday night.

Then David Martin was injured in the second quarter of the B-W game. He sustained a fractured femur and will be out for the season.

With another knee injury, Bill Skipper was taken to the hospital from the same game. He sustained a bruised knee cap, but will probably be ready for Friday's game.

Bob Fike accounted for another injury in the fourth quarter of the game when he was thrown down. Bob had a chest bruise but was taken to the hospital where he was treated.

Later in that game, in the 4th quarter Mike Gravely was injured when he caught a finger in the eye. Mike was sent to the local hospital and later sent to the University Medical Center in Morgantown. Mike will be ready for the Friday game.

Corn Plot Tour Attracts Sixty

The corn field day and tour on the Hamilton farm was very successful according to James A. McHenry, County Extension Agent, some 60 people visiting the plots during the tour. A luncheon was served to approximately 40, compliments of Southern States and Giegy Chemical Company.

Dr. Lenat Hofmann discussed the corn blight situation and showed farmers two different kinds of blight. Dr. Hofmann pointed out that corn yield reduction in the United States and Maryland will be less than earlier indications. Probably a reduction of 6%, with areas in the south being hit harder.

Mike Boyd, of Geigy Chemical, discussed weed control practices in corn. He pointed out that different soil types would produce different weed control results. The heavier more organic soils tend to tie up chemicals and farmers are advised to use a higher rate of weed control chemical.

Wayne Hamilton, farm owner, discussed his fertilization program and general farm operation. This is the second year Mr. Hamilton has cooperated with the Garrett County Extension Service in demonstrating corn varieties.

Mr. McHenry pointed out that the purpose of corn demonstration plots is to give farmers an opportunity to observe 47 different corn varieties grown in the same location and cultural practices. This must be done for several years to equalize results. This year for example the later maturing varieties showed real well; while under normal Garrett County conditions the earlier varieties have been superior.

Wheels in Motion

When the gears of a machine mesh together in motion, things begin to happen. Wheels turn, and power is transmitted to every part of the mechanism.

Prayer is something like that. Individual prayer is a vital and sacred thing. Each of us has moments when we—and we alone—must turn to God.

And collective prayer—mass prayer—can be a tremendous force for good too. It is as if thousands of "spiritual gears" suddenly were meshed together into a unit directed by a single purpose.

On Worldwide Communion Sunday, remember the power of collective prayer. Join with your neighbors throughout the globe by attending church and praying both for peace and for each other.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

WHAT'S THE DIFFERENCE?

Lesson for October 4, 1970

Background Scripture: Acts 17:22-28a; Ephesians 2:8-9; Hebrews 1:1-4.
Devotional Reading: 2 Corinthians 4:6-18.

Does it matter what you believe so long as you believe in something? Is there any real difference between a Christian and anyone else? Aren't all religions valid and good?

These are common questions that deserve specific replies.

Rev. Althouse

First of all, I believe that what you believe is more important than simply believing in something. Hitler believed that his so-called Aryans were superior to Jews as human beings and because of this belief, he had millions of Jews exterminated. John Dillinger believed that a man has to take what he wants from life, regardless of who it hurts or what laws must be broken to do it. This gangster lived and died by the violence he believed in.

Communists believe that material prosperity is the highest goal after which man and his society should seek. Human values are believed to be subservient to the welfare of the state. Because of what they believe, Communists live and propagate their Marxist faith in a manner quite contrary to our own beliefs.

Beliefs really matter

So what we believe does matter, for beliefs effect the way we act and live. What we think effects what we do. Our convictions are important to the extent that our lives are governed by them. Even other people's lives are effected by what we believe.

Secondly, all religions are not equally valid and good. Some religions seem to give man a great deal of truth about life. They bring men closer to the One whom we call "God" and enrich not only their own lives but those of others as well in a manner which may seem not too unlike our own Christian way of life.

Yet, there are also religions which do not bring the best from men. Some religions teach men to hate others, sanction the killing of enemies, condone the sacrifice of children and encourage people to live in perpetual ignorance and superstition. Some religions appeal to the very worst that is in human nature and are very destructive to society. One would have to be blind to continue to assume that all religions are equally true and valuable.

The unknown God

Most men everywhere believe in some kind of god or ultimate reality. Their descriptions of what they believe in often remind us of the God in whom we believe. They sound as if they are roughly describing the same reality. Many times we are led to say, "What you are describing is what I call God."

Yet, despite these similarities, there are often great differences too. Sometimes we may speak with someone about a third person who is known to both of us. We may come to realize that the other person does not know our mutual friend as well as we do. Often this is the way we may feel about someone of another faith. We may sense that they are talking about the One whom we know as God, yet they may seem to be unfamiliar with some aspects of God which we hold to be important.

This is what Paul was referring to when he spoke on Mars Hill in Athens and referred to the "unknown god." The Athenians knew there was a God, yet it seemed they did not know him as fully as they might. The difference between what they knew of God and what he knew could be summed up in the name: Jesus Christ. Paul did not claim that they knew nothing about God, that their religions were worthless. He was simply saying that the difference between knowing God partially and knowing him as fully as man can know him is Jesus Christ. When we meet a man's son we often get the best idea of what the father is like. So it is with Jesus Christ. Many religions tell men a great deal about God, but in Jesus man sees God revealed most completely. That's why Jesus is the difference.

Dual Birthday Held On USS Garrett County

A birthday celebration for Garrett County's namesake ship and one of the ship's officers was the order of the day recently in Subic Bay, Republic of the Philippines.

Almost half-way around the world from Garrett County, the USS Garrett County (LST-786) celebrated her 26th birthday on August 28. She was joined by Lieutenant (junior grade) James P. Farrell of Brooklyn, N.Y., her 24-year-old First Lieutenant.

Although only two years older than the young officer, the Garrett County is the oldest active LST in the Navy and has seen heavy combat in World War II before Farrell was born.

Built during World War II by Dravo Corporation of Pittsburgh, Pa., the landing ship, tank (LST) USS Garrett County traveled some 900 miles down the Mississippi River to New Orleans where she was commissioned August 28, 1944, and ordered out to the Pacific Fleet to transport men, material and supplies in support of war operations.

Now a quarter century past, the 327-feet long and 50-feet wide Garrett County has been converted to continue her support in war operations in Vietnam.

Commanded by Lieutenant Commander James R. McCall of Franklin, Tenn., the Garrett County operates as a staging and maintenence base for river patrol boats (PBR) and helicopters in and around Vietnam with other U.S. Seventh Fleet ships.

She recently observed her 500th landing of a helicopter.

Battle lines were drawn between the American auto industry's mini-cars and its tough foreign competition.

To The Citizens of Garrett Co:

For some time, you have heard all kinds of proposals to settle the Roads strike. The road workers and their representatives have always been and are still willing to negotiate this dispute and at the same time, be reasonable in their requests. For this reason, we think that you, the citizens of Garrett County, should know about the settlement we have offered in order to make emergency repairs to the roads immediately, and be prepared to plow snow when it comes. Recognizing that an emergency may be just a few weeks away, we have offered the following temporary settlement until the new County Commissioners take office.

1. Union recognition of Local 1834, AFSCME, AFL-CIO.
2. Dues checkoff with return to work, or dues checkoff no later than January, 1971.
3. No reprisals against road workers who belong to the Union with reinstatement to pre-existing status.
4. The same wage offer and fringe benefits already given the strike breakers by the County Commissioners.
5. Negotiations to begin with the new County Commissioners no later than 30 days of their taking office, with the same provisions of the old Contract prevailing, plus the above, until a new contract is negotiated.

None of the above precludes our negotiating with the present County Commissioners immediately if they will agree to do so.

Special Representative
American Federation of State, County and
Municipal Employees, AFL-CIO

J. Glenn Beall, Jr. Reports from Washington

Congressman, 6th District, Maryland

Beall

In the next few weeks as Congress returns to finish up the remainder of its business, some rather important pieces of legislation are on the agenda. I thought a review of some of this legislation might be interesting to the citizens of the Sixth District.

A proposal to start a revenue sharing system is pending in both houses. If enacted it would provide that part of each years federal Revenue would be returned to State and Local Governments to supplement their source of income. In my view this is one of the most significant bills submitted in recent years, but unfortunately chances for congressional action this fall are questionable.

The Manpower Training Act of 1970 would consolidate the major manpower programs and training programs into one central program. It would also provide an automatic increase in the funds available for the job training when the unemployment rate exceeds 4.5% for three consecutive months. It, too is pending in both houses, although hearings have been held. I anticipate some action in the House this fall.

Already passed are the Employment Security Amendments of 1970 which will provide unemployment compensation for an additional 4.75 million jobs and 13 week extension of the benefit period under certain conditions.

The Social Security Amendments which would liberalize benefits and provide for automatic cost of living increases has passed the House and is pending in the Senate. This legislation is essential to our elderly citizens who have been so hard hit by inflation. Hopefully, it too will be finally passed this fall.

Electoral college reform is another major proposal not yet finally approved by Congress. It too has passed the House and is now awaiting action in the Senate.

There are many others which have been submitted but have not been finally passed. Some of these deal with crime, draft reform, drugs, obscenity and pornography, explosives regulation, education grant reform, housing, consumer protection and a number of others. Obviously we have our work cut out for us as we head into the remaining months of the 91st Congress.

AccuColor

*Model GP-628, The Altamira, 23" diag. picture.

model-for-model, dollar-for-dollar the most vivid, most life-like, most consistently accurate, most dependable color in our history. And the most automatic. PS backed with the most liberal consumer protection in the industry.

The AccuColor system combines the features you want most into one set:

1. An AccuColor Tube

Computer-designed for optimum color accuracy and sharper, more detailed pictures. More radiant phosphors deliver brighter, more life-like color and sparkle. Each AccuColor tube has RCA's own Perma-Chrome shadow mask. It prevents distortion of color as the picture tube warms up—gives you consistent color even after hours of continuous viewing.

2. An AccuColor Automatic Tuning System

It's fiddle-free color tuning because it's a system where critical controls are automatic. The superior accuracy of RCA's Automatic Fine Tuning locks in the correct signal on all channels. And AccuTint—the one-button automatic—gives you more natural flesh tones and consistent color on all channels.

3. An AccuColor Chassis

In RCA's AccuColor sets many tubes—and in some models all tubes—are replaced by advanced solid state devices; the kind of components which are the most stable, most reliable, most long-lived used in television today. AccuColor is designed to give you consistently long, strong color performance.

Student Voices

YES – Progressive Ed
. . . Rita Shrout

There has recently been much discussion of the need for expanding educational facilities in Garrett County. As the population of our area continues to increase, we can see an alarming degree of over-crowding in our schools. One of the most popular remedies at this time seems to be construction of a junior high school. This would deter the student population problem -- for a while -- but would probably create the need for additional teachers.

I believe as long as we intend to appropriate funds for building -- and as salaries for instructors -- we should construct new facilities with the future in mind.

Our present educational setup is outmoded. Educators all across the world are revamping the system -- why shouldn't we in Garrett County? Must we always live in traditional conservatism? Instead of a junior high school, I propose a progressive senior high school. As students mature earlier, they should be given the opportunities of wider curriculums and more independent studies. Being permitted to excel in fields of interest, students would be better prepared on entering their career choice.

My plan for a progressive school has three major advantages as opposed to a junior high: (1) because progressive schools specialize in independent achievement, they will not likely be outmoded -- eliminating later reforms and thereby saving money for taxpayers; (2) because independent study requires less work for teachers, a smaller number than is necessary for non-progressive teaching would be adequate -- again saving county money; and, (3) progressive education would be most beneficial to those students presently suppressed by limited curriculums and classroom study.

As Garrett County's need for a new school grows, we must open our eyes to trends in education -- the future. The days of the one-room schoolhouses are over -- and Garrett County, like the rest of the world, must learn to adapt.

Volunteers Stay Young In 4-H Work

For more than 60 Garrett Co-residents, their key to staying young is involvement with youth, according to Alice Hevner, extension agent. They are volunteer leaders assisting with the County 4-H program.

These volunteer leaders, according to Miss Hevner, are revealing their faith in today's young people. They share a common interest -- seeing boys and girls advance through the opportunities available in 4-H.

Boys and girls between 9 and 19 may be 4-H members. Those young and not so young who are over 19 may join 4-H as volunteer leaders. She points out that more leaders are needed to serve even more Garrett County young people through 4-H.

Anyone wanting to know more about the 4-H program in Garrett County should contact Miss Hevner or visit her office in the Post Office Building in Oakland.

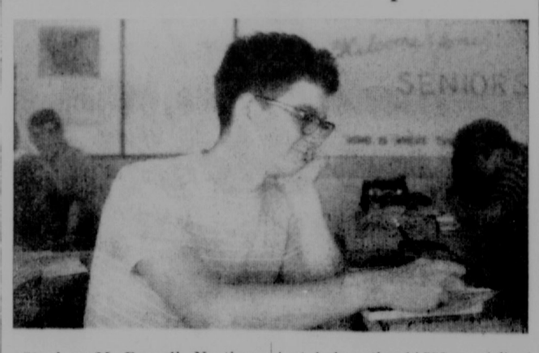
Commended For Scholarship Test



Stephen M. Russell, Northern high school, has received a letter of Commendation honoring him for his high performance on the 1970 National Merit Scholarship Qualifying test.

The son of Mr. and Mrs. Stephen M. Russell, McHenry, he is among 35,000 students in the U. S. who scored in the upper two percent of those who are expected to graduate from high school in 1971.

The commended students rank just below the 14,759 semi-finalists, announced in September by the National Merit Scholarship Corporation.

Edward C. Smith, president of NMSC, said, "Although commended students advance no further in the scholarship competition, their standing in this nationwide program deserves public recognition. The commended students should be encouraged to pursue their education."

Post Offices Commended

The Oakland post office as well as other post offices in the county were commended for their part in the postal clean-up program conducted in the Washington region, August 16 to 22. Garrett county, as well as other parts of Maryland, Virginia and West Virginia are included in the Washington region.

The clean-up included excessing and disposing, saving space, removing safety hazards and cleaning up their installations. The Oakland office received a rating of "excellent." Carl C. Olsaker is the regional director.

Developer Plan For Lake Aired

After visiting a lake in northeastern Pennsylvania that had been developed into a model center for hydroelectric dams, the Deep Creek Lake Property Owners' association took action to have Deep Creek Lake such a place.

William W. Grant, attorney for the association, said the organization had asked the Pennsylvania Electric company to have one trained developer assigned to the lake for future development purposes.

A lengthy letter to the electric company, owner of the lake, and to the Federal Power commission, recommended the appointment of a lake committee to work with Penelec. The committee would be comprised of a representative group which would include a year-round resident, real estate operator, business man, educator, health official, among others.

The association proposed that sections of the lake having roads and adequate sewerage, should be developed into high density residential areas.

Capitol Comment

U.S. Senator

What One Man Did To Fight Pollution

One of the questions that is most often asked not only of members of Congress but of one citizen by another is "What can one man do?" What can one man do in an age in which 205 million Americans are crowding together in relatively small parts of the country, when the economy is so enormous and so independent that the forces which seem to control our lives are beyond any rules or regulations man can devise, when the world is becoming so small that the interaction of some activity in one remote spot becomes of immense importance to the rest of us. What can one man do?

There was an answer to that question the other day in the middle of the Chesapeake Bay. A waterman on the Bay was shocked to see a large tanker proceeding up the main channel dump its kitchen trash into the water where Marylanders have been swimming, fishing and boating for over 300 years. Apparently, there was a considerable amount of kitchen garbage and refuse, for it littered the water for yards around. This one man, recognizing that this was a violation of law as well as an outrage against the environment, went into action. He started with a letter to the editor of a daily newspaper. He saw that the letter to the editor was sent also to various public officials who would be interested and have jurisdiction in the matter. The paper published the letter and the officials, including myself, went into action. The company that owned the ship was very much embarassed, recognized that one of its employees had committed a serious error and has promised to enforce the law and company regulations as well as install incinerators on board its ships.

So what one man did was to activate a whole chain of circumstances in the fight against water pollution. This victory for society is the result of one man's alertness and the fact that he did something about it. Like this one man, there is a lot that everyone of us can do.

In Western Maryland recently I was distressed to notice that, on one of the state's most scenic roadways, the ditch along the side of the road was full of bottles, cans and papers. Think what one man could do with respect to that ditchful of refuse. Perhaps it is too much to ask each citizen to stop his car and to get out and pick up a bushel of that trash, but if every man would refrain from dumping his cans in the ditch, if everyone would carry his refuse to the proper place of disposal, then that particular kind of pollution would not occur.

The Government can, and if I have anything to say about it, will do a great deal on the question of pollution and environmental control. However, there are many things the Government cannot do, that one man can do and I am confident that everyone of us wants to be that man.

A large potato reminding one of Dopel, or some comic strip character, was exhibited this week in Oakland. The potato with prominent protusions for ears and eyes placed to resemble the eves and nose of a face, weighed in the neighborhood of one and one-half pounds. Holding the spud is Willard Moon, an employe of the town of Oakland. The potato was grown on the farm of Stanley Savage's father, in the Accident area.

Motor Accidents Show Big Drop

Motor vehicle accidents show a big drop this past week in the county. Only four were noted, according to records in the office of the Maryland State Police, Oakland.

On Monday afternoon Paul S. Evans, Loch Lynn, proceeding south on Alderson street in Loch Lynn, attempted to turn left onto Third street, ran off the road and collided with a power pole. Car damage was light and there were no injuries. Tfc. Stephen M. Russell charged Evans with operating at a speed too great for conditions.

A two car collision occurred on U. S. 219 just north of Oakland last Sunday about 1 p.m. A car driven by John W. Miller, of Deer Park, traveling north, observed a car driven by Michael S. Phillippi, Oakland, proceeding south and coming across the center line. Miller veered right but could not avoid being struck by the Phillippi car. Phillippi struck the Miller car, spun around, hit it again, and finally came to rest. Damage to the Miller car was $1,000 and to the Phillippi car $1,500. Miller and Phillippi were both injured and taken to the Garrett County Mtmorial hospital in one of the Van Meter ambulances. Both have since been released from the hospital. Tfc. Dale K. Williams charged Phillippi with failing to keep to the right of the highway.

Another two-car accident occurred about 7 a.m. September 22, on Dry Run road just east of State route 495. Paul R. Skipper, Swanton, pulled from his driveway onto Dry Run road into the path of a car driven by William L. Gaither, Oakland, traveling west on the road, and collided with it. Car damage was light but a passenger, Brenda Gaither, was injured and taken to Garrett County Memorial hospital in a private car. She was treated and released. Skipper was charged by Tfc. Robert D. Lashley, with failing to yield right of way at an intersection.

On Monday morning a tractor-trailer driven by John R. Spears, Harwell, Ga., was traveling south on U. S. 219 on Deep Creek bridge. He was traveling about 25 mph in the center of the roadway but had to go to the right to avoid striking an unknown vehicle coming north. At this point of the bridge there are corner braces on each side and the trailer struck one of them. There were no injuries but damage to the rig was $2,000. No charges were made by Tfc. Dale K. Williams.

Absurd Reaction . . . .

There has been an absurd reaction among parents and others following the disclosure last week of fairly widespread drug abuse among teen-age students. There has been a tendency to blame the school principal and teachers for lack of proper supervision. It's rather asinine that people should try to shift the blame for student operations at school when the moral training in the home or the lack of it, is the real culprit in many instances.

One can not expect a school administrator to work a miracle. Parents have been responsible for their children for at least fourteen years before they get to junior high school and the mold ought to be pretty well established. It is certainly the responsibility of the parent to implant a sense of values within the student.

It is impossible for an instructor to stand over a student for 24 hours a day. As an example just last week instructors caught students receiving liquor through a window in the men's toilet, from persons outside who are not able to attend student functions without an I.D. card. This is just one instance but it emphasizes the difficulties that the administrators must put up with at every school function and throughout the entire school day. Drug activity is not confined to the teen-age set. Plenty of adults are also involved.

This drug problem is one for society as a whole, and society had better turn its best side to providing a solution without delay.

Elwood Brown Gets Silver Star Award

Elwood Brown, of Elk Garden, W. Va., was recently awarded the Silver Star for exceptionally valorous action in South Vietnam in March of this year. He is now at home for a furlough after having completed three assignments in Vietnam. He has been in the service for sixteen years.

The soldier, originally from Vindex, this county, is a son of Mr. and Mrs. Sincle Brown. He was met at the Pittsburgh airport on September 27 by his parents, his wife, Marie, and daughters. His wife aid family prescently reside at Swanton with her parents, Mr. and Mrs. John Tichnell, but will go with him to Fort Campbell, Ky., upon completion of his furlough, where he will be assigned. He is 33 years of age and attended Elk Garden High School before enlisting in 1954.

Brown is a staff sergeant, assigned to U. S. army troop L, 3rd squadron, 11th armored cavalry regiment.

His citation declared he had distinguished himself by exceptionally valorous action while serving as platoon sergeant with troop L on March 10, in Vietnam.

"On this date troop L suddenly encountered an estimated battalion of North Vietnamese soldiers. Observing his platoon leader being wounded by enemy fire, Sergeant Brown dismounted his vehicle and went to his aid. After moving him to a relatively safe position Sergeant

300 Or More At Kick-Off Dinner

Some three hundred people attended the Friends of Garrett County kick-off dinner last evening at the Wisp Ski lodge at McHenry and heard Junior Samples, of the Hee Haw television show speak briefly.

Following the dinner he met additional people at the American Legion home in Oakland, at a "Get to Know" Junior Samples night.

The dinner, which was a $50 a plate affair with $10 for an additional ticket for those purchasing the one $50 dinner, was to provide expense money for operation of the annual Autumn Glory Festival.

R. T. Thayer served as master of ceremonies. Ted Laskey, president of the Promotion Council, and Arthur Naylor, Jr., chairman of the dinner, also spoke to the group.

No. 195 Highest Lottery Number For Armed Forces

Local Draft Board No. 47 Executive Secretary Miss Katherine Campbell announced today that random selection number 195 was the highest lottery selection number reached in 1970.

The board spokesman said that the remaining calls probably can be met without going above the current high random selection number due to the numbers of registrants entering the draft pool late in the year who have numbers below the "high" already reached by the board.

Miss Campbell said that in compliance with the White House Executive Order announced recently, all registrants of Local Board No. 47 who hold the higest reached number or numbers below that and who have not been issued orders for induction will be considered for carryover into the extended priority selection group if they are classified I-A as of December 31. Such young men will have their liability for induction extended for the first three months of 1971.

Miss Campbell said that the Executive Order states that registrants who held numbers above the highest reached number of Board No. 47 and are classified I-A on December 31, will be placed in a lower draft priority group on January 1.

College Receives Official Name

The Board of Trustees of Garrett County Community College at its regular monthly meeting voted to omit the word "county" from the name of the college, so that its official name will now be "Garrett Community College." No community in the county has the same name as the county, so it was felt that the new name would provide the same identification with the county, while being simpler in designation and for use on seals, emblems, insignia, etc., it was pointed out by Dr. Luther Shaw, president.

A report on building status at the McHenry site was made by Dr. Shaw. He stated that progress was such that the buildings should be ready in September, 1971. The first group of students will begin classes at that time at the McHenry site.

Inquiries regarding the college may be directed to the interim address: Green Street, Oakland, calling 334-9559, or by contacting Dr. Shaw.

The test, which was given last year, identified 14,750 semi-finalists who scored highest in their states on the National Merit Scholarship Qualifying Test.

Gigantic Parade Is Scheduled For Sat. Afternoon

Parades have the tendency to enlarge from year to year and there are indications that this year's Autumn Glory parade will outdistance the gigantic parade of a year ago.

Guy William Hinebaugh, parade marshal, released a list of the units planning to participate and it includes sixteen bands, seven drum corps, 25 floats, 18 other music and drill units, two ROTC units, from Morgantown and Keyser, one legion post colors, nine queens and other dignitaries, a motorcycle demonstration, steam engine from [illegible], Pa., and riders from the Garrett County Horsemen's association.

Units will form similar to last year, on upper Second street, and part of Third street, with through traffic diverted to Fourth street during the parade.

The parade will move South on Second, turn left on Alder and again onto Third and disband on the outskirts of Oakland where it began.

Some of the highlights of the procession will include the following bands from Paw Paw, Terra Alta, Philippi, Belington, Mt. Savage, Ridgeley, Rowlesburg, Bruce High, Westernport, West Virginia Pipes, Elkins, Parsons, Aurora, Mountaineers of Davis, Turkeyfoot of Confluence, Southern junior high, Southern High and Northern High.

Drum corps will include the Yankee-Rebels of Baltimore, national winners, who will lead the parade; Shawettes Baton and drum, Pittsburgh; Virginia Lancers, Winchester; Blossom Baton and drum, Winchester; Black Diamonds, Central City, Pa.; Stars of Shenandoah, Winchester; Free Statesmen, Cumberland.

An extensive display of Bausch and Lomb products, some of the machines used in their manufacture and photos of other division plants has been set up in the display window at the Ruth Enlow Library on Second street, for the benefit of the thousands of visitors expected here this weekend.

William P. Kellam, Jr., director of corporate communications, called The Republican office Tuesday to describe the exhibit which will be of interest to area residents and visitors also.

Bloodmobile Visit Set For October 14

The county chapter, American Red Cross unit, will endeavor to obtain at least 100 pints of blood during the regular visit of the Johnstown bloodmobile unit to Oakland next Wednesday, October 14.

The unit will be set up at the Oakland fire hall as usual and will be there from 12 o'clock noon until 6 p.m.

The importance of reaching the chapter quota was stressed in a letter from the Johnstown regional center recently. It explained that for chapters producing 100 percent of quota for two successive quarters the chapter is eligible for total coverage. Anyone within the chapter jurisdiction may have blood replaced anywhere in the United States. If a person or family participates as a donor all of their blood needs are met any place in the United States.

The county at the last visit was far below its 100 pint quota, but it was explained that the timing was bad. Usually the county is near reaching or surpassing its quota.

FRED A. THAYER

State's Attorney For Garrett County

At the conclusion of seven years and ten months of my nearly two full terms as State's Attorney for Garrett County, I submit the following report to the citizens and taxpayers of Garrett County:

As a result of the combined efforts of this office, Maryland State Police, Garrett County Sheriff's Office and other law enforcement officials, 421 criminal Trials Cases and 158 Criminal Appeals Cases have been filed in the Circuit Court and disposed of. In addition, juvenile and paternity cases have been filed and sixteen grand juries convened.

Trials of the following major categories of crimes have been completed:

Burglary	48	Destruction of Property	6
Forgery and False Pretense	47	Sodomy	6
Larceny	46	Murder	5
Alcoholic Beverage Violations	34	Kidnapping	4
Assault and Battery	32	Assault with Intent to Rape	4
Breaking and Entering	27	Arson	3
Escape	25	Manslaughter	3
Welfare Fraud	22	Perjury	3
Narcotics (excluding juvenile)	17	Non-Support	2
Rape and Carnal Knowledge	13	Motor Vehicle Felonies	2
Sanity	12	All Others	35
Post Conviction	7		

During this last year Criminal Cases docketed increased from the prior average per year of 48 to a high of 82, nearly double the annual average. Convictions on cases docketed resulted in 90.5% of the completed cases. This increase is due, in my opinion, not to any significant increase in criminal activity, but to more effective investigation and solution.

Because of the dedicated efforts of all law enforcement personnel in Garrett County, there is no evidence of organized crime, no major unsolved crimes and offenders are quickly apprehended and brought to trial. Because of the excellent preparation of cases by these officials and their untiring co-operation with this office, the record of conviction is excellent. My thanks to these officials, each of whom has contributed to deterring crime in Garrett County.

Respectfully submitted,

Fred A. Thayer

State's Attorney

(Continued From Page One)

Brown returned to the contact area to assume command of his platoon and direct their fire upon the enemy positions. He brought devastating firepower upon the enemy with his machine gun and personally eliminated numerous enemy bunkers. He then led a ground assault upon the enemy positions. Due to his efforts the enemy was completely routed. Staff Sergeant Brown's gallantry in action was in keeping with the highest traditions of the military service and reflects great credit upon himself, his unit and the United States Army."

Injuries Involved In Two Accidents

Four accidents, two of which involved personal injury, were noted in the records in the office of the State Police, Oakland, this week.

Light to total damage was sustained by vehicles involved.

Those involving injury were two, one-car accidents. In each of the other two accidents an unknown vehicle was responsible.

James R. Swindell, W. Salisbury, Pa., was traveling west on U. S. Route 40 on Savage Mountain Monday afternoon September 28 when the driveshaft of his car became disassembled, causing him to lose control and run into a guardrail. Mr. Swindell's car was a total loss. He was taken to Sacred Heart hospital, Cumberland in a state police car. No charges were made by Tfc. C. D. Skidmore.

At 1 a.m. Sunday morning, September 27, Alice F. Friend, Friendsville, was traveling south on State Route 42 at Friendsville. She fell asleep, ran off the road, then recrossed the road and struck an embankment. Her car sustained $600 damage. She was injured and taken to the Garrett County Memorial hospital in the Friendsville Fire Dept. ambulance. Tfc. C. D. Skidmore charged her with reckless driving.

Curtis R. Nugent, Friendsville, was going west on route 53 at the intersection of State Route 42 Saturday evening, September 26 and was struck by an unknown car going east. The unknown car, which left the scene, was believed to be a Chevy Nova with a black top, orange or red bottom, and bearing Pennsylvania license plates. There were no injuries, light car damage and no charges made by Tfc. Dane O. Whiteman.

An accident which occurred last Saturday just past midnight on Route 219 at Deep Creek bridge resulted in $1200 car damage but no injuries. Peter J. Ask, Henryville, Pa., was traveling north on Rt. 219 and came upon an unknown car approaching him on the wrong side of the road. Ask veered to the left to miss the car, lost control, struck a guardrail, recrossed the road and struck the bridge. No charges were made by Tfc. Dale K. Williams.

Infraction Of Landfill Order Noted In Allegany

The Allegany County sheriff's office was notified yesterday of an infraction of the "cease and desist" dumping order pertaining to the Mt. Savage landfill.

The landfill has been a matter of controversy between Mt. Savage residents and the American Landfill and Reclamation company, the latter claiming that a permit allows them to dump on the strip mined area.

The latest dumping incident involved Royce Johnson, Winchester road. Mr. Johnson claimed the trash he was dumping was "local garbage," but residents said the load apparently originated from the Oakland-Deer Park area. Origin was determined from cancelled postmarks on envelopes.

To Conduct Week-End Recreation Program

The Dennett Road Physical Education Department will conduct a school-community recreation program for all children enrolled in the Dennett Road School.

The program will start Sunday, October 18, at four o'clock and continue until seven o'clock. The program will be designed so that each individual will be able to participate in any activity he or she desires. A truly "free" type of recreation will be conducted with little organization or scheduling involved. Instruction will be available when requested, according to Lynn Fraley, director.

Suit And Burglary Cases Are Heard

Two cases were heard in Circuit Court this past week, one for burglary and the other for civil suit.

James W. Hayhurst was charged with burglary of the county liquor store, was sentenced October 1 by Associate Judge Stuart F. Hamill, Jr. to the jurisdiction of the Department of Correction for four years. He was ordered delivered to the custody of the commissioner at the receiving and diagnostic center at the Maryland Penitentiary. The court recommended that he be treated for alcoholism while there.

In the civil suit, Robert Ketchum, Bayard, W. Va. sued Lewis M. Marks, Mt. Lake Park, and Joseph A. Carter, Oakland. On July 28, 1968, Ketchum was a passenger in Carter's pick-up when Mark's crossed the center line of the road and hit the Carter truck. Ketchum claimed that this resulted in great pain and injury and was due to negligence of Carter and Marks. He sued them for $50,000. At a trial on October 5 Ketchum was awarded $12,000.

The military junta of Panama took over the former U.S. arms training base in Central Panama.

More Than Conquerers

Nay, in all these things we are more than conquerers through him that loved us.

Romans 8:37

The people whom we admire the most in life, are the ones who would not let Go. They became not only conquerers, but more than conquerers. These people were outstanding in their accomplishments. We in this message are interested in the Christian life and how we can be more than conquerers in this life. Paul tells us regardless of what happens to us in life it is not able to separate us from the love of God, this love is found in Christ. What is the secret? How can we succeed in this so important an area of our life?

The first thing is to realize how big the God is that you serve. Here is the one who in the beginning created the heavens and the earth. He also created man. Genesis tells us, 'So God created man in his own image, in the image of God created he him; male and female created he them." (Genesis 1:27) If God is this big certainly he can handle any problem that we have. Paul asked the question, " . . . If God be for us, who can be against us?" What is your problem in life? If you are a child of his can he not help you with this problem? Can you not become, " . . . more than conquerers through him that loved us?'

The second thing is to realize the example that we have. We read in I Peter 2:21, "For even hereto were ye called: because Christ also suffered for us, leaving us an example, that ye should follow his steps." Looking at our saviour and guide we see one who left heaven to come to earth and live among men and to give his life on the cross so that we might have life more abundant here, and in the world to come life everlasting.

While Christ was here on earth, " . . . was in all points tempted like as we are, yet without sin.,, (Hebrews 4:15 b) Therefore, we have an example to follow and one who knows all our infirmities. With this one to follow and to pray to we can be more than conquerers through Him that loves us.

We can be more than conquerers through Christ regardless of what may happen to us in life. Nothing in time or space will be able to separate us from the love of God. It is God's love for us that is the reason for this confidence and certainty.

The Martian Example
by Dwight Harvey

Science fiction fans and authors often dub the genre s-f, not for science fiction, but rather for speculative fiction. The reason for this is obvious to anyone who has read even a small amount of s-f. It is simply that s-f authors perennially write fiction which ultimately become fact in some way.

Edgar Rice Burroughs, an American s-f author, was no exception. In his novels about the planet Mars, Burroughs created an entire world of which (as time passes), the Earth becomes more and more a frightening parallel.

One way in which Burroughs' Mars can be compared to Earth is in its overpopulation. Burroughs' Mars became overpopulated for the same reasons that are causing Earth's population to expand to dangerous levels — a highly advanced technology and increasing medical skill. These two extended the life expectancy and increased the population until a great social and ecological upheavel struck Mars and its inhabitants. One can only conjecture at how similar this catastrophe will be to one many scientists predict will descend on our own overpopulated planet in the not too far distant future.

After the upheavel Mars' population rose again, but it never reached the danger point again. Since Burroughs has been successful so far in his predictions, it might be beneficial to look at his methods for restricting population growth. First: War, civil violence, and assassination were common words on Mars. These certainly took their toll in human lives as they will increasingly do so on an overcrowded Earth.

Second: the Martian people developed a religion which called for a suicidal pilgrimage long before the end of a Martian's average life expectancy. A number of scientists also link Earthly suicides to stress due to overpopulation.

Third: the Martians used birth control. One Martian race in particular was quite successful in limiting population with selective birth control. Any expert in the overpopulation problem will agree that the only hope for the Earth is birth control.

Fifty years ago Edgar Rice Burroughs predicted what may come to the world's most significant problem during the next fifty. Unless we follow his third method for limiting population (the other two are coming along well untended), then we may at last fulfill another of his prophesies. You see, Burroughs' Mars was a dying world.

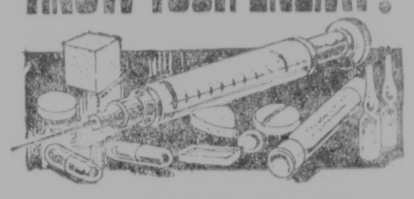
KNOW YOUR ENEMY!



DRUG ABUSE IS A SYMPTOM OF MENTAL WEAKNESS

As a rule, drug users do not live happy, successful lives. They lose interest in school, family, or job. The drug soon becomes their master. The only social contacts they usually have are other drug addicts.

Drug abusers, in the beginning, are impelled by curiosity to experiment. Their friends or drug sellers tell them to expect an increase in their mental ability. This very rarely occurs. Instead, drugs become a means of escaping from life's problems. Then, the drug becomes his greatest problem.

If a drug abuser is fortunate enough to not yet get "hooked" on the addictive drugs, he has more hope of escape from serious harm. Smoking marijuana or sniffing glue can be easily stopped if he wants to try. The odds are much greater against stopping, if he has become addicted to heroin or the barbituates.

We're coming through with variety: Five completely different car lines—76 different models. More kinds of new cars than anyone else in the business.
We're coming through with value. Every Chrysler and Plymouth is *built and engineered with extra care.* To make sure you get a dollar's worth of automobile for every dollar you spend.
We're coming through with brand-new options. Like a Stereo Cassette Tape System available with a microphone. You can record your own voice or record directly from the radio.
It's 1971. And Chrysler-Plymouth's coming through for you.

Plymouth Satellite Sebring
It's the newest idea in two-doors. From front to back it's designed exclusively to be a two-door. With no compromises. So you get the styling and handling of a specialty car—all for the price of an intermediate car.
And every one of our four-doors (Satellite, Satellite Custom, Satellite Brougham) was designed from the ground up to be a four-door. The result? People who take a back seat in our four-doors, don't take a back seat.

Chrysler New Yorker
The New Yorker lives up to its look of quiet authority. It's one of 15 different Chryslers coming through. Coming through with the size, room, comfort and power you want for all the living you do. With new options like an electric sun roof, to let in the light of the sun, or the moon.

Chrysler Imperial
Chrysler Imperial comes through for all the living you do. It contains all the luxury you want, with personal touches. Like the exclusive optional rear seat heater. This allows your rear seat passengers to maintain their own level of comfort—cool or warm.

Plymouth Sport Fury
It's coming through for you with a lot more car. Everything about Sport Fury comes through big: the seats, interior room, body, engine and brakes. Plus, we've added Torsion-Quiet Ride—with a Sound Isolation System that separates road noises from you.

Plymouth Duster
Our success car is coming through for you: Still small enough. Still big enough. Small enough to fit in about ¾ of a parking space. Big enough to seat five, comfortably. And still small enough to fit your budget. Duster. The big difference in small cars.

Plymouth Barracuda
The super-tough sporty car that comes through with torsion-bar suspension for better handling.
Coming through for you with economy in Barracuda. Coming through for you with luxury in Gran Coupe. And coming through for you with great performance in 'Cuda.

CHRYSLER

He was scheduled to inspect a machine in The Republican office that day. An autopsy to determine the cause of death was performed.

Wheat Referendum Is Re-Scheduled

Secretary of Agriculture, Clifford M. Hardin announced that a mail referendum on 1971-Crop Wheat Marketing Quotas will be conducted October 12-15, says Darrell O. Martin, Chairman of the Garrett County ACS Committee. In the absence of new legislation for the 1971 wheat crop, current law requires that the referendum be held.

Signed ballots need to be mailed or delivered to the ASCS county office by October 15. Preliminary results of the referendum will be announced.

Secretary Hardin had announced April 14, 1970 a national wheat marketing quota of 1,210 million bushels and a national allotment of 43.5 million acres.

A two-thirds or more "Yes" vote for marketing quotas would bring a Domestic Marketing Certificate, valued at $1.39 per bushel, the total price support on that portion of the crop then would be $2.54 per bushel--90 percent of parity as of July 1. Domestic Certificates would be issued subject to penalty.

If the referendum fails to carry, the Price-Support loan rate would be mandatory at 50 percent of July, 1971 parity. This would be $1.41 per bushel based on current parity. Loans only would be available to producers remaining within their 1971 allotment acreages.

Individual allotment acreage notices will be mailed to producers.

Adapted Physical Fitness Program To Be Slated

The Dennett Road Physical Education Department, under the direction of Lynn Fraley, will initiate an adapted physical education class. The program is designed to assure good physical fitness, to help correct failure of normal growth and development, and contains designed body movements to help restore normal strength to affected body parts, Mr. Fraley pointed out.

He feels there has been too little planning for the exceptional child in physical education. However, with the establishment of such a program the obsolete practice of eliminating the handicapped child from physical education class will be resolved, he said.

The program will begin October 20 with classes being conducted every Tuesday and Thursday after dismissal from school.

Events Above The Mountain Top

Paul S. Frank, Jr.

October 8 - 14

On Wednesday the moon will once again pass through the full phase. This full moon is also a special one. It is called the Hunter's Moon. This is because it rises as the sun sets and at almost the same time each night for several nights. The brilliant moonlight provides the hunter an easier time as he glides through the forests.

Moonrise this week is at 3:30 p. m. today and at 6:15 p. m. by Wednesday. The delay in moonrise is about one half hour each day during the week. Full moon occurs at 4:39 p. m. on Wednesday. On Monday at 9:00 p. m. the moon will be at its closest point to the Earth for the month. This perigee will occur at a distance of 224,700 miles from earth. The moon is an interesting object for this week's reader.

Two planets present themselves in the heavens for the observer this week. Saturn will be visible most of the night in the eastern part of Aries. It rises about an hour before midnight. Mars rises about an hour before the sun. It is in the constellation Leo, the lion.

The sun continues to leave fewer and fewer daylight hours for us as it journeys south. It rose at 7:21 a. m. this morning and will set at 6:50 p. m. As the week progresses, we lose fifteen minutes of daylight. So that on Wednesday sunrise will be at 7:27 and sunset will be at 6:41 p. m.

Today Allegany County Outdoor School studies the northern sky in the planetarium.

On Monday students from Green Street school will study about the earth's revolution.

Next Wednesday, Mrs. Robeson's class from Route 40 school will study the earth's rotation.

16 Are Killed On State Highways

"Speed was the driver error highlighted by the sixteen fatal accidents which killed seventeen persons in Maryland during the week ending October 4, 1970," Lt. Col. W. H. Weber, Deputy Superintendent of the Maryland State Police reported today.

"While eight of the seventeen deaths resulted from speed, our attention is called to a hazardous practice of the youth in the inner city. One of the fatalities resulted when a ten year old girl fell from the rear of a bus on which she was hitching a ride," said Lt. Col. Weber.

One Criminal Case Listed

One criminal case was listed on the records in the office of Trial Magistrate Robert M. Maroney, Oakland, for the week ending October 6.

Marion F. Hinebaugh, Oakland, was charged by Benjamin Field with disturbing the peace at her home on old 219, near Oakland, on September 29.

At a trial on September 30 she was committed to Springfield State Hospital for treatment and evaluation.

Band Gets Superior Rating

The Southern Varsity band, sporting new uniforms, received a superior rating when they performed at the Forest Festival at Elkins, W. Va. last weekend.

The band members and the Band Boosters Association have been working for a year to raise funds to purchase them. The junior high band as well as the varsity band will appear in the parade in Oakland on Saturday at the Autumn Glory parade.

Students Sell Magazines

The annual magazine campaign got underway this week as students fanned out over the community to canvass the public for new subscriptions and renewals.

With this program everyone in the community gains. The school with their profits can use the money to purchase items for the school that are not ordinarily found in the budget. In the past some money has gone to purchase an organ, pay on bleachers, and to help the junior class raise funds for the senior prom.

Individual students get prizes for their sales. Any class selling $1,000 in subscriptions will win $100 for their class.

The community wins by keeping the profits on subscriptions in the community.

Rams Play Terra Alta

The Southern Rams will meet the Terra Alta Hilltoppers in the Annual Turkey Bowl tonight on Southern's field. Southern is undefeated in Bowl competition.

Although this is Terra Alta's home game, it was scheduled for Oakland. This results in Terra Alta's taking care of ticket sales. Southern's season tickets will not be good for this game.

The prices will be 75 cents for students and $1.25 for adults. The Southern fans will sit on the bleachers that are normally reserved for them, the ones next to the broadcasting tower.

Trembly-Marts Wedding Is Held

Mrs. Mary Louise Trembly, daughter of Mrs. Della M. Cassidy, Oakland became the bride of John William Marts III, son of Mrs. Aileen Vasser, Cathlemet, Washington, on Saturday, September 12.

The double ring ceremony was performed by Dr. Orriss Robinson, in the home of Mr. and Mrs. Allen Bender, Rockville.

The bride wore a pale blue wool dress with blue and white accessories and her corsage was of blue corn flowers trimmed in pale blue. She wore a bracelet of moonstones set in white gold, a gift from the groom.

Married at Blooming Rose Church

The Blooming Rose Methodist Church, Friendsville, was the scene of the summer wedding of Sandra Jean Friend and Larry William Wakefield on August 15. The Reverends Vernon Witt and Stanley Darrah performed the impressive ceremony.

The bride is the daughter of Mr. and Mrs. Wade M. Friend of Friendsville. The groom's parents are Mr. and Mrs. Carl J. Wakefield, also of Friendsville.

The bride's father escorted her to the altar, which was decorated for the occasion with candelabra and vases of summer flowers. The bride appeared in a floor length gown of French silk lace fashioned with a high collar, long sleeves with lace at the wrist and empire waist ending in a cathedral train. She wore a veil of imported illusion attached to a silk rose trimmed in pearls. Her bouquet was a cascade arrangement of yellow-throated daisies and white carnations and summer flowers with long white satin streamers. She carried out tradition by wearing something old, something new, something borrowed, something blue, and a sixpence in her shoe.

The Maid of Honor, Frances Friend, Friendsville, cousin of the bride, wore a floor length gown of yellow dotted swiss with empire waist, portrait neckline and Juliet sleeves. She carried a nosegay arrangement of daisies, carnations and summer flowers, with long yellow streamers.

Cheryl Lawson, cousin of the bride and daughter of Mr. and Mrs. Blaine Lawson of Monongahela Pennsylvania, was flower girl. She was dressed in a blue floor length dotted swiss gown with high collar, empire waist and short sleeves. She carried a white flower basket filled with rose petals which she dropped before the bride.

Bradley Burd, son of Mr. and Mrs. Samuel Burd of Mentor, Ohio, and cousin of the bride, served as ringbearer in the double ring ceremony.

Kenny Sisler, son of Mr. and Mrs. Ray Sisler of Friendsville, was Best Man. Ushers were Kerry Lawson, California, Pennsylvania, cousin of the bride and Sam Wakefield, uncle of the groom.

The bride's mother wore a blue silk knit, A-line dress with white accessories. The groom's mother wore a blue linen summer dress with white accessories. Both mothers had white carnation corsages.

A reception was held immediately following the ceremony at the Social Room of the church. The room was decorated in a yellow and white color scheme. Mrs. Chester Lawson, Bruceton, West Virginia, grandmother of the bride, arranged daisies and summer flowers in baskets as part of the decorations. Mrs. Blaine Lawson, Monongahela, Pennsylvania, aunt of the bride, served cake. She was assisted by Mrs. Roy Sisler, Friendsville Mrs. Jack Smith, Confluence, Pennsylvania, aunt of the bride, served punch and coffee. Virginia Wakefield, sister of the groom, Friendsville, played the piano. Frances Friend registered gifts and the guest book.

For her honeymoon trip to Niagara Falls, Canada, the new Mrs. Wakefield chose to wear a yellow summer dress complemented with white accessories, and a corsage lifted from her bouquet.

Mr. and Mrs. Larry Wakefield are both employed by the Cubex Corporation in Donora, Pennsylvania. They are residing at 504 McCrea Avenue in Donora.

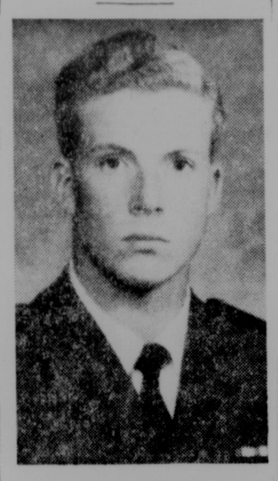
Discuss Contract For Furloughed Workers

At a meeting of the County Commissioners on September 28 Parley Savage and Fred VanSickle met with the board and W. Dwight Stover, attorney, in regard to a contract for the furloughed road workers.

A discussion was held as to the advisibility of preparing one. Mr. Stover suggested that the Board make an attempt to determine how many striking ex-road workers would be willing to return to work without union recognition, and if enough were found willing then they, along with a sufficient number of newly hired workers could begin work with an agreement that a vote on union affiliation would be taken within a specified time. The plan proposed by Judge Stuart F. Hamill and the Grand Jury also was discussed. No direct action was taken.

The minutes showed receipts of $57,254.12 from the State for gasoline tax money. They also showed receipts of $20,000 as revenue from liquor dispensaries.

Enters Junior Year



Cadet Anderson B. Cosby, son of Mr. and Mrs. A. B. Cosby III, 1220 E. Oak St., Oakland, is among the 821 cadets who have entered their junior year at the U. S. Air Force Academy.

Cadet Cosby will be serving the fall term as an element sergeant with the rank of cadet technical sergeant. He was selected for the position because of his demonstrated leadership abilities and effectiveness ratings.

During the past summer, Cadet Cosby served as a survival training instructor for basic cadets in the rugged Rampart Range area surrounding the academy. He was selected for his duty because of his knowledge of survival techniques. The course, designed to teach aircraft crew members how to survive in the wilderness, included first aid, emergency communications and escape and evasion techniques.

He completed three weeks of special duty at Bentwaters RAF Station, England, in Operation "Third Lieutenant," a program which provides cadets an opportunity to perform as junior officers.

Cadet Cosby will be commissioned a second lieutenant and awarded a B. S. degree upon graduation from the academy.

don't knock it

Maybe you don't like rock and roll, but there's vibrancy to its beat that lets kids express themselves. Even if it isn't your kind of music it's their kind of music. Perhaps the "generation gap" may be narrowed slightly if you'll listen.

Life, remember, is a process of give and take. Adults and teenagers have to give a little if they are going to reach mutual understanding. If, in the beginning, you've given the basic things—like faith, love and respect, then you've nothing to worry about.

But it's never too late. For instance — have you gone with your teenager to church lately?

THE BIBLE SPEAKS

International Uniform Sunday School Lessons

BY LAWRENCE W. ALTHOUSE

THE RECONCILERS

Lesson for October 11, 1970

Background Scripture: Matthew 5:1-9; Luke 19:1-10; Romans 8:1-9; 2 Corinthians 5:17-21
Devotional Reading: Romans 8:1-9.

"So we are ambassadors for Christ . . . " says Paul to the church at Corinth. The "we" is a reference to Paul and his fellow apostles. Yet it is also evident that this same role is intended for the Christian at Corinth and, in fact, all who seek to be disciples of Jesus Christ. If this is so, what does Paul mean when he calls us "ambassadors for Christ"?

Rev. Althouse

Always a stranger

The role of an ambassador has not much changed down through the centuries so that if we examine what it means to be an ambassador in today's world we get a pretty good idea what Paul meant when he used this analogy.

For one thing, as William Barclay has suggested, a British ambassador is always "a Briton in a foreign land." He spends his career among people who are somewhat different from himself, often speaking a different language and practicing different traditions. For all the friendliness he may encounter in his post, the ambassador is always a stranger in a foreign land.

This, of course, is also true of the Christian. He too is a stranger in a foreign land. He lives in the world, works there, plays there, and yet it is not really his home. To be a Christian is to be an alien, an outsider, just as Jesus was in the days of the flesh.

Secondly, we must realize that an ambassador is one who is delegated to speak for his own country. He is truly the representitive of his own government. He speaks for it and acts as its agent. His voice becomes the voice of his country. The policies he represents may not be his own, but those of his country.

To speak for another

Again, we can see that this is true of the Christian too. He also is one who speaks for another: he speaks for Christ. It is the means by which the voice of Christ is heard in an alien land.

Thirdly, not only does the ambassador bear the message of his own country to another land, but he also becomes the bearer of the honor and reputation of his country. Let the ambassador make a mistake or breach of courtesy and others will judge his country by his actions and his example.

Once again this is certainly true of the Christian. How many times have we heard someone point to a professed Christian and say, "If that's what being a Christian is like, count me out"? What you and I do, how we live, the example we bear, all these things reflect upon Christ whether or not that is our intention. He is judged on the basis of our performance.

There is also another aspect of our ambassadorship; he is a man of peace, not of war. Although an ambassador may become involved in a declaration of war, this happens only when his mission has failed. He is not a soldier, but a man who strives to bring together his country and another in the best possible relationship.

To bring recognition

To be an ambassador for Christ, then, means that, as we have been reconciled to God through Christ, so we are to be involved in the task of bringing men and God together.

But are we? Are you? Is the effect of your personality that of bringing people together or of dividing them? What do you do best: reconcile or alienate?

SOME DOCTORS & DENTISTS ARE USING HYPNOSIS

Once hypnosis was only an entertainment medium. But today it is being used medically more and more in the treatment of many conditions. There are actually physicians who are just specializing in the use of hypnosis. It has proven effective in such situations as stopping thumb-sucking, nail-biting, and excessive drinking. And, recently it was proved to be a valuable aid in treating musculo-skeletal disorders such as bursitis.

Hypnosis for medical conditions should always be in the hands of trained experts. The amateur hypnotist could potentially cause harm, for there is still a great deal to learn about how it actually works and its possible side effects. Do not expose yourself to hypnosis unless your physician advises it.

So. Rams Top Parsons 27 To 8

Pete Cosby scored two touchdowns and Rick Shaffer was the big ground gainer as Southern High Rams rolled to a 27 to 8 decision over Parsons last Friday night at Southern in Oakland.

Cosby tallied in the second quarter on a four-yard run and in the final period on a one-yard run as the Rams registered their second triumph of the season to even their record at 2-2-1. Southern rolled up 234 yards to 173 for the West Virginians.

Rick Shaffer drew first blood for Southern in the opening period on a two-yard run and Terry King's six-yard run made the score 18 to 0 before Parsons broke the ice on a 27-yard run by Kelly Day.

A pass from quarterback Butch Long to Mike Maury added the conversion but Parsons was blanked the rest of the way. Cosby's second six-pointer came in the final chapter and the conversion by kick was successful to complete the scoring.

Rich Rinker, Southern's punter got off three good kicks good for a 47.6 yard average. Don DeWitt and Bill Skipper made a couple of key plays for the victors.

Southern Rams had 11 first downs to 9 for Parsons. Parsons tried 13 passes and completed 3 and had two intercepted. The Rams tried three passes but connected on none. The Rams had seven fumbles and lost three of them.

Southern's next game is this evening, October 8, against Terra Alta, in the Turkey Bowl game on Southern's gridiron. Game time is 8 o'clock.

Amendment To Authorize Office Of Lt. Governor

On November 3, Marylanders will vote on several constitutional amendments.

The first constitutional amendment is to create the office of Lieutenant Governor. Maryland, unlike 40 of her sister states, does not provide constitutionally for any legally authorized person to act for the Governor in emergencies when a Governor is ill or out of state. It is this loophole which constitutional amendment #1 is designed to plug.

The amendment also designates the Lieutenant Governor in case of resignation, inability as the successor to the Governor to carry on the duties of the office because of health, or death.

Both major Gubernatorial candidates, Governor Marvin Mandel and C. Stanley Blair, have gone on record as strongly recommending that voters cast their votes for Constitutional Amendment #1, on November 3.

Northern Huskies Lose To Meyersd'l

Greg Newman, who scored Meyersdale's first touchdown in the second period on a three-yard run, fired a touchdown bomb covering 65 yards to Gary Robinette with five minutes remaining in the game to give the Pennsylvania outfit a 12 to 6 victory over the Northern High school Huskies last Friday night at Northern.

The Huskies, who knotted the score in the third quarter on quarterback Steve Myer's two-yard plunge, were denied the tieing td and a possible triumph in the final minute when they were assessed a 15-yard penalty after driving to the Meyersdale 15 yard line.

Myers, who guided the Northern fortunes all evening as quarterback, completed only two of 12 aerials for 22 yards. Newman had four completions of 13 tosses for 98 yards for Meyersdale.

Northern picked up 236 yards along the ground to only 124 for Meyersdale. The Huskies, now 2-3 on the campaign, will play at Kingwood on Friday night. Meyersdale had 14 first downs to 13 for the Huskies. Meyersdale had 2 fumbles to 5 for Northern, the Huskies losing 3 of them.

Report on campus unrest said Nixon must exercise leadership.

VOLUME 94. OAKLAND, GARRETT COUNTY, MD., OCTOBER 15, PER COPY 10c NUMBER 33

Action Desired . . . .

Some definite action is needed to resolve the county roads hassle, and that is putting it mildly. We suggested last month and early in October that there be a little "give" on the part of the roads workers who demand union recognition. There has been none.

Two of the present commissioners have felt that recognizing the union would take away their prerogative as elected officials in managing their own affairs. They have been stubborn in what they believe is their right. If the road workers don't give a little they will be charged as being just as bullheaded, contrary and unreasonable as they have consistently charged the two commissioners. Really more so, since there are so many more of them. After all it is the road workers' county as well as some 21,000 others who agree there must be a settlement.

May we suggest again that the road workers go back to work at the increased wage scale offered by the commissioners and after the new commissioners are elected and installed, to renew negotiations with them. If the former employes aren't fearful about the outcome of a secret ballot of ALL workers, an agreement could be reached within 60 or 90 days.

The workers can be civic minded, as we agree they were last winter, and return to work, or they can be extremely selfish to the point of "do it my way or else," and still refuse to do anything.

A real catastrophe is in the making if no agreement is reached.

BRINGING UP THE REAR—These five little tackers brought up the rear of one of the musical groups which participated in the Autumn Glory Festival parade last Saturday afternoon. They were part of the outfit of either the Shawettes, Golden Majorettes or Crimson Cadets.

Truck Drivers Discover Body Murdered Man

Found Near Keyser Ridge, Along U. S. 40; Was Baltimorean

The body of a man who apparently had been murdered, was found Tuesday morning by two truck drivers in some high grass just off U.S. route 40, west of Keyser Ridge and near the Pennsylvania line. He was not known locally.

He was not identified until late Tuesday night by state police at LaVale. Police said he died of numerous stab wounds of the chest and abdomen. His throat had been slashed and he had a broken jaw.

The body was found two tenths of a mile west of the intersection of route 219. The body was taken to the Sacred Heart hospital where an autopsy was performed. It was determined that the man died sometime between 11:30 p.m. Monday and 2 a.m. Tuesday.

The man was identified Wednesday morning as Merle Edward Aul, of 2113 Forest Park avenue, Baltimore. He was 46.

He was a white man, of Italian descent. There was no evidence of any identification on the body except for his clothing, a white handkerchief and a small black comb. Fingerprints of the murdered man were sent to the Federal Bureau of Investigation.

The case was investigated by Sergeant M. G. Hart and Tfc. L. E. Dunton, criminal investigators for the state police, and Tfc. D. A. Tucker.

The body was taken to the Newman Funeral home at Grantsville.

His wife said her husband was headed for Clearfield, Pa., where he was planning to place his elderly father, Curtis Aul, in a rest home. She told the police her husband carried $200 in cash which he planned to use in getting his father into the home.

He was employed as a maintenance man by a Baltimore city firm. His auto wasn't found.

Police believed Mr. Aul may have picked up a hitch-hiker who killed him.

40,000 Again On Hand For 3rd Festival Parade

Four Day Events Conclude Sunday With Antique Car Show

The third annual Autumn Glory Festival concluded here Sunday afternoon with an antique car show in the Browning Foodland lot, a square dance festival and a horse pulling contest, climaxing another one of the great weekend events in history. A crowd estimated to equal the forty thousand persons attending last year's parade, and possibly to surpass it, witnessed the gigantic parade Saturday afternoon which got under way shortly after 2:30 o'clock and did not end until after 4:30. Some ninety units participated. The rain held off until the final unit had passed the reviewing stand on Third street.

The celebration began Wednesday with a kick-off dinner at the Wisp ski area facilities, with Junior Samples as speaker, an autumn glory bowl football game Thursday evening followed by fireworks. Southern Rams retired the trophy with a 46 to 0 victory over Terra Alta Hilltoppers.

Friday afternoon Linda Shuttleworth, Southern High senior, was crowned Autumn Glory Queen by last year's queen, Pam Klotz, Northern High student, now working with the CIA in Washington, after which the queen and her court and some 2,000 persons saw a pageant depicting some of the history of the county.

Friday evening also a banjo contest was held at Northern High school, Accident, plus the Roy Drusky Grand Ole Opry Show. A teen rock show and dance also was held at Southern High.

The Maryland state fiddlers' championships were conducted Saturday evening, for the third annual event, at Southern High school, with The Grandpa Jones show following the fiddlers. Also featured were Gene and Joe and the Country Kings. The gymnasium was packed.

Third Straight Title

Jimmy Currence, Cassity, W. Va., won the state title for the third consecutive year and was retired after being named the grand champion. Along with a special trophy for his three titles Mr. Currence also was awarded the $150 first prize for winning.

Jimmy Walker, Parsons, won $100 and second place while Lawrence Fluharty, Colliers, W. Va., won $50 and third place.

Many people had to be turned away from the Grandpa Jones show which followed.

Winding up the four-day activities were the antique car show, the square dance festival

He will be in Garrett and Allegany counties on Saturday, October 17; Thursday, October 29, and on election day, Tuesday, November 3.

Question On Ballot?

County Commissioners conferred with attorneys this week concerning the possibility of getting a question on the November ballot that would give citizens an opportunity to state their preference on their feelings about union recognition of former county road workers.

Some attorneys were of the opinion it would be possible if the Board of Election Supervisors agreed.

No official decision was reached.

Weather Continues Summer-like Here

Summer-like weather continued to dominate on the Mt. Top during the past week. There was much sunshine with a brief rain spell over the week end and again since last evening.

The latter part of the week was mixed, sunny and rain. A thunder shower occurred Saturday morning. Rain began just as the parade ended and continued through Sunday.

The first part of the week was mostly fair until yesterday afternoon when rain began to fall and continued off and on.

Urges Close Look At Amendment Three

Voters were urged this week by George R. Hughes, Jr., Republican candidate for Congress, to examine closely the proposed constitutional amendment No. 3, which will appear on the November 3rd. ballot.

Hughes declared it would take away from the people the right to elect their circuit court judges, a right which up to now has been guaranteed by our Maryland Constitution."

He continued "The Maryland legislature has been sold a bill of goods by the would-be kingmakers who don't think the people elect their own judges by ballot."

The proposed amendment apparently is to take the judiciary out of politics, but Mr. Hughes said 'all it does is remove the election of judges from the people and place it in the hands of a privileged few."

This new car is the best reason not to buy a Volkswagen Beetle.
In a year when every car maker seems to be giving you one reason or another not to buy a Volkswagen Beetle, it might be a good idea to listen to the best reason:
Volkswagen's Super Beetle.
It has almost twice the luggage space as the Beetle of yesteryear.
It has a longer-lasting, more powerful engine.
It has a new suspension system for a smoother ride.
It has a flow-through ventilation system to bring in fresh air when the windows are closed.
The interior is, to be honest, much nicer.
The floor, for example, is fully carpeted.
In all, it has 89 things you could never find on a Beetle.
So of all the claims you'll hear this year by car makers that their cars are "better than a Beetle," there's only one car maker with 25 years experience in small cars to back it up.

Points To Ponder In The Upcoming GENERAL ELECTION

Garrett County may not be as well-to-do as some of the other counties in the State of Maryland, but we are fortunate not to have many of their problems. Overcrowding, civil disorders, high taxation, pollution, sewage disposal, uncontrolled industrial expansion, extensive drug abuse, and soaring crime rates are just a few of the problems our wealthy neighbors down east are now attempting to solve.

I believe the reason we don't have many of these problems is because we've had many responsible Republican administrations who would not sell us down the river for the sake of instant progress and expansion.

We have our growing pains and our problems to be sure, and there are some people who will point out that a change in the administration is a sure, quick cure-all for our county's ills, both real and imagined. But the best way to solve our problems is through careful and responsible planning and controlled, steady growth. And that's the type of leadership Republican administrations have always shown.

With the future of all Garrett Countians in mind, I invite you to join me on November 3 in voting the straight Republican ticket. "The ticket of planned government and controlled progress."

Sincerely,

Homer L. Bennett,

Chairman, Republican State Central Committee

Wed In Elkins Church

Miss Marilyn Kay Martin, daughter of Mr. and Mrs. Iret Martin, Oakland, became the bride of Stephen Donald Lockhart, son of the Rev. and Mrs. Donald Lockhart, Elkins, W. Va., on Saturday, August 15 at 7 p.m.

The double ring ceremony was performed in the Otterbein United Methodist church in Elkins with the Rev. Donald Lockhart, father of the groom, officiating. The altar was decorated with white gladiolas, daisies, and carnations. On either end of the altar and the extreme sides of the sanctuary were candelabra adorned with leather leaf fern.

Tommy Huffman, church organist, provided traditional music. Mrs. Walter Whitehair of Eglon, W. Va., sang "O Perfect Love" and Rev. Lockhart sang "The Lord's Prayer".

Given in marriage by her father, the bride wore a floor length empire gown of peau de soie, designed by the bride. The princess style gown with long sleeves fitted at the wrists was accented by matching peau de soie bows at the high waist. Alencon lace, and chapel train. She wore a fingertip bridal illusion veil with peau de soie rose petal headpiece and carried a cascade of miniature white carnations with stephanotis and baby's breath.

Mrs. Shirley Foglepole of Oakland served as matron of honor. Miss Carol McKimmy and Miss Chris Marshall, both of Frederick, were bridesmaids. Miss Sharon Lockhart, sister of the groom, was junior bridesmaid. Each attendant was attired in floor length gown of butterfly blue crepe and short veils sprinkled with tiny white pearls. Each carried a cascade of blue and white daisies, carnations, chrysanthemums and baby's breath.

Phillip Barton, Elkins, was best man. The Ushers included Harry Reustle III, Ocean City, New Jersey; Danny Lockhart, brother of the groom, and Russel Moore, Point Pleasant, W. Va.

The bride's mother wore a pink crepe dress with silver braid at the neck and sleeves, with white accessories. She wore a corsage of white miniature carnations and white roses with a pink bow.

The groom's mother chose a pink linen dress with white trim and white accessories. She wore a corsage identical to that of the bride's mother.

Following the ceremony a reception was held in the Church fellowship hall. The reception table was centered with a cluster of blue daisies, white chrysanthemums and carnations with leather leaf fern. A round table with a white satin cloth held the four tier blue and white cake which was topped with the traditional bride and groom. The cake was also surrounded with greenery. White wedding bells and white satin bows attached to blue and white streamers emphasized the wedding theme. Mrs. Yearl Arnold, aunt of the bride, served the wedding cake. Mrs. Glen Barton and Mrs. Robert Dodge served punch and coffee.

For travel the bride selected a blue crepe dress with white daisies at the neck. She also chose white accessories and a corsage of miniature carnations with baby's breath lifted from her bouquet. The couple spent a honeymoon at Cape Cod.

The bride is a 1967 graduate of Southern High School. She completed LPN training at Springfield State Hospital, Sykesville, and in May, 1970, completed R.N. training in Frederick. She is employed by the W. V. U. Medical Center, Morgantown, as a psychiatric nurse.

Mr. Lockhart is a 1966 graduate of Pt. Pleasant High School and a 1970 graduate of Davis and Elkins, college. He was president of Phi Beta Lamba, secretary of Alpha Omega and a member of Beta Alpha Beta. He was also recipient of the "Most Outstanding Business Student" award and a member of 1970 "Who's Who" among college students. Mr. Lockhart is attending W. V. U. to earn his master's degree in business administration.

The bride was honored by a kitchen shower given by Mrs. Shirley Foglepole and Mrs. Robert Dodge in Oakland. Also, a miscellaneous shower was given in Elkins by Mrs. Glen Barton and Mrs. Trudy Rexrode.

The couple is residing in Morgantown, W. Va.

Principles and Objectives
OF
The American Party
Of The State Of Maryland

I. Principles

We, the members of the American Party of Maryland, do hereby affirm our faith in God, in the Declaration of Independence and in the Constitution of the United States of America; with the divisions and limitations of powers between the People, State, and Federal Governments as conceived and intended by our Founding Fathers.

We believe the Federal Government has only such authority as was delegated to it by the People through their Constitution under which Legislative, Executive and Judicial powers are clearly divided and defined, and certainly a Constitution under which the Rights of the Individual and the Sovereignty of the States are inviolate.

We consider the American Party of Maryland to be an Independent State Party.

We believe that government at all levels exists solely for the benefit and protection of those it governs and is entitled to only that amount of revenue and degree of authority which is necessary to accomplish these objectives. We believe that people are governed most wisely and economically by that level of government closest to them and we are opposed to the usurpation or the unwarranted surrender of authority (including taxation powers) by the people or any level of government, either to a higher level of government or to any international organization.

We believe that in public as well as in private affairs we must choose self-reliance, economy, private enterprise and ownership, and liberty as opposed to dependency, waste, socialism or totalitarianism, and servitude. We believe the government must maintain a balanced budget thru fiscal responsibility, minimizing the size of government, eliminating governmental competition with private industry, and strictly and publicly accounting for all expenditures of public funds.

For more information and a free copy of The American Party Platform, write: American Party, P. O. Box 149, McHenry, Md. 21541.

II. Objectives

The American Party of the State of Maryland shall address itself to the following objectives:

1. Strengthening the individual's responsibilities to God, Family, Country, State and Self.
2. The restoration and preservation of the effectiveness of the Constitutional Republic of The United States of America.
3. The restoration and preservation of the Sovereignty of the States as defined by the Constitution of the United States of America.
4. The restoration and preservation of the Sovereignty of Individual Citizens of the States in exercising their rights and civic privileges within their state and local governments.
5. Strengthening the individual's sense of loyalty to the concept of liberty with responsibility within the Constitution of the United States of America.
6. Instilling in all citizens our recognition that rights; civil, legal, or property, cannot be transferred among people nor transgressed by government.
7. The restoration of and the rebuilding of the peoples' confidence in the free enterprise system which is the basic economic system within which our people obtained the highest standard of living in history.
8. Strengthening the individual's sense of devotion and decency among all men.
9. Reducing and equalizing the burden of taxation.
10. The restoration of law and order and establishment of safety to the people in their daily lives.
11. More complete and objective reporting of current events.
12. Exposure and removal from positions of public authority of all members and fellow travelers of organizations opposed to our constitutional form of government.

Your influence counts. Use it for God and Country.

Bids Scheduled For New Freeway Job In County

John D. Bushby, District 6 State Roads Commission engineer, gave a status report on the National Freeway construction.

On December 1 the SRC will advertise for bids on a 2.5-mile stretch from the Allegany-Garrett County line to a point just west of Finzel Road. This will include an interchange for the Finzel Road.

This project will include drainage and grading of the dual highway section.

In January of 1971 a half mile section will be advertised for bids in the Bear Creek area of the county. Mr. Bushby said the plans are for advertising for bids on a 3.92-mile section of the National Freeway from West Virginia state line eastward.

Also next spring other sections will probably be advertised for bids, Mr. Bushby said.

Meanwhile, contractors on the section between Vocke Road and Clarysville and from that point to State Route 36 in Allegany County will continue work on these projects as long as weather permits.

Work on a bridge over State Route 36 which will carry Freeway traffic has been started.

The National Freeway project will proceed as fast as possible, Mr. Bushby said, and the allocation of Appalachia funds will decide the rate of progress.

The SRC will also take bids October 15 on an access road in Garrett County into the Bausch and Lomb Company plant which has been under construction since last June.

Civil, Criminal Cases Are Heard

Two civil suits and criminal cases of two others were heard in Circuit Court by Associate Judge Stuart F. Hamill, Jr. last week.

Erhard Klinger, Bethesda, was traveling west on Fairview Rd., near New Germany on November 23, 1967. At the same time Melvin E. Wiley, Grantsville, crossed the center line of the road and collided with the Klinger car. Wiley was charged with operating in a careless and negligent manner which he denied. Klinger claimed he sustained severe and permanent injuries as a result of the accident. Klinger brought suit in the amount of $55,000 against Wiley. At a jury trial on October 7 a verdict of negligence was granted and a sum of $4,633.21 was awarded to Klinger.

In another civil suit the case was withdrawn from the jury and marked "dismissed" at a trial on October 8. James E. Phillips, Baltimore, was driving a car north on 3rd. St., Oakland, when a truck driven by Leonard A. Carr, Oakland, pulled from a parking lot and collided with the Phillips car. James and Eleanor Phillips claimed Carr failed to stop in time to avoid a collision, which they claimed caused them to suffer permanent and serious injuries and filed suit for $25,000.

In criminal cases against two persons which involve the same incident, William Durst, Frostburg and Herman Wilhelm, Grantsville, were charged with trespassing on the property of George K. Brennan on July 22. At a trial on October 7 the two men were found guilty and each was ordered by the court to pay $72 in fine and costs.

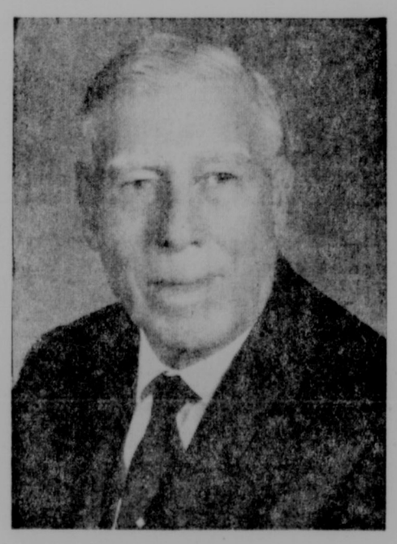
Re-Elect

B. O. Aiken

TO THE

Maryland House of Delegates



He has done many things for the good of our County and the State. Some of his outstanding accomplishments are as follows:

He helped with the establishment of a Community College for Garrett County. This college will not only be a great help to our future students, it has already helped in securing a new industry for Garrett County. It is well known that the officers of Bausch and Lomb accepted our area because, among other things, we were in the process of building a community college.

He has helped the farmers of Garrett County by establishing a plan to discontinue the tax assessment of livestock and farm machinery. This was done as the result of strong urging and support of the Garrett County Farm Bureau.

He supported legislation for improved salaries and retirement benefits for state employees and teachers.

He strongly supported legislation which is giving older citizens some relief from high assessments on their homes.

He sponsored legislation regulating the granting of permits for septic tanks and sewerage systems.

He worked for and finally succeeded in getting the approval for an adequate seweraga system at the Deep Creek Lake State Park.

He worked with other Legislators in an effort to maintain representation in the Maryland Legislature from all small counties. This matter will come up again in 1972. At that time, it will be very important to have an experienced legislator on hand to continue to work for the preservation of representation from Garrett County in the Maryland Legislature.

On February 17th, 1969 an article appeared in the Baltimore Sun describing Mr. Aiken as an outstanding legislator. Some of the things appearing in this article are as follows:

"B. O. Aiken loves Garrett County with a passion." "His peers speak of him in terms like 'solid,' 'conscientious,' 'deliberative,' 'dedicated,' 'honest'."

He is highly respected by his fellow legislators and by those who serve in other branches of our state government.

ENOCH PRATT BALTIMORE FREE LIBRARY

The Tam O' Shanters, an all girl kiltie corps from Somerset, Pa., won a first prize of $300 in the miscellaneous musical group last Saturday. This was the second year for their appearance at the Autumn Glory festival parade. It gave a half hour concert in front of the reviewing stand prior to the parade.

Gay Autumn

The Currier and Ives lithograph of middle age depicts a man and lady with their growing children in an autumnal setting of many browns and related colorings of fall. It is not a dull picture in intensity, but it does bring out an underlying sadness which often clings to our present season. While autumn is the time when we can pause for a short time after hard trials of work and murmur, "Well done," it is also the period for adapting ourselves to the realization that the mountain winter will not desist from buffeting us. So must we be doers and brave her tempests while not forgetting that there will always be spring.

Yet Pasternak's simile, in "Doctor Zhivago", terms the autumn "refulgent as an oriflamme," which more simply stated means that it is as shining and radiant as a mighty banner. So autumn does mean saying good-bye to the greens of our trees except that of the steadfast evergreens, and although we know that somber browns of November will be upon us in a short while, we can in the meantime see Autumn assuming the gaiety and flamboyance of a harlot, flashing her red skirts in a copse of sumac or inflaming the sugar maple in yellows or oranges. Working men quite unconsciously add to autumn artistry, combining orange pumpkins with dry brown corn shocks in a delightful combination which tempts us only in fields not harvested with modern pickers or combines, but the raw energy of brawn in the sun and wind.

According to the Greek and Roman myths, Autumn sheds her radiant beauty and then takes it away from Earth because of the goddess Persephone (Proserpine). Pluto, god of the underworld, took her for his wife and fled to Hades, leaving Demeter, her mother, to wander the earth fruitlessly until helped by the nymph Arethusa, who had seen Proserpine in the world of the dead. Her release was arranged because of her mother's excessive grief, but since she had eaten a pomegranate while in Hades, the Fates would allow her only half of the year with Demeter upon Earth. Each autumn, as Persephone returns to Pluto, she takes also the happiness of growing plants and nature's color.

But while the triumph of other chlorophylls is still evident in our land, we can rejoice that across our plateau ranges an unparalled variety in shade. Glimpsing the top of the world from Backbone or Negro Mountain causes us to merely use sight without marring the whole scene by the concommitant of talking. Some of this inner appreciation will spring to mind with Conrad Richter's description of new country in The Trees: "The gums along the river flew their colored rags. Sassafras mittens hung a kind of red-yellow and the dogwoods flushed up like the wattles of wild turkey gobblers."

Autumn alludes description in words for those whose senses are a combination of physical and mystical feeling. Who can really know, unless his feelings are identical in the beginning, the exhilaration given by the faint blue thinness and chill in the morning when you step out on the back porch to view the land? Sweater weather, in the phrase of one who holds the autumn dear whom John Keats agrees, as his magnificently accurate question is answered in "To Autumn": "Where are the songs of Spring?" Ay, where are they? Think not of them, thou hast thy music, too."

Many Teachers Leave Schools Last Year

Almost 7,500 schoolteachers and principals left Maryland school systems last year, a new study by the State Department of Education reveals.

But local school systems hired almost 10,000 new teachers during the same period.

The study covers the 1968-69 school year and the summer of 1969, and shows that 17.4 percent of teachers and principals left Maryland jobs.

Most who left just moved away (2,137), but 1,192 left to have babies, 58 died, 493 retired, and 375 were dropped from the rolls. Also, 133 left because they were dissatisfied with teaching. Other reasons for leaving included illness, resuming studies, getting married, military service, and entering work other than teaching.

Over half the teachers hired during the period (5,834) were inexperienced and most of those (3,625) were Maryland residents. Pennsylvania, New York, Virginia, and the District of Columbia were the out-of-state areas from which most new teachers came.

GARRETT COUNTY CITIZENS: Our County is unique but the problems which have plagued our metropolitan areas are beginning to reach us. Let us do what we can, while we can, and all we can to deter the spread of crime and violence. If elected, I will work for the following:

1. Your right to keep and bear arms (I agree that if guns are outlawed, only outlaws will have guns.)

2. Stiffer drug laws (especially for the pushers), a minimum of 20 years, for any illegal traffic in drugs without the benefit of parole.

3. We must have quicker and stiffer punishment for criminals. Repeat violators should lose their right of parole. (The law should protect the innocent, not the guilty.)

Flat As A Flounder

America's newest appliance idea from Whirlpool Corporation — just in time to fight pollution on the home front. Takes little space and so easy to use. Everytime you toss cans, bones, bottles or paper trash into the drawer just close it push a button and the trash is compacted to ¼ its size. It takes the equivalent of three 20-gallon cans of trash to fill it. (That's as much junk as the average family tosses away each week.) A key lock keeps kids from tinkering with it. A chemical deodorizer sprays each load of trash or garbage when you close the drawer to help control odors. The bag can be taped so litter won't blow. No lid for dogs to pry off. Let it rain or snow — plastic-lined bag is weatherproof.

Teach them the world God made.

But teach them, too, the God who made the world . . . the majesty of His Power . . . the purity of His Holiness . . . the tenderness of His Love.

Teach them the Christ through Whom our Creator revealed His heart to mankind.

WHY THE BIBLE?

Lesson for October 18, 1970

Background Scripture: Nehemiah 8:1-8; Psalms 119:9-16; Acts 17:10-12; 1 Corinthians 12:31 through 14:1; 2 Timothy 1 through 2.
Devotional Reading: Psalms 119:33-48.

Nearly every home has at least one Bible. There is hardly a motel or hotel room without one. Every library has a collection of Bibles in various editions and translations. You will find Bibles in most courts of law and magistrates' offices. They will be found on the bookshelves of doctors and lawyers and they are frequently the resource for journalists and authors.

Rev. Althouse

What is the Bible?

Yet, though the Bible is so universal, there is often great disagreement when Christians attempt to define what it is or delineate its authority. For some people the Bible is simply a good book that contains some worthwhile religious or moral teachings. For others, it is a kind of magical book of sacred puzzles and mysteries for which they alone hold the key.

Some people value it as literature, praising its poetry and narrative. Still others regard it as a book of enlightened fairytales and myths that were helpful to less civilized people, but are of no more value to man today. There are those too who regard the Bible as the verbatim transcript of God's pronouncements to men, while to others it is a lawbook of statutes and laws.

While men continue to disagree on the nature and authority of the Bible, it is helpful sometimes to consider what the Bible often says about itself. For example, the writer of 2 Timothy refers to "sacred writing" (3:15). To be "sacred" is to have special relationship to God. These writings of men are "sacred" because of their relationship to God, because he is able to speak to men through them. We regard them with reverence, then, not because in themselves they are an object of reverence, but because they bring us into communion with the One whom we do revere. Christians do not worship a book, but the God to whom the book brings us closer.

Secondly, the writer of 2 Timothy tells us that this scripture ("sacred writings") is inspired by God (3:16). To inspire means to "breathe into." Thus we are saying that God has breathed into these writings his own life-giving spirit. They come alive in people's hearts because he infuses them with his power and life.

Closer to God

The Bible is always intended to serve as a channel through which God is able to speak to us and help us. It is like a window in that regard: its purpose is to allow us to see something beyond it. We do not concentrate on the window, but on what we can see through it. So it is with the Bible: it's purpose is to point beyond itself.

The writer of 2 Timothy makes this clear when he lists the various functions of Bible study. It is "profitable for teaching" (3:16). The purpose of this teaching is not so that we will come to "know" the Bible, but rather that we will come to know God in Christ.

Its purpose is also "reproof," says the writer. In other words, the Bible helps us to combat that which is untrue. Whenever the Christian seeks to combat a popular evil, the Bible is always his best resource. It is a yardstick by which we measure both men and the world in which we live.

THERE IS ALWAYS ROOM FOR IMPROVEMENT

Although it may seem to be the same pharmacy you have always depended upon for your health needs, there have actually been a great many behind-the-scenes changes. These changes have resulted in better service to our customers and to their physicians.

New systems for keeping track of seldom-used medicines, better controlled conditions for storage of many drugs, more detailed records of family prescriptions, a larger inventory of new drugs are just a few of the changes we have made. We feel it is our duty to provide the most up-to-date pharmacy service that is possible.

YOUR DOCTOR CAN PHONE US when you need a medicine. A great many people entrust us with their prescriptions. May we compound yours?

Rare Bibles On Display at Library

A complete copy of the Bible, 387 years old, and a copy of the New Testament, 399 years old, form part of a Biblical display that can now be seen in the Ruth Enlow Library in Oakland. The display has been prepared in conjunction with the Library staff by Dr. Lawrence Sherwood of St. Paul's United Methodist Church in Oakland, and the Rev. John A. Grant, St. John's Episcopal Church in Deer Park. In addition to the complete Bibles, leaves from rare editions of the Bible are also included in the display.

The copy of the Bible which is 387 years old is part of the collection of Bibles and manuscripts of Dr. Sherwood. It is the Geneva Bible which was first printed in 1583, and is in a remarkable state of preservation. The imprint of the type is still clear, and the binding is in fairly good condition. In addition to the Bible, he also has included pages from the 1611 edition of the King James version of the Bible in the display. For a short time, a fragment of a Coptic Gospel which is over 1000 years old, will be exhibited.

The copy of the New Testament which is 399 years old is the property of Mrs. Wm. W. Grant, Sr., Oakland, and is written in Spanish. It has been handed down through the Grant family for many years, having been acquired by Alexander McInnes in London, England, before the Civil War.

Surrounding these personal items are pages of rare editions of the Bible which are the property of the Ruth Enlow Library. The oldest is a page from the Flemish Bible that was published in 1539 A.D. Other pages are from the Hebrew-Latin Bible of 1593; a page from Queen Elizabeth's Robert Baker Bible of 1594, and a page from the French Bible printed in 1619.

All of these pages were part of a three to four million dollar Bible collection that was separated page by page and made available to the public. The library in Oakland was fortunate enough to get some of these pages and part of their collection of pages used in the display.

Visitors to the Library will find the display of Biblical material in the glass case in the center of the reading area.

Knotts, vice-president; Debbie Fike, sec'y.; Becky Fike, treasurer; Gladys Ayers, game leader; and Helen Knotts, reporter.

At the meeting October 5, Connie Upole had the demonstration on how to polish shoes correctly. Next month's demonstration will be given by Martha Knotts on good grooming. Refreshments were served by Cathy White.

It was decided that senior club members, interested in remaining in the club would serve as junior leaders. They are Martha Knotts, Joyce Pendergast, Sharon Fike, Jim Matthews and Mike Savage.

OCTOBER 15 - 21

Tomorrow the planet, Saturn, will be close to the moon. It will be south of the moon or under it when the moon is halfway across the sky. Saturn is near the small group of stars that is called by some, the seven sisters.

Mars arises about two hours before the Sun. It is moving into Leo.

The asteroid, Pallas, will be stationary in the sky on Saturday. This 300 mile diameter rock is too dim to see without a telescope. It appears to be stationary because the earth has just passed it.

This week the moon is waning. It will be passing through the last quarter phase at 11:05 p.m. on Wednesday. Moonrise will vary from 6:51 p.m. today to midnight next Thursday morning.

Today there will be eleven hours and twelve minutes of daylight. The Sun will rise at 7:28 a.m. and set at 6:40 p.m. On Wednesday sunrise is at 7:33 a.m. with sunset at 6:31 p.m. Daylight will decrease fourteen minutes during the week.

A meteor shower occurs this week. The maximum of this shower will be on Wednesday; although, meteors will also be more abundant on Tuesday and on Thursday nights. These meteors will appear to originate in Orion and are called the Orionid Meteors. About 25 meteors may be seen per hour on Wednesday night.

The Allegany County Outdoor School will visit the planetarium to study the North Circumpolar Constellations on Monday afternoon.

The adult education class, The Friendly Sky, will not meet on Wednesday. It will resume as usual on Wednesday, October 28.

OUT WITH THE OLD—This was the sentiment of the nurses and nurses' aides at the Cuppett Weeks Nursing home, particularly for those of the 3 to 11 shift as they donned new uniforms last Friday for the first time. This is the first official professional uniform for nursing personnel to be adopted at the nursing home and they have the unanimous approval of the patients, the nurses say. They are a white pant suit, and replace the mini skirts and other varieties formerly in use. In the photo, left to right, are Esther Friend, Deer Park; Elizabeth Friend, Deep Creek Lake; and Anna Hebb, Mt. Lake Park.

THE SIGN OF THE BROKEN CROSS IS ANTI-CHRIST AND ANTI-AMERICAN!

Do you know this symbol was called the witch's foot in the Middle Ages, and it was a common symbol of the devil? It is promoted now in the U. S. Sermonette By Area Ministers

Forgiveness - Needed

" - forgive us our debts, as we forgive our debtors." According to Matthtw 6:12 these were Jesus' words forming part of the Universal Prayer known as the Lord's Prayer. And, did you ever stop to think that it is the only part of the Prayer that Jesus elaborated on? For, following the prayer, as recorded in Matt. 6, He continued, "For if ye forgive men their trespasses, your heavenly Father will also forgive you; But if ye forgive not men their trespasses, neither will your Father forgive your trespasses." (Matt. 6:14-15). Thus, it would seem that our being forgiven, depends upon our forgiving others. The Key to Heaven may be here!

Christ certainly taught and lived Forgiveness. In the Parable of the Prodigal Son, He illustrated the concern Our Heavenly Father has over His wayward children, and His eagerness to have them return. Through Christ, He even came to meet us - to Redeem us! Apparently, His Disciples learned at least part of His Lesson. In the 18th chapter of Matthew, Peter questioned Him concerning how often he should forgive. The Hebrew perfect number was seven, and so, Peter was going to be perfect. So, he asks: - " -- Lord, how oft shall my brother sin against me, and I forgive him? Till seven times? Jesus saith unto him, I say not unto thee, Until seven times; but, Until seventy times seven" (Matt. 18:21-22). One of my Seminary Professors, Dr. Rufus Bowman, in discussing this Scripture stated that he didn't think Jesus was a mathematician and expected us to keep tally of our forgiving another, but that we should so form the habit of forgiving that we would experience the Joy of Forgiving!

Certainly from the Cross, Jesus gave us the greatest illustration of Forgiveness. As He hung there, dying, "Then said Jesus, Father Forgive them; for they know not what they do" (Luke 23:34). What a testimony! What a spirit of Forgiveness! On behalf of thost who had hanged Him, Jesus would plead His Father to forgive them!

Certainly, the world in which we live needs the Spirit of Forgiveness. All of us are imperfect, make mistakes, and need to be forgiven. Daily we do err. If we want to be forgiven, then, we need to forgive those who wrong us. And, how much better the world would be if there was more of a forgiving spirit and Love. A forgiving spirit makes for Love and Trust. How differently the world scene might be if all men had a forgiving Spirit. What might happen, if all the world would practice what they pray - "Forgive us . . . as we forgive"! Would chains of envy, bitterness, and strife be broken? Would guns cease? Would a Spirit of Good-will and Peace prevail?

As God's Children, may we accept His Forgiveness, may we practice forgiveness, and thus help Love and Brotherhood prevail on earth. Paul's admonition to us in Col. 3:13 was " - even as Christ forgave you, so also do ye."

Southern Hi Rams Crush Terra Alta

Southern High added the Turkey Bowl trophy to its display case by crushing Terra Alta High 46 to 0 last Thursday night in the third annual Autumn Glory Festival football game at Oakland.

Southern Rams, who amassed a total of 350 yards on offense and allowed only 126 on defense, struck four touchdowns on runs from scrimmage, one on a pass play and another on a kickoff return.

Benny Shaffer started the Ram's pointmaking by crashing in from three yards in the opening quarter. Rick Shaffer added the extra points on a run. Rick Shaffer came back with six more points of his own in the second period on a 26 yard run. He also had a two point conversion after Pete Cosby raced 42 yards for a touchdown.

Defenseman Bill Skipper got his opportunity to break into the scoring column at the start of the second half. Skipper took the opening kickoff at his 25 and raced the 75 yards to score. Dave Upole went in with the two point conversion, boosting Southern's edge 30 to 0.

Tom Hayhurst figured in both scoring plays in the final quarter, running six yards for one score and then passing 22 yards to Ben Shaffer for the final touchdown. Ben Shaffer and Ben Sincell added two point conversions.

Tom Bosley, George Tusing, Greg Lee and Jim Ashby each intercepted passes for Southern while Mike Gravely and Skipper also sparked defensively. Cosby led the offense with 102 yards in 15 carries while Rick Shaffer had 75 yards in 13 totes. Southern had the edge in first downs, 14 to 4, completed 4 of 12 passes while Terra Alta tried 18 passes and completed 3. Terra Alta had three fumbles and recovered one. Southern had eight fumbles and recovered seven. The Rams were penalized a total of 80 yards, with Terra Alta having penalties totaling 85 yards.

In the closing minutes of the contest Coach William Frost emptied his bench and all players got into the contest.

Southern's next three encounters will be played away, Bruce at Westernport on the 17th, Petersburg on October 23 and Howard County on October 30.

The final game will be with the Northern Huskies on the home field on Friday, November 6.

The New Morality? Drugs?
. . . Dwight Harvey

Two of America's greatest problems today are the New Morality and drugs.

There is hardly a movie shown in this country today that does not reflect the decadent influence of the New Morality. Sex books reach the best-seller lists. Pornography abounds on every newstand and a President's commission upholds the right of the peddlers of this smut to sell it on the open market.

Drug use has become so prevalent that the jargon of the addict is now in common usage in everyday conversations. In just the past few weeks have Garrett Countians found that this problem has extended itself into their very midst.

Why have these two vices, two evils, taktn such a hold on our society? The answer can be found in Aldous Huxley's book, "Brave New World," a book often quoted by the young dope users, although usually out of context.

Mr. Huxley pointed out that drugs and promiscuous sex can be and are being used by Communist and other totalitarian regimes to keep their dictatorial hold on their populations. The New Morality and drugs, if not introduced by Communists, have at least been proliferated by their subversive actions.

What can be done about this problem? The answer is to support government and its policies, and to fight against the New Moralists and drug advocates. Do not stand passively by and allow the enemy to take a firmer hold than he has. Act now!

IN MEMORIAM

In loving memory of our beloved father and grandfather, Earl W. Staub, who was taken to rest October 14, 1964.

Sadly the years have passed since you were taken to rest.

But you will never be forgotten by those who loved you best.

We do not need this special day to bring you to our mind.

As everytime we think of you, we shed a silent tear.

Time so far has only proven how much we miss you (Dad).

Sadly missed by his daughter, son-in-law and two grandchildren, Mr. and Mrs. Glenn E. Frazee, Joyce and Lynn.

Huskies Lose To Kingwood 16 to 8

The Kingwood High school Stags won their first football game of the season on the home field last Friday night, defeating Northern High Huskies by the score of 16 to 8.

With the score tied 8 to 8 the Kingwood team marched 52 yards for a touchdown midway in the fourth quarter to clinch the match. The loss put the Huskies with a 2-4 record on the season, having won from Terra Alta and Parsons but losing to Valley, Berlin, and Meyersdale in addition to last Friday's defeat.

Northern's touchdown came in the second quarter on a 47-yard scoring drive culminated by a six-yard smash by Brenneman's into the end zone. Sutherland passed to Myers for the conversion and the score stood 8-8 at the half.

It remained deadlocked until Durr tallied the game-winning touchdown and again the Liston to McDonald combination added the extra points.

Statistically Northern had an edge of 15 to 11 in first downs. 160 yards to 114 yards in rushing and 200 to 90 in passing. Northern connected on 7 of 14 attempts while Kingwood had 9 completions in 14 tries.

What Rights? . . . .

The Friends Committee on National Legislation has issued a statement declaring that an adequate guaranteed income is "a matter of right." Since this view is typical of that held by "liberals" in general a proper comment was made by Dr. Howard E. Kershner, editor of "Christian Economics." He said:

"A society which concedes the 'right' of an individual to wealth produced by another, will not long remain free and self-governing or be able to maintain prosperity.

SRC Officials Ready For Winter

Maintenance crews of the State Roads Commission in this area are making preparations for the approaching winter season.

William Goldsborough, the resident engineer, announced that some 4,500 tons of chemicals and 10,300 tons of abrasives are being stored in seven areas along U. S. 219, 50, Maryland 135, and Maryland 42, with each area equipped with a front end loader. The abrasives included sand and stone while the chemicals include sodium chloride and rock salt.

Mr. Goldsborough said the commission's policy on U. S. 40 and 50 was for bare roads and that the workers would use 90 percent chemicals on these highways.

All equipment is in readiness with spreaders and plows ready to go. He said fifty men had been assigned to their respective areas with truck driver and helper with each truck of the 3½ t. capacity. These units are backed up by heavier equipment like a large snow blower at Oakland, two other blowers, one at Oakland and one at Accident, attached to front end loaders. The snow blower units are versatile and can get to critical areas much faster than the large blower.

There are also two graders and two large 10-ton capacity trucks equipped with large V-plows and wing plows.

During times of extreme emergencies the SRC equipment and men from neighboring Allegany county have been moved into the county to relieve local workers. Mr. Goldsborough said the SRC tries to keep a fresh crew of snow workers every 8 to 10 hours. They are subject to call at any time. He said some have not eaten Christmas dinner at home for a number of years. Workers are compensated time and one half for overtime.

He also said ten to twelve rental units are on stand-by basis. They are from three and one half ton trucks equipped with plows and spreaders to graders and bulldozers.

The commission is preparing to erect about 60,000 feet of snow fence in critical secondary road areas where drifting is most prevalent. The SRC crews work out of garages at Oakland and Accident.

This is the main sewage system proposed for the three towns.

Gets Combat Badge

Army Sp./4 James W. Glotfelty, 19, son of Mrs. Dorothy M. Glotfelty, 137 N. Fourth St., Oakland, recently received the Combat Infantry badge near Xuan Loc, Vietnam.

The badge is a unique award that is coveted by its recipients. The award was originated during World War II to recognize the role of the infantryman. The CIB can be awarded only to a member of an infantry unit of brigade, regimental or smaller size unit who satisfactorily performed in active ground combat against a hostile force for a period of time.

The badge is worn above all other awards and decorations over the left breast. It is a blue rectangle with a silver rifle mounted on it, superimposed over a curved wreath. Subsequent awards are represented by stars at the top center of the wreath.

Spec. 4 Glotfelty received the award while assigned as a rifleman in Headquarters Company, 4th Battalion, 23rd Infantry of the 25th Infantry Division near Xuan Loc. He entered the Army in July, 1969, and completed basic training at Fort Knox, Ky.

Will Make Study Of Yough Basin

Three public meetings on the Youghiogheny river basin study will be held in November, two in Pennsylvania and one at the cafetorium of Northern High School, Accident. The latter meeting is set for Tuesday, November 17, at 8 p.m.

The Congress of the United States has directed the Corps of Engineers to make a comprehensive study of the basin, located in parts of three states. Purpose of the study is to evaluate the extent of the present and future water resource problems or needs in the basin such as need for flood control, water supply, water quality control, recreation, fish and wildlife enhancement, hydroelectric power and navigation.

The study also is to determine the feasibility of meeting these needs by constructing projects such as multiple purpose reservoirs, local channel improvement projects for flood control, and navigation structures. The study will evaluate the effect of all proposed projects on the aesthetics, ecology and other environmental factors, it was pointed out.

The meetings are open to any interested individual or group. Oral statements will be heard, but for accuracy of record, important facts and statements should be submitted in writing, according to H. C. West, colonel, corps of engineers. The study will be managed by an Executive board with the Corps of Engineers as chairman. Many other agencies are involved including the Soil Conservation Service, Bureau of Outdoor recreation, Fisheries and wildlife, Maryland Department of Natural Resources. A local advisory board, consisting of citizens from various communities within the basin, has been formed to serve as a local sounding board and the corps' liaison with the general public.

The two other meetings are set for McKeesport, Pa., on November 9, at 10 a.m., and Connellsville, Pa., on November 16, at 8 p.m.

County To Return To Standard Time

Garrett county residents will lose that "extra" hour of daylight time at 2 o'clock this Sunday morning as the county returns to Eastern Standard time with the balance of Eastern United States.

Residents are reminded to turn back their clocks one hour before retiring for the night, lest they find themselves arriving an hour early for church services on Sunday.

The county will join all other counties in Maryland and Baltimore city for the return to standard time from the six months period of daylight saving time. A law signed in 1968 decreed that any area using daylight time in 1966 must apply it from the last Sunday in October. Daylight time is applied universally throughout the nation except in those states whose legislatures have exempt themselves from the ruling.

October 25 is the last Sunday in October, so the ruling will apply on that date.

Murdered Man's Auto Recovered

Baltimorean Arrested In Fallon, Nevada, Early Saturday Morning

The sheriff's office in Churchill county at Fallon, Nevada, reported over the week-end that a 20-year old Baltimore man was taken into custody early Saturday morning in possession of the 1963 automobile of a murdered man, whose body was found last Tuesday morning, October 13, near Keyser Ridge, along route 40.

The man was identified by Nevada authorities as Walter Herbert Guthrie, 2301 Washington Boulevard, Baltimore. He was taken into custody about 4:50 a.m. Pacific time Saturday, by Deputy Sheriff Wayne Love, in the automobile which bore Maryland license tags BC 4055.

Tfc. L. E. Dunton and Tfc. D. A. Tucker reportedly flew to Nevada Saturday to question the man.

The body of Merle Edward Aul, 46, of Baltimore, was found October 13 by a truck driver. It was determined that he had been stabbed numerous times in the chest and abdomen and died sometime between 10:30 p.m. Monday and 2 a.m. Tuesday.

Mr. Aul's widow, Mrs. Gloria Aul, identified the body and told police that her husband left home headed for Clearfield, Pa., where he was planning to place his father, Curtis Aul, in a rest home.

Mrs. Aul also told police that

Candidates Spend $9,868.11 During Primary Campaign

Forty-two candidates and the Republican State Central Committee spent a total of $9,868.11 during the recent primary election campaign. There are six incomplete returns.

Those who spent $100 or more were: Samuel J. Thomas, Arthur M. Savage, William W. Grant, John F. Browning, James E. Frantz, Earl E. Opel, William R. Virts, J. Edward Tasker, Wayne B. Hamilton, Theodore Raynovich, William Fitzwater, Jr., Bernard M. Guy, Republican State Committee, Ellis O. Cogley, John Ross Sines, Asa F Nethken, and Allen S. Paugh.

Resignation Of Commissioners Seen Probable

Meeting This Morning Set To Explore Safeguards To Public

There was some indication this morning that the County Commissioners would submit resignations in an effort to clear the way for a settlement with the former road workers. A special meeting was scheduled for 9:30 a. m., but until ten o'clock only Hubert A. Friend, president of the body, had arrived.

In talking with Mr. Friend he indicated that the possibility of all commissioners resigning would be explored and that he would require safeguards in the resignation statement that would protect the welfare of the public in general.

He said he was agreeable to the resignation upon these conditions, and that the possibility existed that the other two commissioners would arrive at some agreement that would satisfy all three.

The anticipated settlement followed consultations and plans throughout the past month by interested citizens and the Republican State Central Committee. Over a month ago the State Central committee felt it had the acceptance of all three commissioners to a plan of resignation, and appointment of three interested citizens who would maintain the office until the general election and the subsequent qualification of the newly elected commissioners, but that when it came time to sign the resignations Allen S. Paugh had balked.

An agreement had been made with Governor Marvin Mandel that the certification of the appointees would be forthcoming swiftly, but most of the members of the committee now felt the agreement was at least a month late.

County Is Third In Bond Sales Quota

Maryland sales of E and H bonds in September did not follow the increased sales pick-up which was anticipated as a percent bonus offered, but Garrett County was in the No. 3 position. Total sales amounted to $7,163,682 for September, making a total of $27,749,844 for the period January through September, compared to $28,466,213 last year for the same period.

Garrett county's quota for 1970 is $214,000. The total sold was $11,166, bringing the total for the period January through September to $213,406, compared to $182,765, or 99.7 of quota, to place number 3 among the counties and Baltimore city.

Gets Huge Loan

The office of the U.S. Senator Charles McC. Mathias, Jr., Republican senator from Maryland, announced this week that the Economic Development administration of the Department of Commerce had approved a loan of $3,750,000 in helping to establish the Bausch and Lomb, Inc., plant in this county, just east of Mt. Lake Park. Mr. Mathias said the company planned to employ 480 persons.

The plant has been under construction for the past several months, and is scheduled to be in operation during the summer of 1971.

LETTER TO THE EDITOR

Arlington, Va. 22207
October 15, 1970

The Editor
The Republican
Oakland, Maryland 21550

Dear Sir:

It may be of interest to some of your readers to hear the views of an outsider who has invested in vacation property in your area concerning the breakdown of road maintenance in Garrett County for the past many months.

Let me state at the outset that I take no side with respect to the issues involved in the road-worker's strike, as indeed I know very little about that matter. What I do know, however, is that recently I paid about $500.00 in real estate taxes to Garrett County, in return for which I expected to make use of about one mile of county road to reach my house on Deep Creek Lake. That road is now nearly impassable, and can be traversed only with grave danger to man and machine. Since I am essentially a weekend resident who uses no other services provided by Garrett County, that mile of road represents about all I can expect to receive for my tax money.

What will be done about the intolerable road conditions is up to the voting residents of Garrett County. Obviously the present elected officials have failed to perform a public trust, for which they have to live with their own consciences.

As for myself, and I think for others who have come from the outside to invest in vacation properties, we will have second thoughts about the wisdom of investing further in a community that seems to be incapable of responsible self-government.

Yours very truly,
Russell O. Pettibone

4-H Members May Reap Double Harvest

In a generous mood, Mother Nature is showering her bounty on 187,000 4-H'ers enrolled in the national 4-H horticultural program again this year.

The young people grow fruits and vegetables, plan and plant their home grounds and care for ornamental plants for the house, yard and garden. And they learn from practical experience and educational materials provided by the Cooperative Extension Service.

Of all seasons, late and early fall is the most colorful and fruitful time of the year. It also is the time when 4-H horticulturists can reap a double harvest. Not only do they use and enjoy what they have grown, but many earn recognition for their good work.

Teaming up with Mother Nature in the bountiful harvest is Allis-Chalmers, sponsor of the 4-H horticultural program for 25 years. The company provides top 4-H achievers with awards at county, state and national levels.

Topping the list are eight $600 national scholarships. The state winner receives an expense-paid trip to National 4-H Congress to be held in Chicago, Nov. 29-Dec. 3. County awards are medals of honor. This year more than 6,500 young horticulturists are expected to receive such recognition.
